

A Division of Auto Care Products, Inc.

Please read before using the Tire Savers™

Customer Instructions:

1. Park your vehicle in the desired location.
2. Back your vehicle up approximately 6" to 8".
3. Before placing the Tire Savers™ on the floor, sweep away all dirt and debris.
4. Slide each Tire Saver in front of the vehicle's tires until they touch the tire, centering the Tire Saver with the vehicle's tire.
5. Slowly drive up onto the Tire Savers. You will feel your vehicle drive up over the first hump and settle down onto the Tire Saver.

Caution:

- Always drive your vehicle onto and off of the Tire Savers slowly.
- Turning your tires while on the Tire Savers can cause the Tire Savers to move. Try to avoid this when driving onto and off of the Tire Savers.

Warning:

This device is designed to prevent flat spots from forming on your tires only. It is NOT designed or intended to stop a vehicle or tire from moving in any way.

Lifetime Warranty:

GaragePro offers a lifetime warranty to the original retail purchaser of the Park Smart® Tire Savers™. GaragePro will, upon proof of purchase, repair or replace any defective Tire Savers free of charge. The original retail customer is responsible for returning and paying for all freight charges to return product to GaragePro.
