1/4in. Vinyl On/Off Valve

valvula de control par abrir/cerrar de 0.63 cm

These Control Valves are used to adjust or turn on and off the flow of water. They can be used with 1/4 in. Vinyl or 1/4 in. In-Line Drip Tubing.

Con 3 patrones diferentes en uno, este dispositivo riega gentilmente con una cobertura de 4 a 6 pies (de 1.2 a 1.8 m). Es ideal para regar parques, a lo largo de paredes y senderos.

- Shuts water on and off to Drippers and Micro Sprays
- Use to adjust the size of Micro Spray patterns

1

To Install, push the 1/4in. Vinyl onto the barbed ends of the Valve.

2

Now make only quarter turn adjustments to turn the Valve on and off.

When the arrow on the Valve is in line with the tubing, the Valve is in the "On" position. When the arrow is perpendicular to the tubing the Valve is "Off".

Con este convertidor, puede disminuir significativamente el consumo de agua debido a que los microaspersores, los goteros y las tuberías de goteo en línea riegan su jardín más eficazmente.
