- Includes U-bolts, hardware, and zinc plated wingnuts
- Lightweight, aluminum structure
- Product weight: 5 lbs.

The Stand Off Ladder Stabilizer by Roof Zone is a great addition to any extension ladder safety plan. The 48" fixed span and 12" standoff allow the Ladder Stabilizer to sit flush against the siding of a home. The Stand Off Ladder Stabilizers feature lightweight, aluminum tubing and offer temporary or permanent use. The replaceable orange caps do not mark any surfaces, allowing the Stand Off Ladder Stabilizer to be damage-free. Tie Down Safety maintains high standards and quality control through quality raw materials and components.
