1: Usage method

The height of the product can be adjusted according to the needs, but it must be operated by adults.

2: Precautions for use

When adjusting the height, align the holes. Do not tighten them first, and tighten them together at last. Tighten the hole again after one to two weeks, which is more stable and durable.

3. Installation precautions and instructions

If the legs are not equal, please align them first and then install them. The accessories can only be installed with the correct size.

4. Product description

This product is easy to maintain, pay attention not to direct sunlight, moisture, acid, If there are stains, please use a small amount of detergent to dry, and then use a dry cloth to wipe.
