

USING THE LADDER:

1. Do not overreach. Users should keep their body centered within the width of the ladder, with both feet on the same step while working.
2. Ladders should only be used for light work of short duration.
3. Face the ladder when ascending and descending.
4. Keep a secure grip on the ladder when ascending and descending.
5. Wear slip-resistant shoes.
6. Any equipment carried while using a ladder should be light and easy to handle.
7. Do not try to move the ladder while in use.

NOTE: Repairs and maintenance are to be done by a competent person only. Store in a cool, dry place.

OPENING THE LADDER:

Caution: Always check that the ladder is 'LOCKED' before climbing.

LOCKED

Product Manual

Household Steel Ladder Series

INSTRUCTIONS FOR USE BEFORE USE:

1. When transporting ladders on roof bars or in a truck, ensure they are properly positioned to prevent damage and are securely tied down.
2. Inspect the ladder after purchase and before its first use to confirm the condition and operation of all parts.
3. Visually check that the ladder is not damaged and is safe to use at the start of each working session.
4. For domestic use only.
5. Ensure the ladder is suitable for the task.
6. Do not use a damaged ladder. Check every step prior to each use.
7. Remove any contaminants from the ladder, such as wet paint, mud, oil, or snow.
8. Always wear sturdy boots with good grip. Never wear smooth-soled footwear when using the ladder.
