SAVE THESE INSTRUCTIONS

DISPOSAL OF THE BEVERAGE CENTER

A WARNING

Suffocation Hazard Remove door from your old beverage center. Failure to do so can result in death or brain damage

Before you throw away your old beverage center: Take off the doors.

2. Leave the shelf racks in place so that children may not easily climb inside. All refrigeration products contain refrigerants, which under federal law must be removed prior to product disposal. If you are getting rid of an

old refrigeration product, check with a qualified disposal company for

A WARNING

GROUNDING INSTRUCTIONS

Do not remove grounded s prong outlet.

Do not remove ground prong.

Do not use an adapter.

Do not use an extension cord.

Failure to follow these instructions can result in death, fire, or electrical shock.

This appliance must be grounded due to the event of an electrical short circuit.
This appliance is equipped with a grounded wire and a grounded plug.
Beverage center must be plugged into a properly installed grounded 3 prong outlet.

Consult a qualified electrician or service technician if the grounding instructions are not completely understood or if doubt exists as to whether the appliance is properly

LOCATION REQUIREMENTS

A WARNING

Explosion Hazard Keep flammable materials and vapors, such as Gasoline, away from beverage serior.

Failure to do so can result in death, explosion, or fire.

1. It is recommended not to install the beverage center near an oven, radiator, or other heat source.

2. Do not install in a location where the temperature will fall below 55 °F (13 °C). For best performance, do not install the beverage center behind a cabinet door.

3. The beverage center should be located on a firm, flat surface that is strong enough to support the beverage center when it is fully loaded.

4. Leave a minimum of 1/2" (1.27 cm) between each side of the appliance and the wall. The top and back of the appliance should have a minimun 1.5" (3.81 cm) clearance. This allows for proper air circulation. This appliance is intended to be free-standing and should not be built-in or placed in arecessed area.

5. The beverage center legs must be adjusted during installation in order to function properly. The leveling legs on the front corners can be adjusted by turning clockwise to raise the appliance, and counter-clockwise to lower it. Be sure to have the appliance sloped slightly backward to ensure that the door closes tightly.

6. Do not put the unit in a place where it is subjected to sunlight. 7. Do not put the unit in a palce where the ambient temperature is more than 90 °F (32 °C).

INSTALLATION INSTRUCTIONS **A WARNING**

Excessive Weight Hazard Use two or more people to move and install beverag Failure to do so can result in back or other injury.

Before using the beverage center for the first time, remove all of the packing materials, including the foam base and adhesive tape holding accessories in place. Before using for the first time it is recommended to allow the unit to cool to the set temperature before loading cans in the unit. Also Load 1 shelf of cans and allow the unit to cool before adding another shelf of cans. BEVERAGE STORAGE

1. The maximum capacity of GLB36MS2F07 is 130 cans (11 oz/330 ml) as shown in Figure A. The height for the can is 4.57 inch (116mm). 2. In order to achieve the maximum capacity, arrange 30 cans, 33 cans, and 33 cans respectively in the top three rows. 3. Arrange the 34 cans in bottom rack as shown in Figure B.

4. Store beverages in sealed containers only.

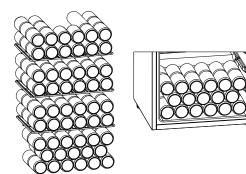

Fig. B
