Cat Shelf

USER GUIDE

APCTPRCH

Thank you for purchasing the **ArfPets® Cat Shelf**. This User Guide is intended to provide you with guidelines to ensure that operation of this product is safe and does not pose risk to the user. Any use that does not conform to the guidelines described in this User Guide may void the limited warranty.

Please read all directions before using the product and retain this guide for reference. This product is intended for household use only.

This product is covered by a limited one-year warranty. Coverage is subject to limits and exclusions. See warranty for details.

PACKAGE CONTENTS

- ArfPets® Cat Shelf
- Installation hardware

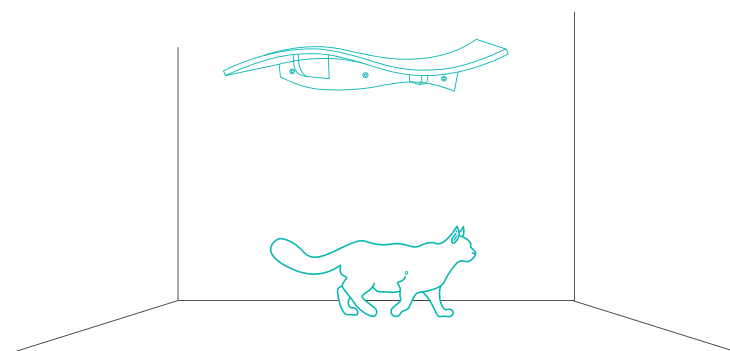

- User guide

INSTALLATION INSTRUCTIONS

1. Mount the shelf to a wall (or flat-sided windowsill) using the included hardware as pictured in the figure below. The plastic wall screw sheaths (**part B**) should be inserted into the wall first, and then the regular screws (**part A**) should be inserted through the shelf and into the sheaths as shown.

2. The shelf should be mounted at an appropriate height for your pet dependent on their height and jumping ability. For cats, usually 1-2 cat lengths is appropriate.

3. Test the sturdiness of the shelf with books or similar weighted materials before allowing your cat to jump on it.

4. Once the shelf is installed at a good height and confirmed to be sturdy, allow your pet to enjoy their new perch!

SAFETY PRECAUTIONS

Please be aware the weight limit of this shelf is 44.1 lb. (20 kg). If your pet exceeds this weight limit, the shelf will not support them.

This shelf should only be mounted on surfaces that can support the weight of the shelf plus the weight of your pet.

Make sure to properly dispose of all packaging materials immediately after opening the box. Plastic bags used for packaging can suffocate pets and/or children.

Do not leave the shelf and its parts unattended within the reach of children. Small parts like screws and screw covers present a choking hazard.
