IMPORTANT MESSAGE

WARNING - PLEASE READ

ADULT ASSEMBLY REQUIRED

CHOKING HAZARD - Small Parts

NOT for children under 3 years of age.

WARNING:

While every attempt is made to ensure the highest degree of protection in all equipment, we cannot guarantee freedom from injury. The user assumes all risks of injury due to use. All merchandise is sold on this condition, which no representative of the company can waive or change.

WARNINGS

Please read these warnings and the information in this manual in its entirety.

Failure to comply with the following instructions may increase the risk of serious injury and/or death:

- Ensure the trampoline has been assembled correctly, per the instructions in the manual.
- It is essential that the intended site for this trampoline is completely flat and level. If the ground is not level this will cause movement in the frame and could cause stress on the joined sections.
- Before each use of this product, inspect the entire assembly and replace any worn, defective or missing parts.
- It is only recommended for use by children 6+ years of age.
- DO NOT exceed the recommended MAXIMUM WEIGHT limit of 350lbs (159kgs).
- DO NOT allow more than one person on the trampoline at a time.
- DO NOT wear glasses or helmets when using the trampoline.
- DO NOT use the trampoline in wet, windy or other adverse weather conditions. Use only when the trampoline mat is clean, dry, and safe of obstructions.
- DO NOT somersault or perform flips. This can cause serious injury, resulting in paralysis or death.
- DO NOT use the trampoline as a springboard to or from other objects. NEVER jump from or attempt to jump to other objects, bodies of water, buildings or surfaces, or into or over the trampoline enclosure.
- DO NOT allow other persons to go under, sit, stand or lie on the trampoline or the frame pads while the trampoline is in use.
- DO NOT use the trampoline set when under the influence of alcohol, drugs or medication which may impair the jumper's judgment and coordination.
- ALWAYS remove jewelry, belt buckles or any other sharp objects before using the trampoline.
- ALWAYS jump in the center of the trampoline mat.
- ALWAYS secure the trampoline against unauthorized and unsupervised use.
- NEVER wear footwear (e.g. shoes) when using the trampoline. ALWAYS wear socks when using the trampoline.
- Children MUST NEVER use the trampoline unless supervised by a responsible adult with knowledge of trampoline use.
- Children MUST NEVER be left unattended at any time.
- Ensure the trampoline set is on level ground with a minimum of 8 feet (2.5M) clear space around the sides, 26 feet (8M) clear height space above and that no obstructions are under the trampoline.
- ALWAYS watch for power lines, overhead cabling, and other hazards or obstructions above, around and below the location where you are installing your trampoline set. Failure to do so can result in serious injury, death, and property damage.
- Mount and dismount from the trampoline and enclosure with care as injury may result. Children should be assisted when entering and exiting the trampoline to reduce the risk of falling.
- The frame of your trampoline set is made of steel and it will conduct electricity. No electrical equipment (lights, heaters, etc.) should be permitted on or around the trampoline under any circumstance.
- Please read and refer to other warnings and use information in the trampoline instructions before use.
- Dispose of all packaging materials safely and per local ordinance. This Safety

SAFETY INFORMATION

- **Safety Information:** This trampoline is designed and manufactured to provide you and your family with many years of fun and exercise, but for your benefit and safety, please read this manual carefully and in full before assembling and using your trampoline.
- **DO NOT** allow more than one (1) person on the trampoline at a time. Multiple jumpers increase the chance of someone becoming injured. Jumpers may collide with one another, fall off the trampoline, fall on or through the springs or land incorrectly on the mat. Multiple jumpers increase the chances of loss of control, collision and falling off. This can result in severe injury or death.
- Always secure the trampoline against unauthorized and unsupervised use.
- Trampolines are rebounding devices which propel the user to unaccustomed heights and into a variety of body movements. Rebounding off of the trampoline, striking the frame or springs, or improperly landing on the trampoline mat (bed) may cause injury.
- The frame of your trampoline is made of steel and it will conduct electricity. No electrical equipment (lights, heaters, extension cords, household appliances, etc.) should be permitted on or around the equipment under any circumstances to avoid the risk of electrocution.
- As your trampoline mat is raised off the ground, there is the risk of falling when entering or exiting the trampoline. Children should be assisted when entering and exiting the trampoline to reduce their risk of falling.
- Do not flip, somersault or perform maneuvers which may cause you to land on the head or neck. Paralysis or death can result even if you land in the middle of the trampoline mat.
- **IMPORTANT:**
You must not use the trampoline if you have a medical history of neck or back injuries or certain mental or physical conditions – an existing condition dramatically increases the risk of serious injury or death.
- No modification should be carried out to the trampoline or any of its components. Any modification could lead to damage to the product or result in a personal injury.
- **WEATHER CONDITIONS:**
Special care should be taken as weather conditions change. In particular, a wet trampoline mat (bed) is too slippery for safe jumping. Gusty or severe winds can cause jumpers to lose control. To reduce the chance of injury, use the trampoline only under appropriate weather conditions. In cold weather, tongues and lips can stick to metal at sub zero temperatures. In warmer and sunnier weather, parts can become extremely hot, and the temperature should be regularly checked during play, especially metal parts.
- **HIGH WINDS:**
It is possible for the Trampoline to be blown about by high wind. If you anticipate high winds, the Trampoline must be moved to a sheltered location, or be disassembled. Pure Fun™ is not responsible for any damage to property or product resulting from wind or extreme weather. You can purchase an ANCHOR KIT for your trampoline from Pure Fun, by visiting us on the web at: **www.PureFun.Net**

TRAMPOLINE PARTS LIST

Part #	Description	QTY	Part#	Description	QTY
1	Jump Mat	x1	6	Leg Extension	x12
2	Curved Top Rail	x12	7	U Shaped Leg	x6
3	T-Section	x12	8	Screw	x12
4	M8x50mm Bolt	x12	9	Spring	x72
5	M6x50mm Bolt	x12	10	Frame Pad	x1

TRAMPOLINE ASSEMBLY INSTRUCTIONS

STEP 1:

Gather all 12 Curved Top Rails (Part 2), flip them over so the spring holes are touching the floor. Separate them into 3 groups of 4 Top Rails. Make sure to place them all on a flat and secure surface before you begin.

NOTE:

The Curved Top Rail has spring holes in the top section. The bottom should be smooth.

Connect both ends of the Top Rail by attaching to the T-Section (Part 3)

STEP 2:

Secure all 3 parts by screwing M8 Bolt (Part 4) with the Nut facing toward the center of the trampoline.

STEP 3:

Once you have created 3 groups, place them on a safe and flat floor as shown.

NOTE:

Openings on the top rail must remain facing the floor until Step 7 when you are ready to flip them over.

NOTE:

Do not screw in M8* Bolt and Nut on the T-Section until Step 7, this will allow you to insert all 3 groups together once the U-Shaped Legs are installed.

TRAMPOLINE ASSEMBLY INSTRUCTIONS

STEP 4:

A. Gather all Leg Extensions (Part 6) and begin inserting them into the T-Sections

NOTE:

The Leg Extension will have 3 openings. The 2 square openings closest to each other, will go inside the T-Section. Make sure that wider section is facing the center of the trampoline.

B. Use M6 Bolt & Nut (Part 5) to install the Leg Extensions to the body of the T-Section

IMPORTANT MESSAGE

WARNING - PLEASE READ

NOTE: If you are installing Safety Enclosure. We recommend you install M6 Bolt (Part 5) loosely until you start the Owners Manual of the enclosure.

The bolt and nut will keep the trampoline attached safely until you finish installing it completely.

Once the trampoline is finished, the Bolt and nut will have to be removed in order to install the parts for the enclosure pole.

STEP 5:

Place the U-Shaped Legs (Part 7) on top of the extensions while keeping the openings facing the center of the trampoline.

If Step 4 has been followed correctly, you will be able to see both openings from the Leg Extension and U-Shaped Legs.

TRAMPOLINE ASSEMBLY INSTRUCTIONS

STEP 6:

Use the Screw (Part 8) with a Phillips screwdriver to secure the Leg Extension to the U Shaped Leg.

NOTE:

It is recommended to use a powered screwdriver to accomplish this task safely.

STEP 7:

Once all 3 groups have been successfully completed, flip them over so they may stand.

You may start connecting all ends to one another in order to complete the frame.

NOTE:

It is recommended that you use the help of 2 more adults in order to attach all groups together. The tension from the Top Rails might be too strong for one person to do by themselves.

Secure all 3 remaining T-Sections parts by screwing M8 Bolt (Part 4) with the Nuts facing toward the center of the trampoline.

The Frame of the trampoline should look like the illustration shown in Figure A

Figure A

TRAMPOLINE ASSEMBLY INSTRUCTIONS

STEP 8:

Place the Jumping Mat (Part 1) in the middle of the frame and unfold it completely.

NOTE:

Make sure the stitching of the Jumping mat is facing the floor

In order to avoid ripping and to distribute tension when attaching springs to the frame, follow the numbered order shown.

Once a spring is attached to the Jumping mat, you must attach the other in the opposite direction of the mat.

Once the first 16 Springs (Part 9) have been placed, Attach all remaining Springs using the T-Hook that was provided clockwise.

NOTE:

Failure to use appropriate tools may result in injury or pinching due to tension of the springs. We recommend you use gloves when attaching springs to the frame.

HOW TO USE T-HOOK:

In order to insert the spring properly, hook the curved end to the V-ring of the jumping Mat. Then, pull on the Long Round end with the T-Hook until it is attached on one of the corresponding openings of the Top Rail.

TRAMPOLINE ASSEMBLY INSTRUCTIONS

STEP 9:

Unfold the Frame Pad (Part 10) and place it on top of the Top Rail and springs. The skirt of the Frame Pad must cover the Top Rails completely to avoid injury.

NOTE:

Make sure the connecting straps are facing the Top Rails in order to secure the Frame Pad to them in Step 10.

TRAMPOLINE ASSEMBLY INSTRUCTIONS

STEP 10:

Find all the bottom connecting straps of the trampoline frame pad and secure them by tying them in a not on to the top rails to avoid moving or shuffling when jumping on the trampoline.

ENCLOSURE PARTS LIST

Part #	Description	QTY	Part#	Description	QTY
1	Straight Enclosure Pole	x6	6	Washer	x12
2	Curved Enclosure Pole	x6	7	Nut	x12
3	Enclosure Pole Cap	x6	8	Black Plastic Cap Nut	x12
4	M6x80mm Bolt	x12	9	Enclosure Net	x1
5	Spacer	x12	-	-	-

ENCLOSURE ASSEMBLY INSTRUCTIONS

STEP 1:

Gather all Curved Enclosure Poles (Part 2) and Enclosure Pole Caps (Part 3).

IMPORTANT:

Do not attach the Enclosure Pole Caps to the Straight Enclosure Poles. Once an Enclosure Pole Cap has been installed **it cannot be removed.**

Snap and click all Enclosure Pole caps to the Curved Enclosure Pole. The button must be pushed down, and you will hear a click once successfully attached.

STEP 2:

Collect all Straight Enclosures Poles (Part 1)

Connect the Straight Enclosure Poles and Curved Enclosure Poles using the Snap and Click mechanism. Button must be pushed down, and you will hear a click once successfully attached.

You will have 6 completed Enclosure Poles.

ENCLOSURE ASSEMBLY INSTRUCTIONS

STEP 3:

- A. Remove the Nut and bolt from 12FT Enclosure Trampoline on the right side of the U-Shaped Leg.

Do not remove all nuts and bolts at the same time, only 1 set a time to keep the strength of the Frame at all times.

NOTE:

Make sure to keep removed parts stored or in a safe place away from the mat while building the Enclosure.

- B. With the help of another adult, hold the completed enclosure pole by aligning both square holes to begin installation.

NOTE:

Curved Enclosure Pole must face the center of the trampoline.

- C. Once aligned, screw in the completed pole to the leg. Follow the directions on the next page (Page 10) for the order and right parts to attach properly

- D. Continue to do this on all U Shaped Legs one by one until you ave installed all 6 Enclosure poles tightly.

ENCLOSURE ASSEMBLY INSTRUCTIONS

M6x80mm Bolt

Spacer

Washer

Nut

Black Nut Cap

ENCLOSURE ASSEMBLY INSTRUCTIONS

STEP 4:

Place the Enclosure Net (Part 9) on top of the trampoline. Align the straps to the corresponding Enclosure Poles so they are as near to each other as possible when lifted

NOTE:

Make sure that zipper and buckle snap are facing the outside of the trampoline. This is good to ensure that Enclosure is not reversed.

STEP 5:

- A. To attach the enclosure net to the Pole Caps, grab the corresponding strap at the top of the Enclosure Net and slip through the opening of the Pole cap.
- B. If the Male Buckle Snap (Fork Side) to the strap, make sure to fasten into strap before inserting through the Cap
- C. Once Male Buckle snap is fastened, Attach to the other side of the buckle.
- D. You will successfully connect both sides when you hear them click.

STEP 6:

To keep the net attached to the Jumping Mat, slip the hooks at the bottom of the Enclosure Net through the nearest V-Ring slot, and hook to an adjacent V-Ring as shown.

Continue to do this until all hooks on the enclosure are attached in this way.

FREQUENTLY ASKED QUESTIONS

- Question: "The foam padding or mat is damaged, what should I do?"

Answer: If you are still within your warranty period (90 Days from initial purchase) you should contact customer service. You can also purchase replacement padding and mats at: www.PureFun.net

- Question: "I had a part missing from my box" or "something was damaged in shipping, can you send it to me?"

Answer: If it has been 30 days or less from the date of your initial purchase, you can contact customer service for a replacement part to be issued.

CARE & MAINTENANCE

- It is essential that the intended site for this trampoline is completely flat and level. If the ground is not level this will cause movement in the frame and could cause stress on the joined sections.
- Before each use of this product, inspect the entire assembly and replace any worn, defective or missing parts.
- The following conditions could represent potential hazards: Missing, improperly positioned, or insecurely attached frame padding; Punctures, frays, tears, or holes worn in the bed or frame padding; Deterioration in the stitching or fabric of the bed or frame padding; Broken or missing springs; A bent or broken frame; A sagging jump mat; or sharp protrusions on the frame or suspension system; Bent or broken enclosure poles; Missing or torn foam on the poles; Torn or ripped enclosure netting; Broken or fraying zipper in the enclosure opening. Cease using trampoline immediately and secure it against unauthorized use if any of these conditions are present.
- If any part of the trampoline frame requires cleaning, simply wipe with a damp cloth. (Do not jump on the trampoline after cleaning until completely dry).
- To clean chalk from mat, wipe down net with wet rag. Allow mat to fully dry before jumping.
