

Van Zyverden's CANNA LOUIS COTTIN

Cannas are among the most colorful summer bulbs with ruffled spikes tapering to refined buds, boasting immense, paddle shaped leaves. Their great reedy canes and palmy foliage make for large, magnificent plants, yielding blooms all summer for long lasting curb appeal. They are deer resistant and appear most dramatic when grouped in masses. These are fast growers with large flowers.

*large tropical banana-like
bronze colored leaves*

good in garden beds or larger containers

*handles more shade
than other canna varieties*

About This Variety: Canna Louis Cottin is a dwarf, deciduous perennial which might grow as an evergreen in mild climates. Its foliage and flowers create a tropical look. Its leaves are large and banana like with its bronze tint and produces clusters of yellow apricot flowers. It is said that this canna can handle a bit more shade than the other varieties.

Growing Instructions: Where not hardy, plant outdoors in early summer 2" deep, setting the rhizome in the hole, 'eyes' (shoots) up. Cannas do best with a good supply of water.

Care Tip: As flowers fade, deadhead to promote continued flowering. They like moist conditions.

Exposure: full sun to partial shade

Height: grows 24-40" tall

Spacing: plant 18-24" apart, 2-4" deep

USDA Zones: hardy in USDA zones 8-11

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
