INSTRUCTION

Step 1

Insert the Leg Tube(#3)into the Frame Tube(#2).

Tip:push the frame inward as far as possible to prevent the tube from falling off.

2

3

4

Step2

Insert the Leg Tube(#4) into the Frame Tube (#2) to form a circle as shown in the figure below.

Please note that ! !

Two Leg Tubes(#4) need to be adjacent when assembling it.

Step 3

Install the Springs(#6) in the X-shape order one by one to make sure the tension is distributed evenly for the Mat(#5) and pull it with Spring tool(#7).As shown in Fig.

(Tip: Please take care not to pinch your hands and other body parts during spring assembly.)

Step 4

Please lay the Pad (#8) over the springs. Align the sewing line on the cover with the leg tube.
(tip: The strap is on the inside and the elastic band is close to the outside of the frame tube)

1

2

3

Step 5

Tie the strap located at the triangular ring of the mat. As shown in fig. (Try to evenly distribute the distance between the straps)
Turn down the outer cover and fit it tightly on the frame tube.
