

INSTALLING SUPPORT SPRING CLIPS:

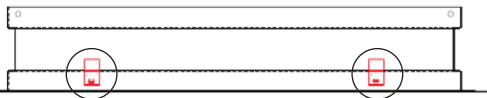

1. Slide Clips into the vent frame, into the 4 rectangular slots
2. Be sure to have the spring arm of the Clips on the **outside** of the frame

NOTE: Clips may have sharp edges, handle with care or use a pair of needle nose pliers.

IN THE CASE OF A LARGE ROUGH OPENING:

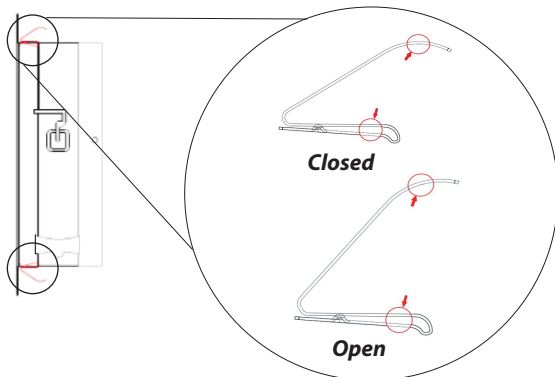

1. Bend the points away from each other to increase grip length using either fingers or needle nose pliers (*as shown*).
