TWX7 Workcentre Systems

The TWX7 brings the precision and convenience of the legendary Triton Workcentre to a new generation. Constructed using lightweight yet robust extruded aluminium sections, which support innovative low-friction work surfaces, the TWX7 is the ideal solution for the woodworking enthusiast. In addition the all new TWX7 is now a highly capable and mobile multi-purpose workshop for professional site use.

How It Works

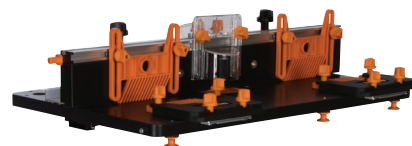

Triton's TWX7 Workcentre is the ultimate mobile precision workshop. Ideal for compact work spaces where storage is limited, and for the trade professional who needs accurate workshop facilities on the move. Every one of the fast switch modules performs as well as any stand-alone system. Portable and compact without compromise on quality.

Easy Fit Modules

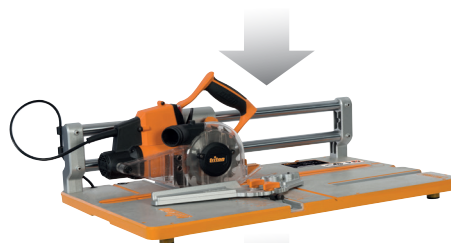

Taking the Workcentre to the next level, these attachments provide an all-important combination of extra support and functionality so users can focus on specific projects. Each accessory is specially designed for use with the Triton WX7 for controlled, precise operation and accurate results.

Locking mechanism and micro adjustment for a precise fit

Router Table Module

Project Saw Module

Contractor Saw Module

Clamping Table

Lightweight Aluminium Frame
folds down for portability and storage

Positioning wheels
greatly improve manoeuvrability for small position adjustments

Clamping Table Module

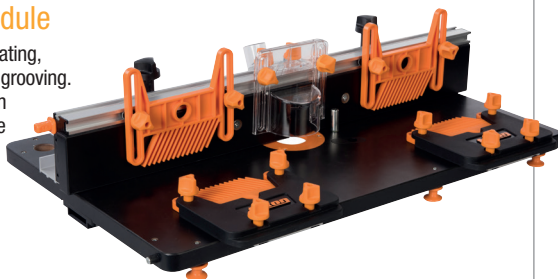

Clamping table supplied as standard with 120Kg working load

TWX7 RT001

Router Table Module

For shaping, planing, rebating, trenching, moulding and grooving. Extruded aluminium main fence and adjustable side fences. Features micro adjusters, rotating cruciform fence spacers, safety guard and dust extractor connector.

TWX7 CS001

Contractor Saw Module

Powerful 1800W motor and precision 254mm TCT blade. Accurate 86mm blade height adjustment and 0-45° bevel angle adjustment for performing complex bevel cuts.

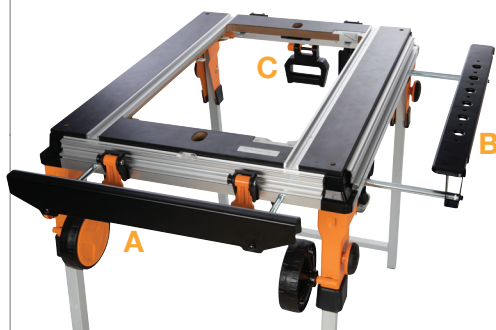

TWX7 PS001

Project Saw Module

A die cast miter and rip fence, together with a quick-release clamp, means you can easily achieve perfect angled cuts. With a fully enclosed blade and excellent dust extraction this is the ideal table saw for smaller projects.

- Grooved tread pattern
- Internal bush inserts
- Wheel covers protect internal components
- Durable ABS moulded handle

GREAT VALUE WITHOUT COMPROMISE SPACE SAVING

3YR
GUARANTEE

The Triton Guarantee

To activate the extended three-year guarantee you must register the product at www.tritontools.com within 30 days of purchase. Should you not wish to register, a standard 30-day guarantee period will apply.

This guarantee, and the guarantee period, begins on the date of retail purchase as detailed on your sales receipt. If you are unable to provide a sales receipt the purchase date will be assumed as three months from the date of manufacture as recorded by the product serial number.

If this product develops a fault within 30 days of purchase, return it to the retailer where it was purchased, with your receipt, stating details of the fault. A repair or replacement will be provided.
