- CSA certified

Electric fireplaces are an easy way to add warmth and character to your home. If you are looking for a multi-functional statement piece, the Sanoma Fireplace is perfect for you. Bookshelves on either side balance the middle frame that hosts the fireplace insert. These shelves, along with the long mantel top, provide plenty of space for displaying books and decor. A Gothic floral appliqué is carved across the top of the fireplace, giving it a classic and traditional look. The clean lines, fluted pilasters and crown molding are a few of the design details that add even more character to the frame.

The multi-color LED insert produces 5,115 BTUs of fan-forced heat that quickly warms a 210-sq. ft. room. An enchanting flame display dances across the back of the firebox, creating movement that is sure to catch your eye. Embers of light glaze across the logs within, adding more depth to the realistic display. The brightness, flame color, and heat settings can be adjusted at the push of a button; you even have the option to display the flames with or without heat. With the Sanoma fireplace; comfort never looked so good!
