Enlarged to show detail

Extension Cord Not Included

CHOOSE THE LOCATION:

The product is to be used outdoors 20ft away from your outdoor living space so insects can be drawn towards the zapper and away from your space. Built to be weatherproof, it can be placed on a hook outdoors to hang. Ensure the unit is 5-7ft off the ground for ideal placement.

INSTALLATION OPERATION:

Once the location has been determined, hang the unit then plug in a compatible extension cord rated for outdoor use into a compatible electrical outlet. Next, plug the zapper into the other end of the extension cord. For best practice, install the unit just before the start of mosquito and flying insect season in your area and leave in place until the end of the season. **The unit will turn ON** simply by being plugged into the compatible electrical source.

For off-season storage, save the outer box, owner's manual and packing materials.

To clean the product, unplug the unit and carefully spray canned compressed air or use hair dryer on cool setting to remove any debris that happened to stay on the grid. Never use water or spray cleaners on the product. WARNING: See Caution Statements below before attempting to clean.

IMPORTANT CORD & SAFETY INFORMATION

This product is for (household) outdoor use only. The product is equipped with a 2-prong plug to fit the proper type receptacles. To reduce the risk of electric shock, only plug into a properly installed outlet. Extension cords used with this product must be marked with suffix letters "W-A" and with a tag saying, "Suitable for use with Outdoor Appliances." Use only extension cords that have plug and receptacles that match the product plug. Electrical rating of the extension cord must be as great as the electrical rating of the product.

Check the product frequently to ensure debris and dead insects are not accumulating inside as it may contribute to fire. Do not bend electrical grid and do not attempt to make repairs on the unit. Call our customer service department at 1-800-799-7302 for additional questions or assistance.

WARNING: Skin or eye damage may result from directly viewing the light produced by the product.

- WARNING: If cord appears damaged, do not attempt to use or plug in the product.
- I.) Only use compatible outdoor rated extension cords and outlets for this unit. 2.) Never carry the unit by the cord. Only unplug by pulling on the plug.
- 3.) Keep extension cords off of the ground and ensure tight connection of cords.
- 4.) Store product indoors in original packing materials and out of reach of children.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this device.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- -Reorient or relocate the receiving antenna. -Increase the separation between the equipment and receiver.
- -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- -Consult the dealer or an experienced radio/TV technician for help

CAUTION – Never mount this product onto house, deck or building.

- CAUTION HIGH VOLTAGE, KEEP OUT OF REACH OF CHILDREN.
- CAUTION Collected insects may be a fire hazard. Clean dead insects frequently.
- CAUTION Do not stick foreign objects, metal objects or fingers into any part of the product.
- CAUTION Do not tamper with or modify product.
- CAUTION High voltage, unplug product before cleaning and allow to sit for at least 45 minutes. CAUTION Do not clean or spray the unit with water, cleaning spray, or any other liquid.
- CAUTION Do not submerge unit in water or any liquid. CAUTION – Keep out of contact with paper, clothing, heat sources, gas, oil or flammable items.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Harmful if swallowed, absorbed through the skin or inhaled. Avoid contact with skin, eyes and mouth. Wash hands thoroughly with soap and water after handling.

FIRST AID

IF ON SKIN

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a Poison Control Center or Doctor for treatment advice.

IF IN EYES

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a Poison Control Center or Doctor for treatment advice.

IF SWALLOWED

- Call a Poison Control Center or Doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by Poison Control Center or Doctor.
- Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a Poison Control Center or Doctor, or going for treatment. For Emergency Information concerning this product, call the National Pesticide Information Center (NPIC) at 1-800-858-7378 seven days a week, 6:30am to 4:30pm Pacific Time (NPIC Web site: www.npic.orst.edu). After 4:30pm call your poison control center at 1-800-222-1222.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

The **PIC® Mosquito Octenol Lure** is intended for use as an attractant with electronic insect killers ("zappers") and mosquito traps of all brands. It is designed to release 1-octen-3-ol, an insect attractant, continuously for 30 days. Zapper or trap effectiveness is increased by luring mosquitoes and biting flies to it.

HOW TO APPLY:

1) Remove Lure Clip from the pouch.

2) Attach clip to the outer grid or enclosure of zapper or mosquito trap. 3) Replace lure clip after 30 days.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. **PESTICIDE STORAGE**: Store unopened container in a cool dry place until ready to use. Do not store with food.

PESTICIDE DISPOSAL: Waste resulting from the use of this product must be disposed on site or at an approved waste disposal facility.

CONTAINER HANDLING: Non-refillable container. Do not reuse or refill this container. Wrap container and put in trash or offer for recycling if available.
