Special Features

Deep-Water Wash System

The wash system is optimized with deep-water wash and rinse cycles and vigorous cleaning action. The traditional flex-vane agitator utilizes four distinct wash profiles—from aggressive to gentle—to create outstanding cleaning performance.

**Traditional
Flex-Vane Agitator**

The flex-vane agitator uses four unique patterns to deliver traditional top-load wash performance through exceptional rollover for even very large loads.

Commercial-Grade Cabinet

The robust cabinet is made from heavy-gauge galvanized steel to provide long-lasting protection, with an easy-to-remove front panel for streamlined service.

**Commercial-Grade Motor
and Drive System**

Built with heavy-duty parts like the powerful ½-HP PSC motor, quad gear transmission, and premium bearings, these machines are designed to deliver the dependable cleaning action you need.

CET9100GQ | 1634991
Stocked – Electric
CGT9100GQ | 1634993
Stocked – Gas

Non-Coin

- 3.1 cu. ft. Washer Capacity
- 6.7 cu. ft. Dryer Capacity
- 3 Washer Cycles,
3 Temperature Options
- 3 Dryer Cycles
- Time Remaining Display
with Digital Controls
- Water Inlet Hoses Included

Special Features

Space-Saving Design

The large capacity of the 3.1 cu. ft. washer provides ample room for bulky items, while the extra-large, 6.7 cu. ft. dryer allows for loads to be dried effectively – all within the space of a single unit.

Powerful Drive System

Designed and tested to provide more turns over the life of the washer, components such as a triple-lip seal with a garter spring, premium bearings, and a durable shaft sleeve help provide consistent washing results customers expect.

Commercial-Grade Cabinet

Built with galvanized steel, the heavy-duty construction of the stack washer/dryer is designed to increase machine longevity and handle high volumes of laundry.

Automatic Load Balancing

A six-point suspension system with four dampers and two springs helps to provide increased stability to the washer and enable optimal vibration control.

Stack Dryer/Dryer

CSP2940HQ | 1634994

Stocked — Electric

CSP2941HQ | 1634995

Stocked — Gas

Coin Drop (Factory Installed)

- 7.4 cu. ft. Dryer Capacity (per dryer)
- 3 Dryer Cycles, 3 Temperatures
- Wide-Opening, Side-Swing Door
- Push-Button Controls
- Time Remaining Display with Digital Price Change Controls

CSP2970HQ | 1634996

Stocked — Electric

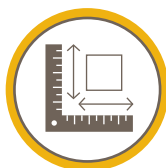

CSP2971HQ | 1634997

Stocked — Gas

Non-Coin

- 7.4 cu. ft. Dryer Capacity (per dryer)
- 3 Dryer Cycles, 3 Temperatures
- Wide-Opening, Side-Swing Door
- Push-Button Controls
- Time Remaining Display with Digital Controls

Special Features

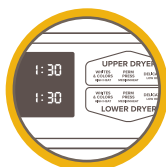

Space-Saving Design

Maximizing space can help get additional washers and dryers on the floor. At 7.4 cu. ft. per dryer, this stack option provides double the drying capability while taking up the room of only a single unit.

Easy to Use

With a wide-opening, side-swing door and easy-to-use push-button controls, comfortable loading and simple cycle navigation are conveniences that make a difference to any user.

Time Remaining Display

Dryer controls give customers the option to select the ideal cycle for individual needs for both pay and non-pay applications.

Made to Handle Multiple Loads a Day

Featuring a heavy-duty roller suspension with permanently lubricated bearings along with a robust cabinet, this dryer is made to last.

Special Features

Commercial-Grade Cabinet with Porcelain-Enamel Top

Built from heavy, galvanized steel, the washer cabinet is designed to keep up with traffic in a commercial laundry space. And the premium porcelain-enamel top and lid on the dryers possess a quality finish that lends to the machine's longevity.

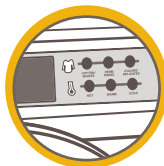

Powerful Drive System

Designed and tested to provide more turns over the life of the washer, components such as a triple-lip seal with a garter spring, premium bearings, and a durable shaft sleeve help provide consistent washing results customers expect.

Automatic Load Balancing

A six-point suspension system with four dampers and two springs helps to provide increased stability to the washer and enable optimal vibration control.

Time Remaining Display

Washer and dryer controls give customers the option to select the ideal cycle for individual wash and dry needs for both pay and non-pay applications.
