

# SIKALEVEL® SELF-LEVELING UNDERLAYMENT + PRIMER

## HIGH FLOW – HIGH STRENGTH, CEMENTITIOUS UNDERLAYMENT

### WHERE TO USE

- Primer serves as an adhesion promoter/surface sealer
- Interior floor leveling and smoothing applications
- Residential and commercial use such as schools, hospitals, offices & residential homes

### ADVANTAGES

- Levels new and renovates old floors
- Polymer modified for increased strength
- Floor installation in 1-3 days
- Tile/stone/non-moisture sensitive flooring: 2-3 hours
