Matte Black with
Brushed Stainless handle

CDD220P4WW2
Matte White with
Brushed Bronze handle

FEATURES & BENEFITS

Create a Look That Matches Your Personal Style – With this customizable dishwasher, you can combine any of the premium finishes and hardware options for a stylish appearance that's truly unique.

Two Single Drawers – one on either side of the sink, offer a beautiful aesthetic and give owners the ability to experience the appeal of its ergonomic design with modern functionality.

Accommodates Large Dish Loads – With removable silverware baskets and enough capacity for 7 place settings and 13-inch pots, you can wash every item in a single load, even after the largest meals.

Knock to Pause – Pause the dishwasher mid-cycle with a simple knock, then press Start/Play to resume.

Easy to Load & Unload – The dishwasher is installed at counter height, so owners don't have to bend over to unload or load, making it the perfect solution for those who seek out ease and accessibility, but don't want to sacrifice style.

6 Wash Cycles – Go beyond the normal wash and dry with six cycles, plus Fast Dry, Sanitize and Ultra Dry options.

Water Leak Sensor – This dishwasher features Water Leak Sensor, preventing potential overflows for greater peace of mind. A water sensor cancels the wash cycle before a flood can occur and alerts you with blinking lights and a tone.

Delay Start – A dishwasher delay function lets you set it to start while you're working, sleeping or out of the house.

Adjustable Racks – Never worry about how to load the dishwasher again thanks to the loading flexibility that comes with racks that can be adjusted to accommodate most items.

45 dBA Single Drawer – This quiet dishwasher keeps your kitchen peaceful.

ENERGY STAR® Qualified – Wash every load with a clean conscience thanks to this efficient, ENERGY STAR® dishwasher saves energy without sacrificing features or functionality.

Smart Features Powered by Smart HQ – Built-In WiFi and the SmartHQ™ app make it easy to connect, control and monitor your smart dishwasher from anywhere. You can also conveniently access the latest features, including remote status notifications and more.

ADA – Easily install this accessible dishwasher at an American Disabilities Act (ADA) compliant height for loading and unloading.
