- Choose desired ground location, put the Base (Part E), align the three holes, insert the Spike (Part I) to fix the base,Put the assembly part into the Base (Part E).

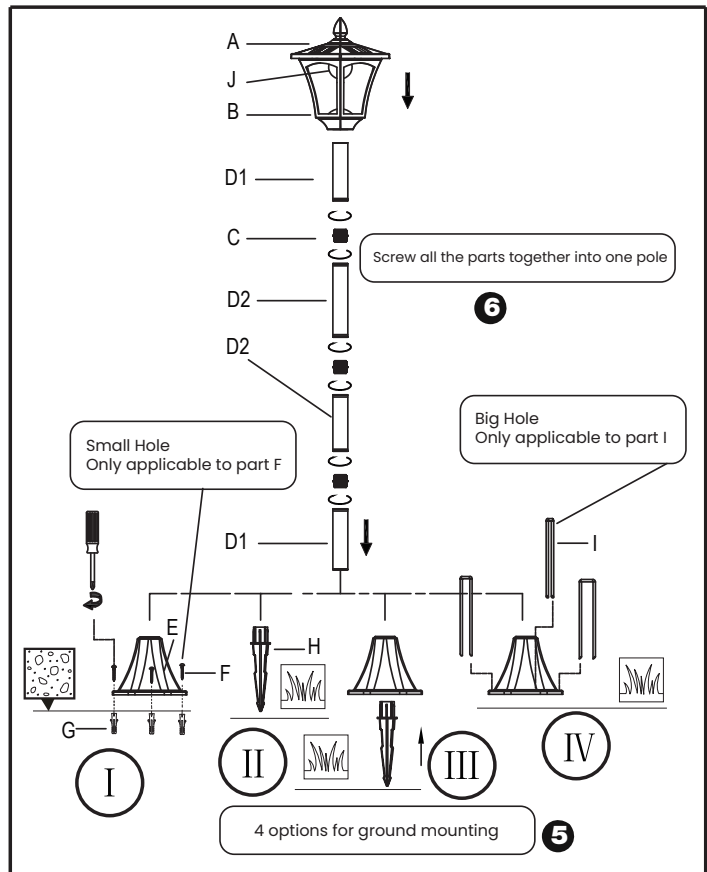

Note: Install light in location where it can receive a full 8 hours of sunlight to allow the rechargeable battery to reach maximum capacity.

Warning: For the safety of the lamp standing, to avoid the lamp falling and smashing, it must be installed on the ground according to the assembly diagram of the instruction manual.

Step 1

Step 2

Important safety operating instructions

PLEASE READ CAREFULLY AND SAVE THESE INSTRUCTIONS, AS YOU MAY NEED THEM AT A LATER DATE.

⚠ IMPORTANT SAFETY OPERATING INSTRUCTIONS

- 01 Please read all warning and instruction labels which are included in the box and fixture to avoid personal injury, property damage caused by fire, cuts, bruises, death and other dangers.
- 02 Please follow these general precautions before installing, maintaining, or fixing.

Precaution

- 01 It is important to select an outdoor location with full direct sunlight where the solar panel can receive at least 8 hours of sunlight each day.
- 02 It is important to avoid placing the solar light by light sources, such as street lights or porch lights, which may cause the solar light to turn off automatically.
- 03 To avoid explosion and corrosion, please keep the solar light away from fire and humid environment.
- 04 No striking to avoid any damages to solar cell.

Warning

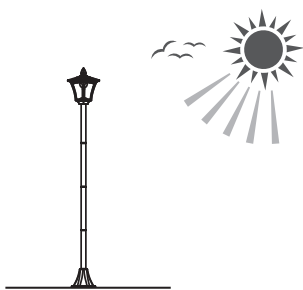

⚠ WARNING: This product can expose you to chemicals including lead and lead compounds, Di (2-ethylhexyl) phthalate (DEHP), which are known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

- 01 This package contains small parts that could be swallowed by children
- 02 Keep the packaging material away from children and pets
- 03 The solar light is not a toy
- 04 We do not take responsibility if the instruction manual is not followed correctly or if the product is handled improperly resulting in damage to person or property

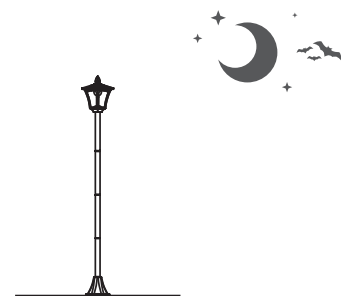

Cleaning and maintenance

- 01 Use a damp cloth to clean the solar panel
- 02 To avoid any damage to this light, please do not use any chemical or abrasive cleaner

How it works

Solar panel collects sunlight to charge the battery (included) during the day

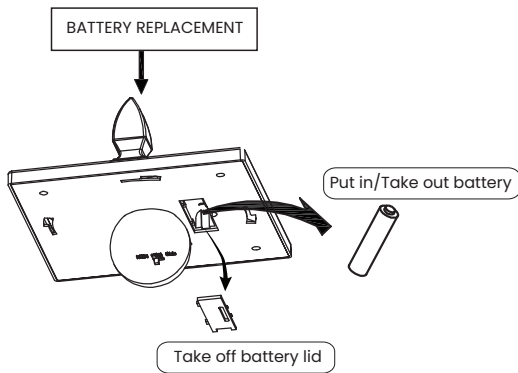

Automatically turns on at dusk for up to 8 hours of nighttime illumination

Rechargeable battery

This product contains 1pc 3.7V 14500 800mAh Li-Ion rechargeable battery. When the batteries expires, these must be recycled or disposed of properly. Please contact your local waste disposal authority for correct procedure.

- Do not put battery into fire.
- Only rechargeable batteries are to be used (1pc 3.7V 14500 800mAh Li-Ion rechargeable battery)
- Exhausted batteries must be removed from the product.
- Batteries must be placed at the correct polarity.

Battery replacement

- 01 Open the battery chamber covers.
- 02 Replace rechargeable battery only with the same or equivalent type and making sure the polarity is correct.
- 03 Place back the battery chamber covers.
