Step 1

Connect table to table legs

Step 2

Connect the connecting bracket to the table legs

Step 3

Connect the bench to the table legs

Step 4

1. Use a drill to drill holes in concrete, block or stone
2. Blow the dust out of the hole
3. Place the connection bracket on the table leg
4. Fix the screws flush with the bracket into the drilled holes
5. Repeat the above steps on the remaining brackets
