

Installation and Owner's Manual

DeerValley®

Smart Toilet (DV-1S0159)

NOTE: Drawings may not exactly define contour of the product.

Prior to Installation:

- Inspect toilet to ensure no damages have occurred while in shipping.
- Observe all plumbing and building codes in accordance with your state and local requirements.
- Remove old toilet.
- Make sure mounting surface is CLEAN and LEVEL.

General Recommendations:

Please read installation and maintenance instructions thoroughly before installing the toilet.

Be sure to use proper tools and always wear proper personal safety accessories for your protection.

Safety Precautions

To prevent damage to the unit and possible injury to users, please follow the safety warnings. Please be sure to carefully read through the user's manual before installation. Keep the user's manual after installation to refer to for troubleshooting advice.

Symbols and Meanings

 WARNING	Could result in serious injury or death.
--	--

The following symbols are used to indicate important safety precautions when using the product.

	Prohibited.
	Pay close attention; caution.

NOTE: Specialized tools may be necessary to install DeerValley Smart Toilet, plumbing not included.

<div><div>Prohibited</div></div>	<div> WARNING</div>
	<p>It is not allowed to continue using if the product has some breakdown: Product heat abnormally; Product is smoking; Product has abnormal sound and smell; Product is leaking, broken or damaged; Toilet pan is blocked, etc. When the breakdown happens, if it do not handle in time and continue using, it might trigger the problems like electric shock, injury, firing or water penetration inside the room, etc.</p>
	<p>Banana oil, gasoline, putty-powder, nylon brush or other (non-neutral) detergent is not allowed to clean the plastic parts like toilet seat cover, otherwise it might trigger chemical reaction or leakage, damage the product and cause people injury.</p>
	<p>Loosen electric outlet is not allowed as it might trigger electric shock or firing.</p>
	<p>It is not allowed to pull out and plug in the electric plug by wet hand as it might trigger electric shock or firing.</p>
	<p>It is not allowed to touch the electric plug when it is thundering and lighting as it might trigger electric shock.</p>
	<p>It is not allowed to use other electric resource, the load of using electric outlet could not be too big, as it might trigger firing due to over-heat.</p>
	<p>Detergent, water, wash detergent or urine is not allowed to spot into body and electric outlet, as it might trigger electric shock or firing.</p>
	<p>It is not allowed to let child standing or put heavy goods on the seat and cover, toilet pan or seat body, heavy hitting or knocking is not allowed.</p>
	<p>It is not allowed to disassemble, repair this product, (it must go for professional repair person service if it is necessary to repair), otherwise, it might cause the damage to this product.</p>
	<p>Do not randomly damage the electric plug and electric line, if the electric line, electric plug is damaged, please do not use it any longer or repairby oneself, it must be repaired by professional person, otherwise, it might trigger short-circuit, electric shock, firing.</p>
	<p>If the power cord is not long enough, please do not use a extension cord.</p>
	<p>The stove or lighted cigarette is not allowed to be placed next to the toilet pan, cigarette butt etc is not allowed to be thrown into toilet pan.</p>
	<p>Do not block the aiopenings of the product. Keep the air openings free of lint, hair, and the like.</p>
	<p>Do not use while bathing.</p>

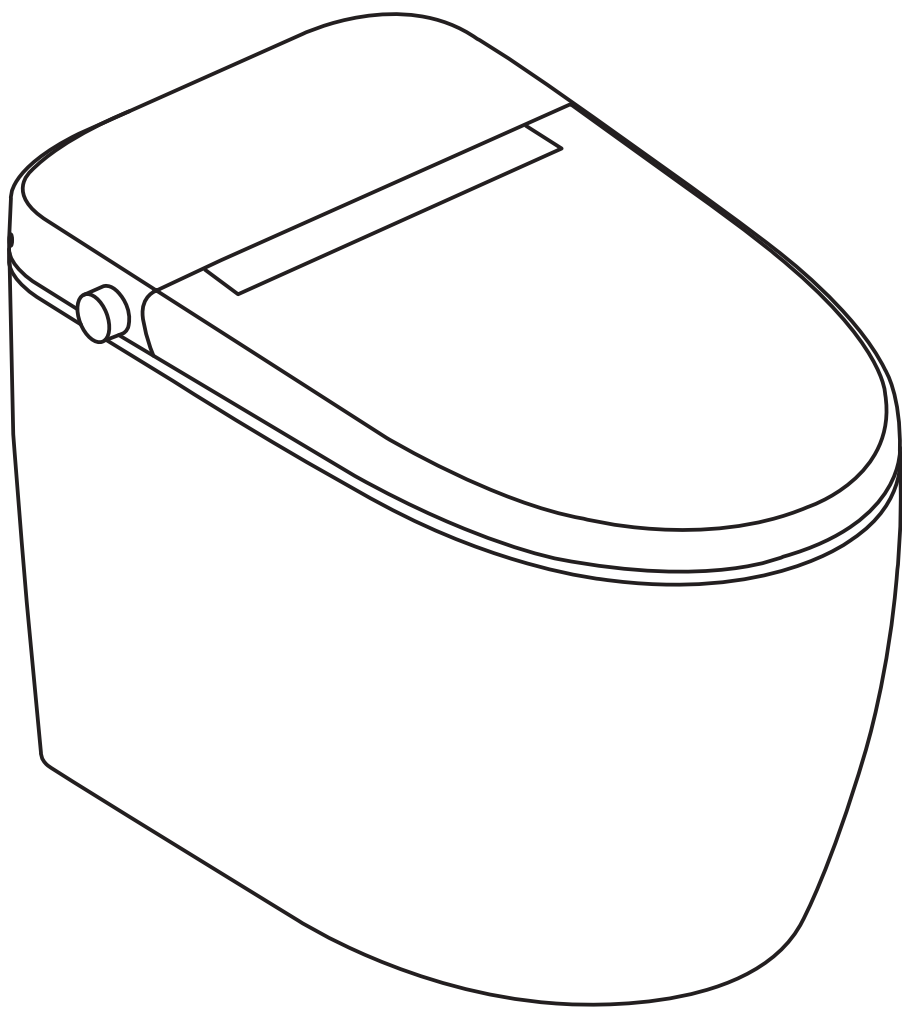

NOTE: Drawings may not exactly define contour of the product.

<div><div>Caution</div></div>	<div> WARNING</div>
	When using in shower room, please install air exchange equipment to ensure the air in the shower room not too moist. This product is electric products, it is not allowed to install it in the place that is easy high wet, easy split by water, otherwise it might trigger electric shock or fire.
	Please ensure to cut off the electric power before washing this product, do not use water to directly wash this product, otherwise it might trigger the electric shock or fire.
	Please put and use this product in the shadow, must not put directly beneath the sun, otherwise it might cause the color-fading, or burn the surface of product due to the instability of temperature.
	Do not use industrial water, wastewater, seawater, reclaimed water and other sewage, otherwise it may cause skin inflammation and other problems.
	Persons (including children) with physical, perceptual, intellectual disabilities or lack of experience and common sense need to use the product under the guidance or supervision of someone else, or they may cause electric shock, injury or fire.
	Please notice the assembly location of electric wiring plug, electric plug should be the water-proof plug. Assembly location of electric plug must be over 0.5m (19.7in) above the floor, and far away from shower, bathtub, otherwise it might cause electricity leakage.
	When installing this product, please remove the old hose assemblies owned by users and install them with new hose assemblies. Do not reuse the old hose assemblies to avoid related safety problems.
	The grounding wire of this product must conform to the stipulated construction mode, and the three-level grounding structure must be grounded, otherwise the use of this product is prohibited.
	Electric plug need to plug in the electric with air switch.
	In the same room where this product is installed, a switch of water inlet angle valve needs to be installed at a location within reach. It is used in emergency situations to cut off the waterway of this product without the aid of tools; otherwise, unexpected failures of this product may occur and it will cause user loss.
	If you have not used this product for a long time, please close the angle valve, press the water release button to drain the water of ceramic itself and cut off the power; When using the product again, please wash first to prevent water quality problems and skin diseases.
	When the outside air temperature is lower than 0°C, in order to prevent water leakage caused by external filter and other accessories likely freezing, please be sure to close the water inlet valve and drain the left water; If pipe has been frozen, please raise the room temperature and wait for pipe normal then use the toilet, otherwise the product may not be used normally.

Specifications

Rated voltage			120V~ 60Hz			
Power cord length			About 1.2m (49 in)			
Cleansing	Spray volume	Rear wash	About 0.5L (0.13 gal)-0.7L (0.18 gal) /min (water pressure 0.2MPa, 3 levels adjustable)			
		Bidet wash				
	Swing		Swing cleansing back and forth			
	Massage		Pulsing cleansing, Powerful cleansing			
	Water flow and nozzle		3 levels adjustable			
	Water temperature range		About 68°F-107°F (4 levels adjustable)			
Safety device		Temperature limit circuit, thermostat, thermal fuse				
Drying	Warm wind temperature		About 89°F-134°F (3 levels adjustable)			
	Safety device		Bimetallic thermostat, thermal fuse			
Seat	Surface temperature		4 levels adjustable, room temperature about 107°F			
	Safety device		Thermal fuse			
Self-cleaning	Antibacterial seat/nozzle		Antibacterial material/stainless steel nozzle			
	Automatic nozzle cleaning		Self-cleaning			
	Pre-wetting		Prewet the toilet bowl before each use			
Toilet	Flush consumption		1.28Gpf/4.8Lpf			
	Flushing mode		Siphon jet			
	Rough-in		305mm (12.0 in)			
Rated power	1150W		Maximum power	1600W	Waterproof level	IPX4
Water supply temperature	39°F-95°F		Ambient temperature	37°F-104°F	Net weight	About 35.4kg (about 78 lb)
Dimension	About 680 * 390 * 443 mm (About 26.8 * 15.4 * 17.4 in)		Water supply pressure	Minimum necessary dynamic pressure: 23.2Psi (flow rate 20L/Min) Maximum static pressure: 108.7Psi		

- Rated power: Set the water volume, seat temperature and water temperature to the highest level under the conditions of ambient temperature 68°F±41°F, inlet water static pressure 26.1Psi ±2.9Psi, and inlet water temperature 59°F±33°F. Turn on the bidet function, and test the average power within 60 seconds after the temperature of the outlet water stabilizes.
- Maximum power: Set the water volume, seat temperature, and water temperature to the highest level under the conditions of an ambient temperature of 73°F±35°F, an inlet static pressure of 26.1Psi ±2.9Psi, and an inlet temperature of 41°F±33°F. Turn on the bidet function and continue to work stably at the maximum power for a cleaning cycle.
- Water consumption test: Test the water consumption separately under the water pressure 23.2Psi and 80Psi three times. Get six values in total, then divide the sum by six and the average is the nominal water consumption.

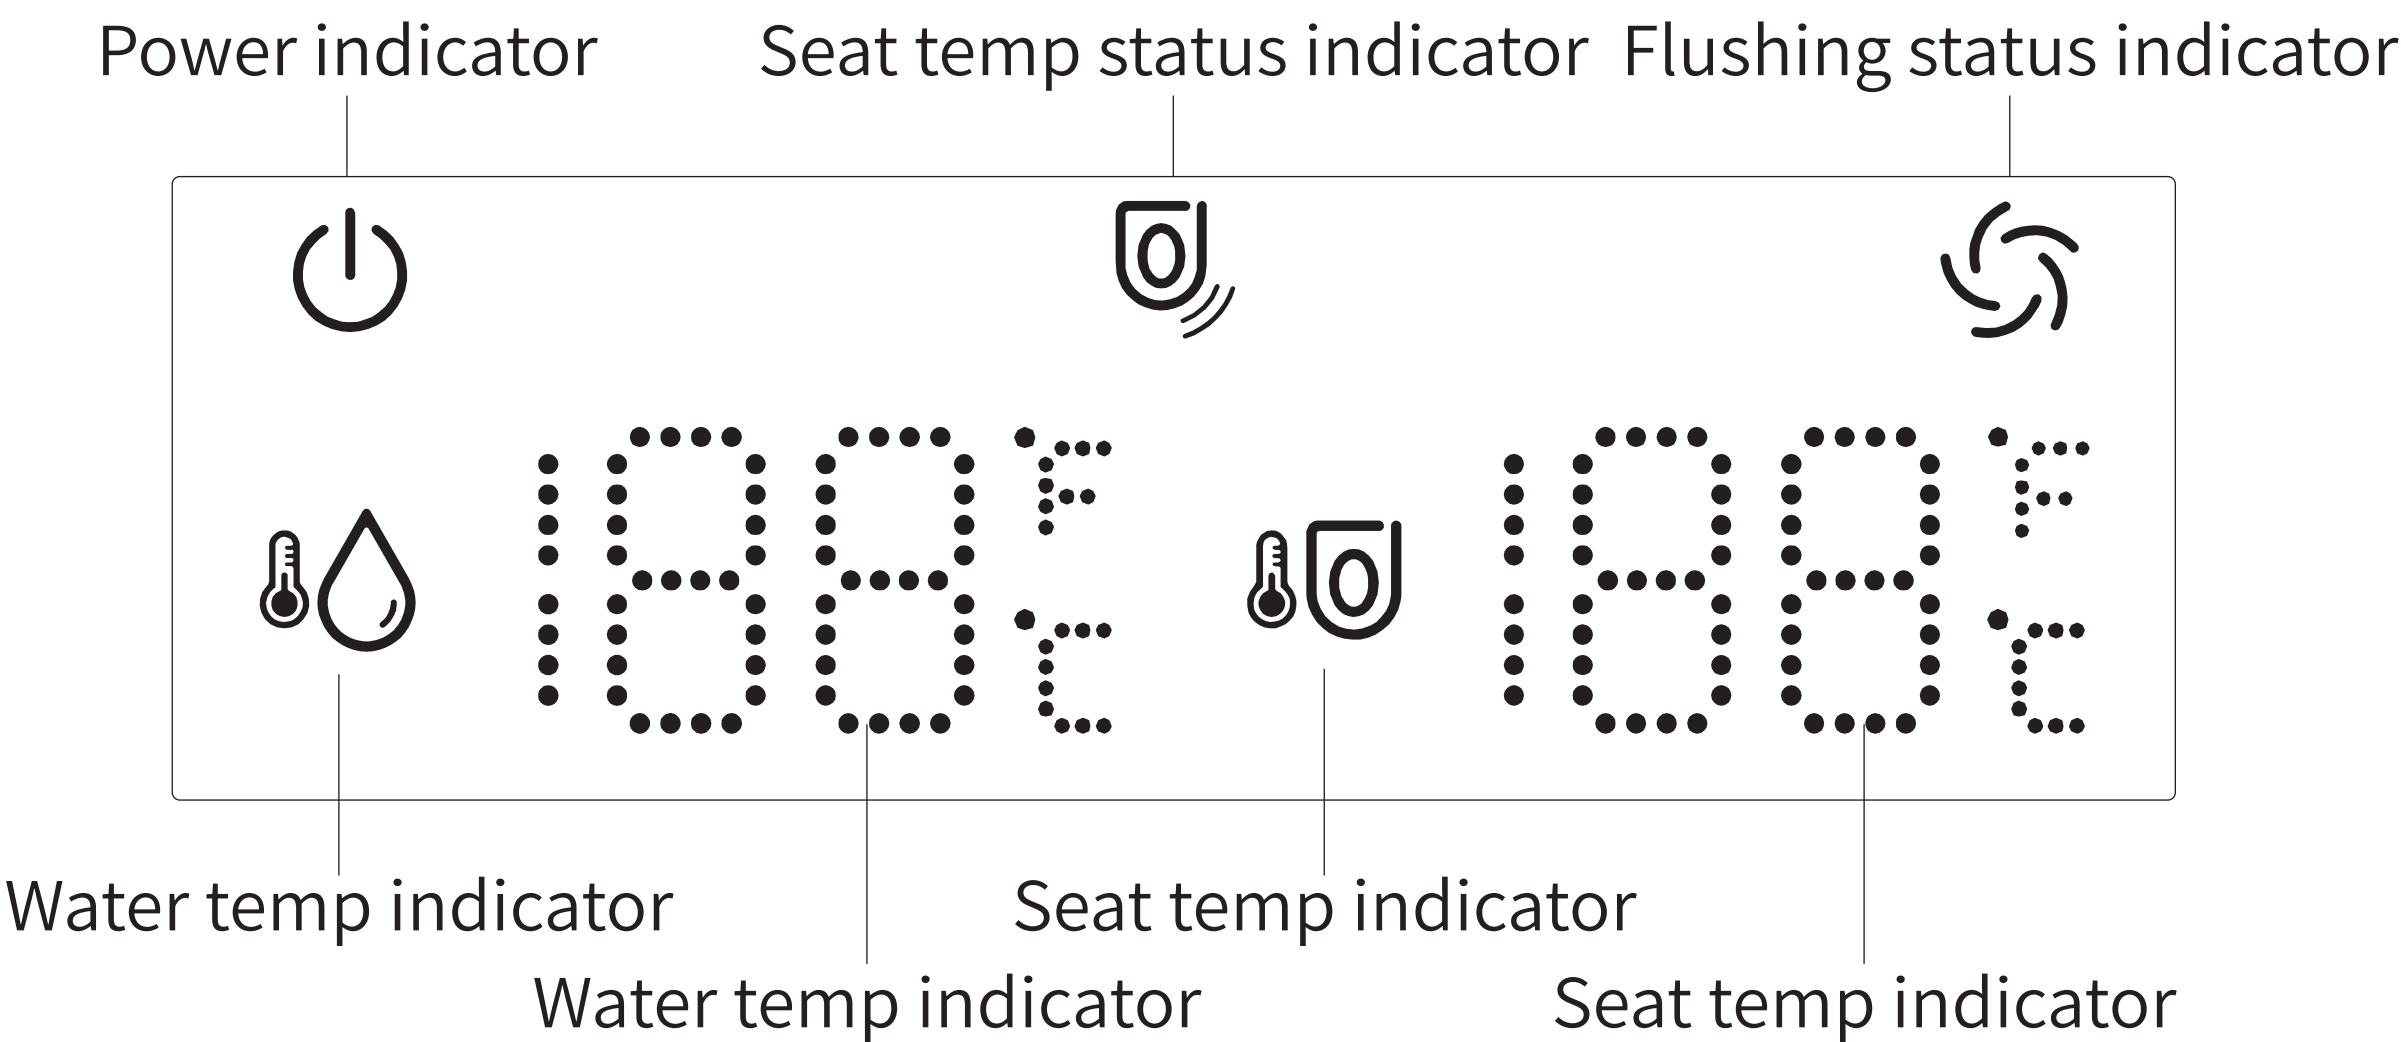

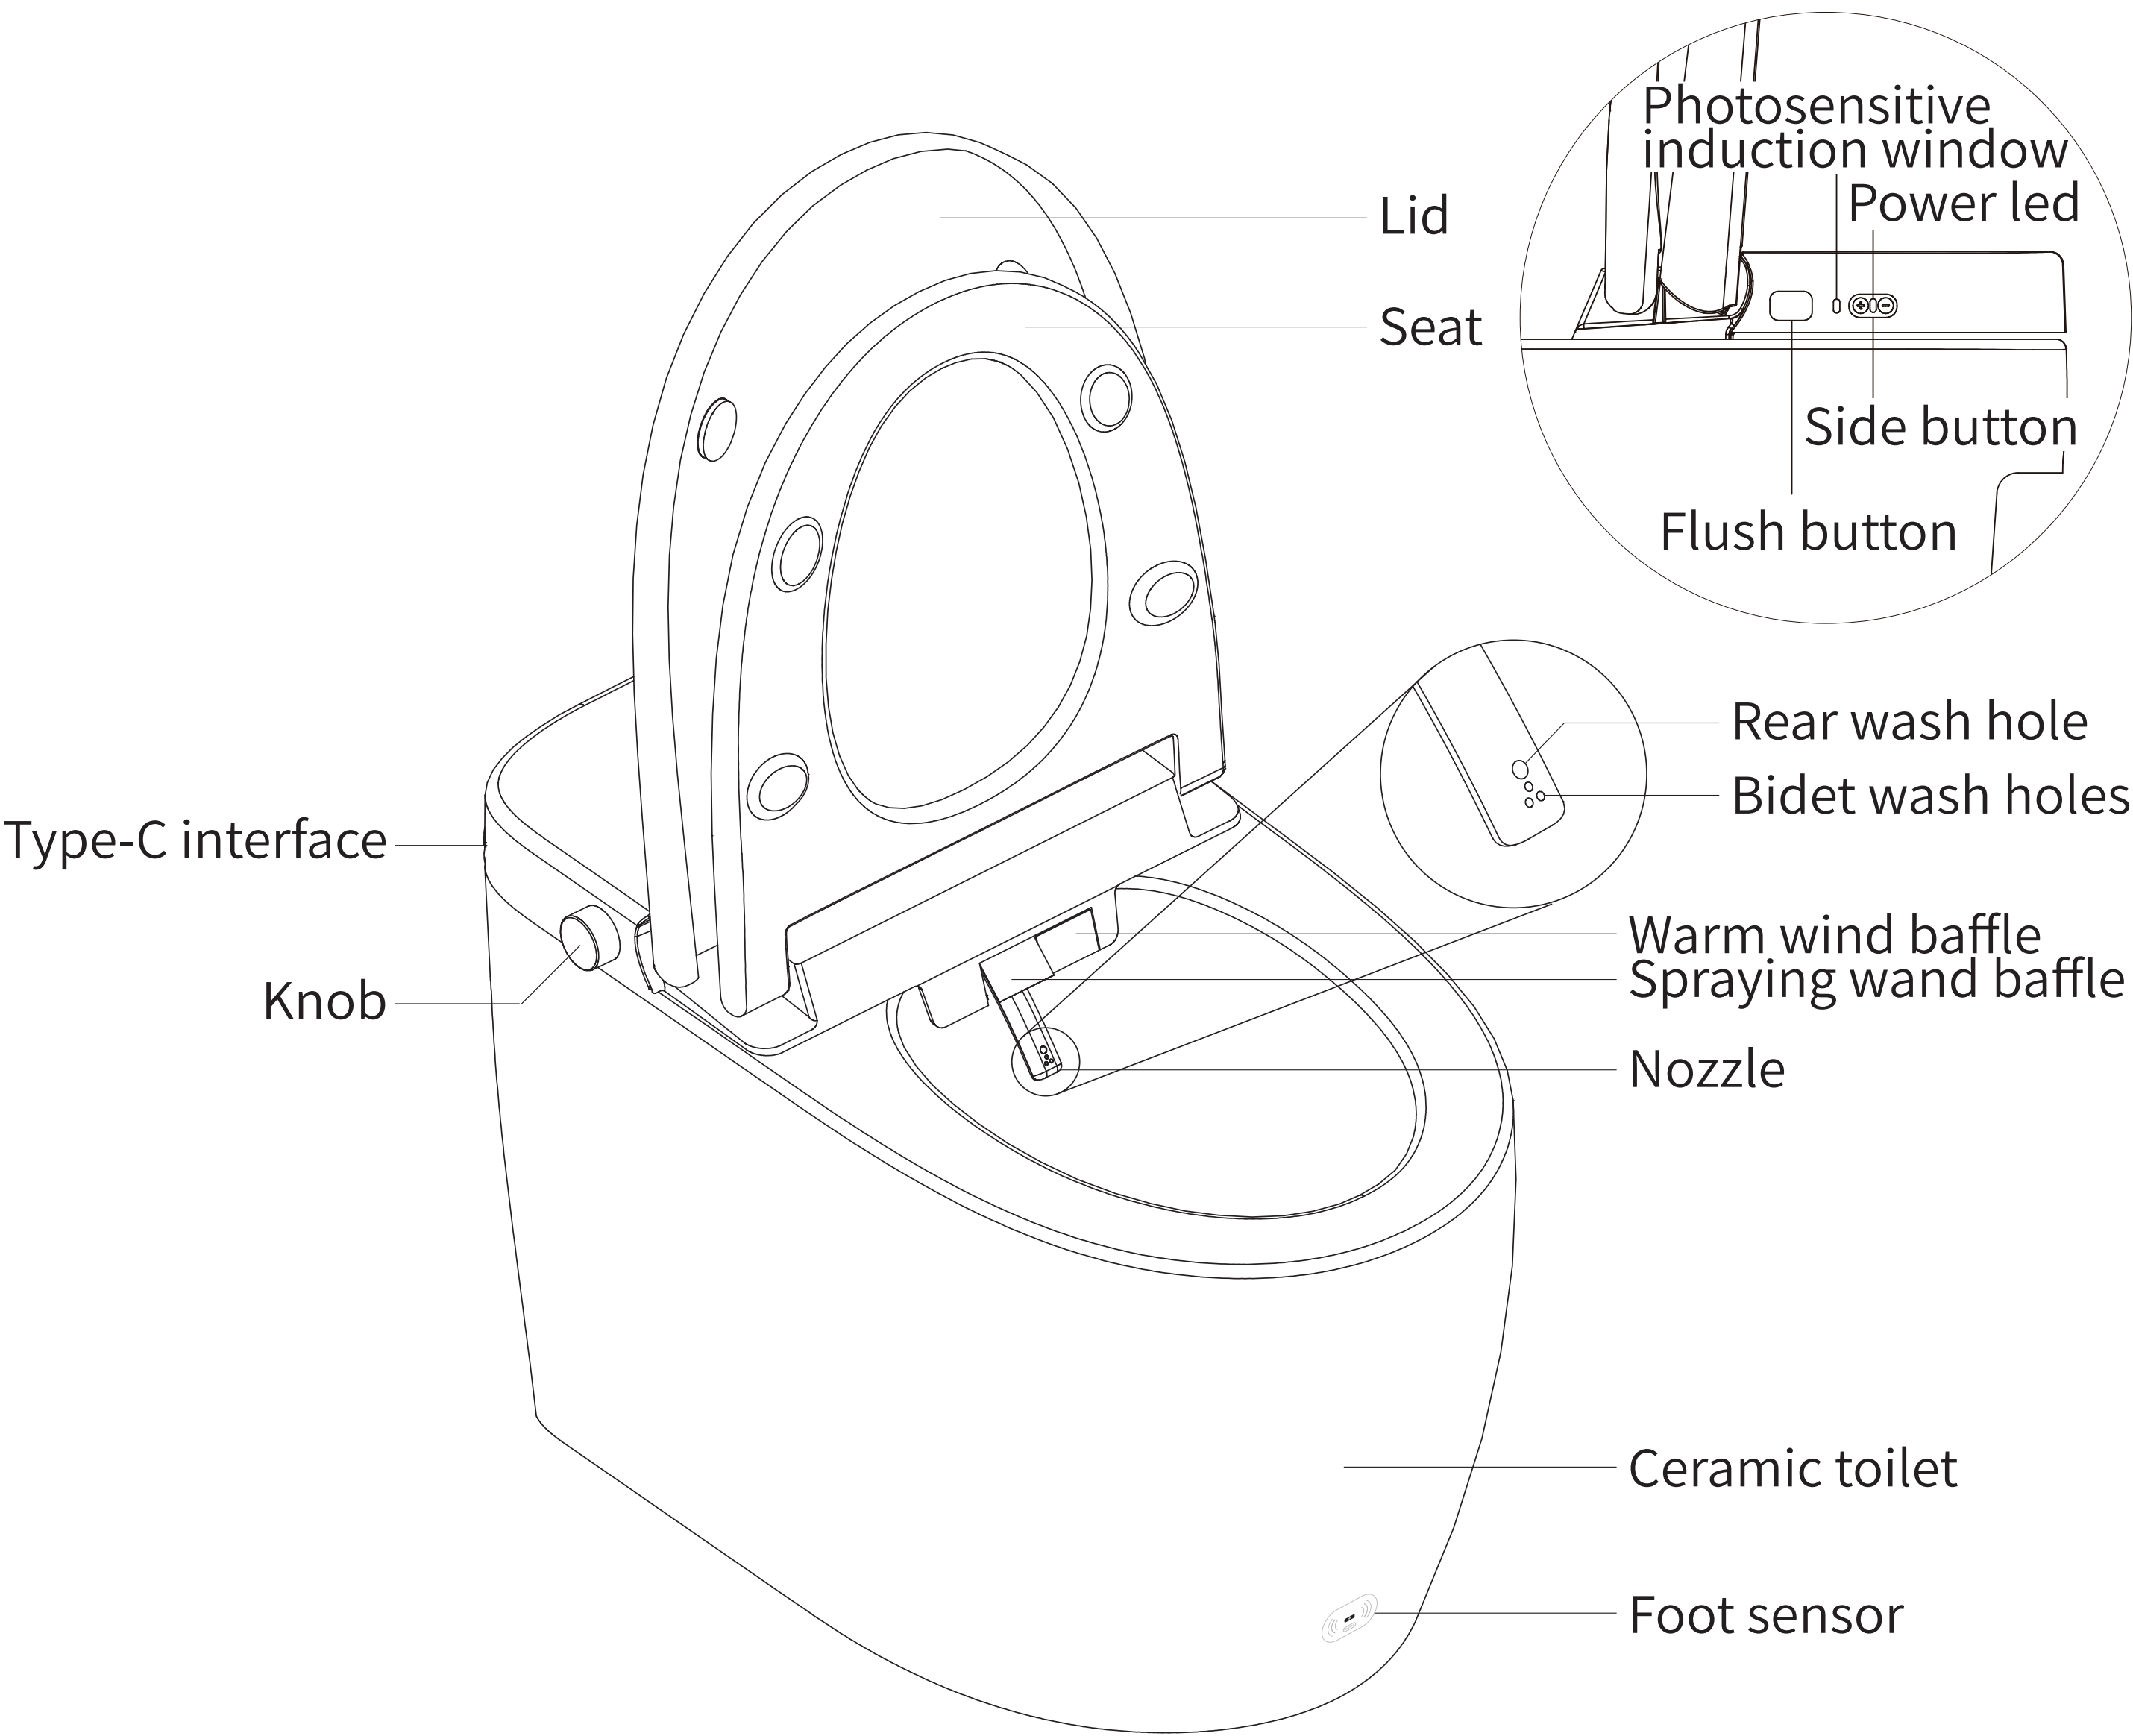

NOTE: Drawings may not exactly define contour of the product.

NOTE: Drawings may not exactly define contour of the product.

Parts Names

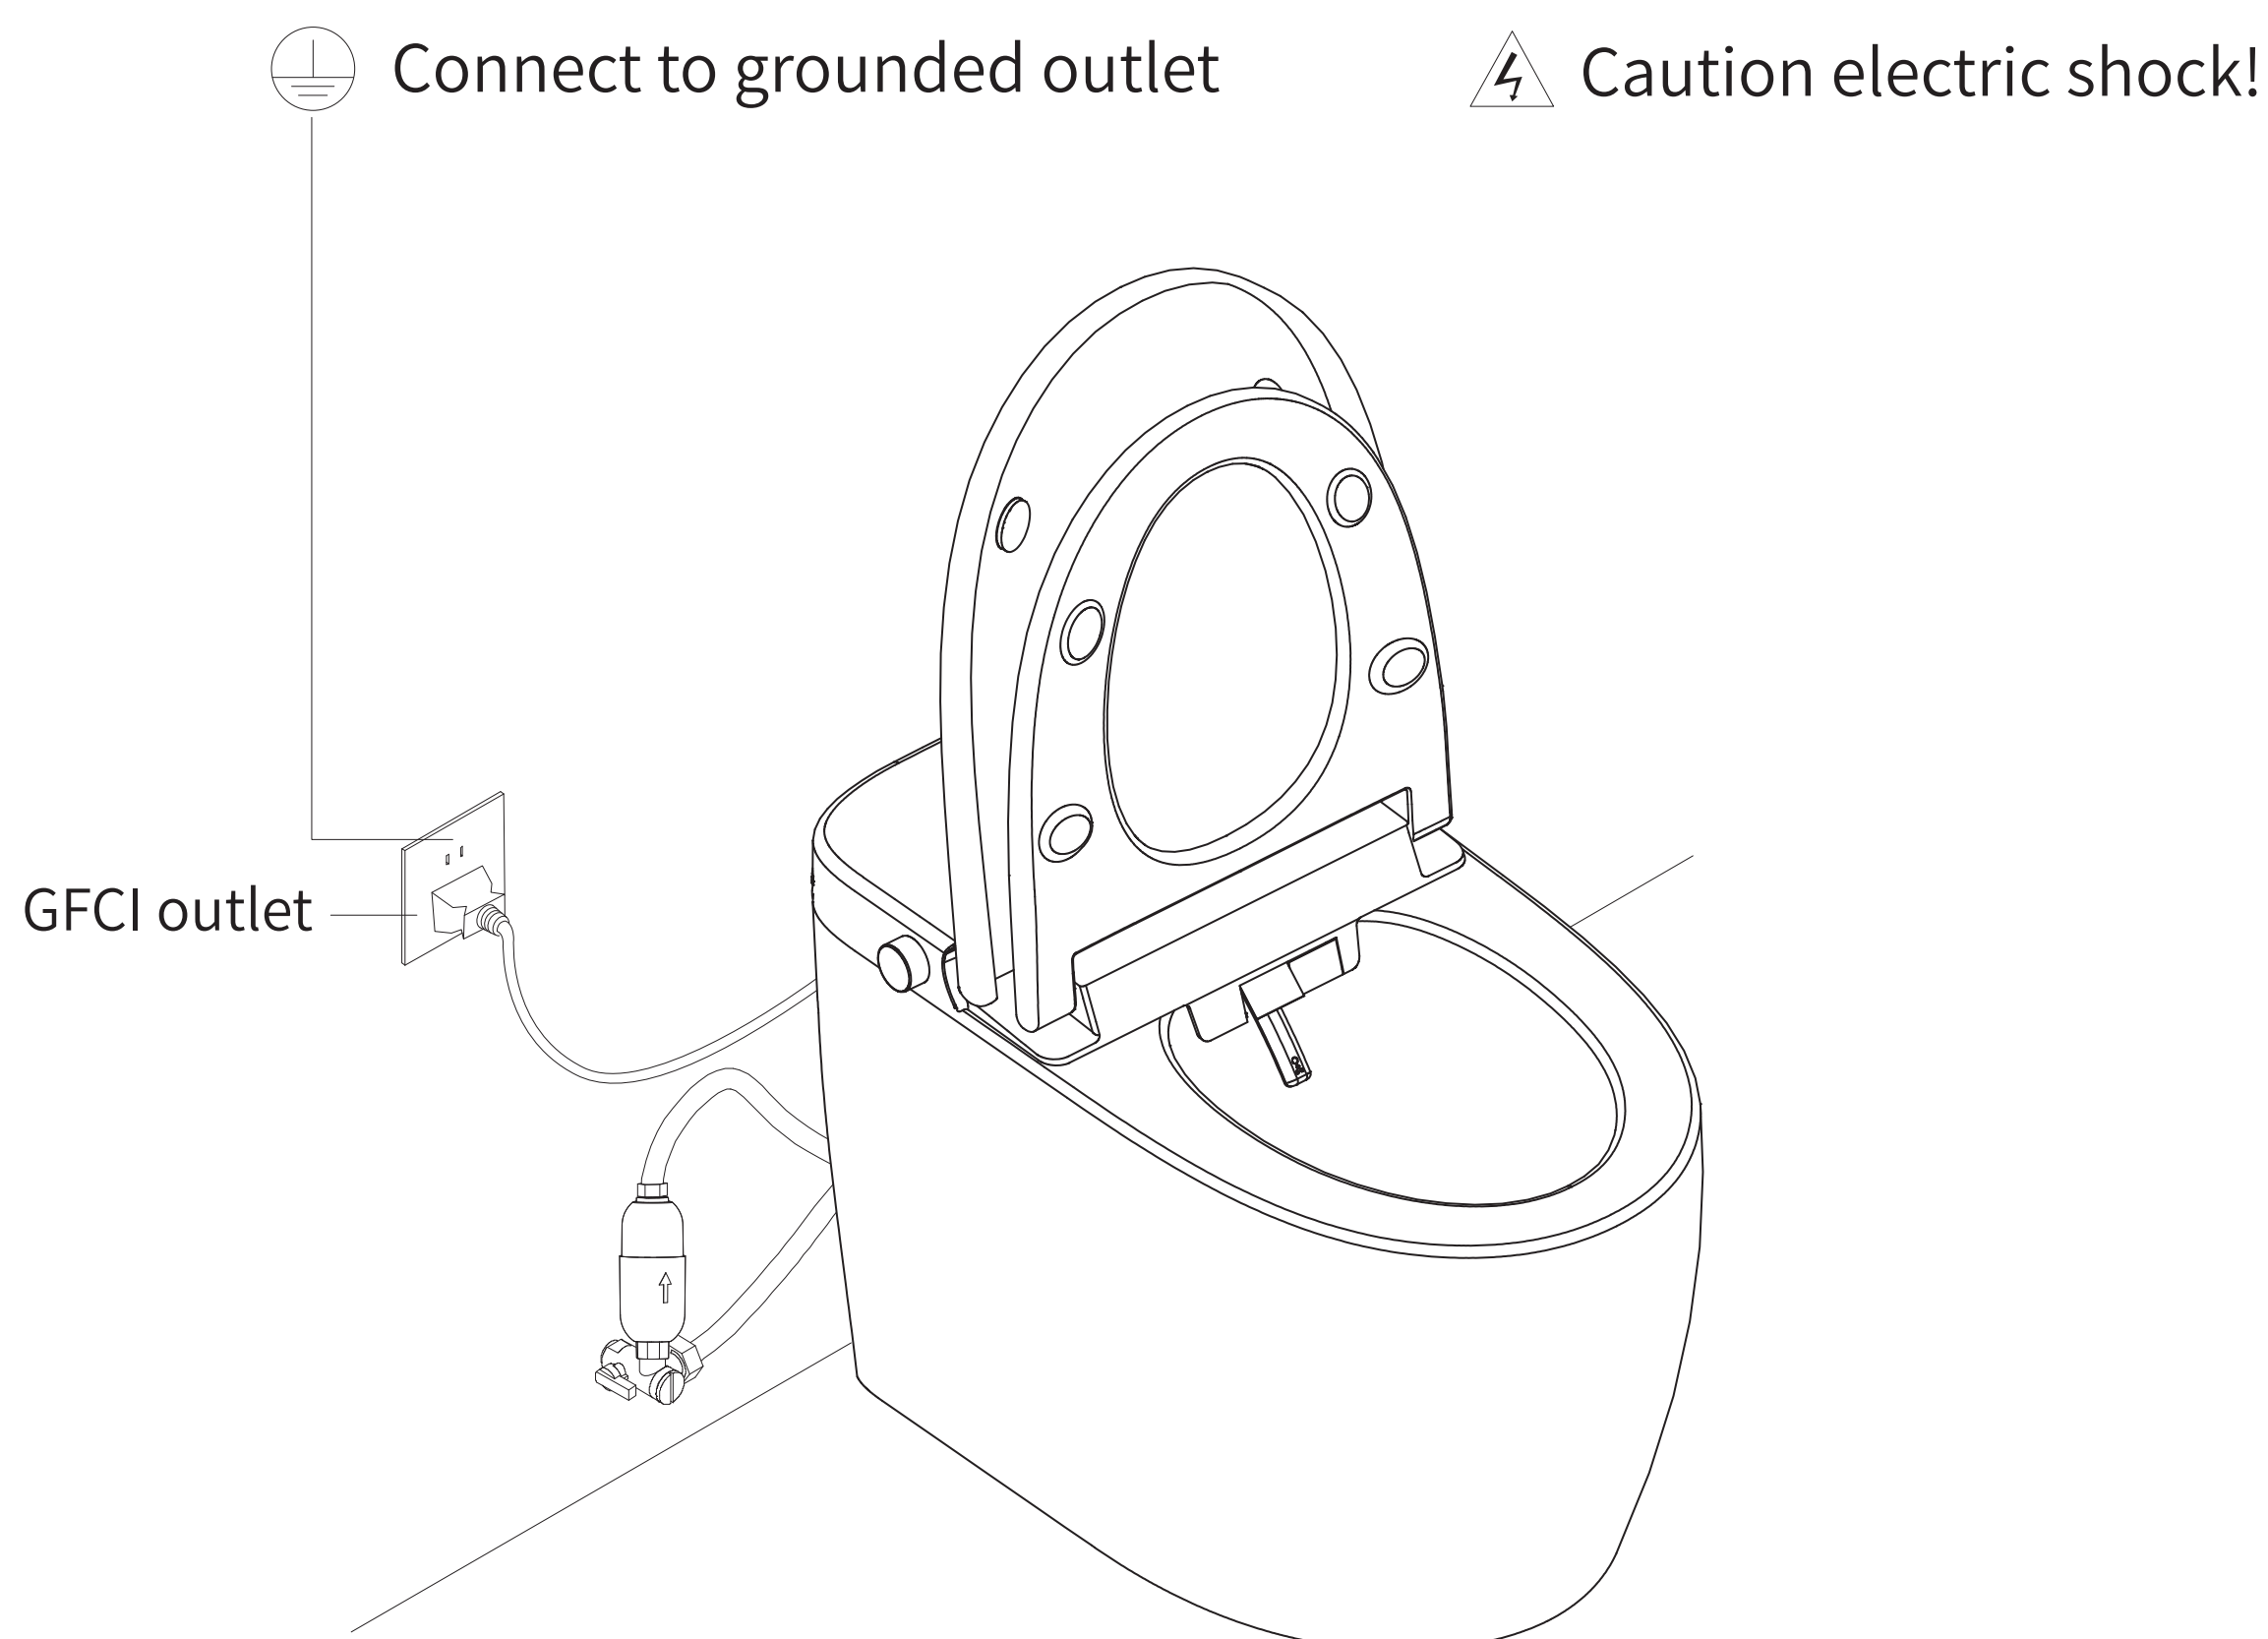

- After restarting the toilet, press the “DRY” button within two minutes on the remote control to switch the temperature measurement unit on the toilet display.

NOTE: Drawings may not exactly define contour of the product.

Product Drawings

Power and Water Supply Connection

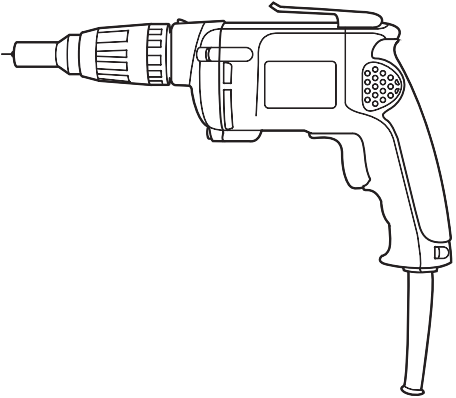

- If the power cord is not long enough, please use extension line which is made by certificated manufacturers.
- Only for reference.

NOTE: Drawings may not exactly define contour of the product.

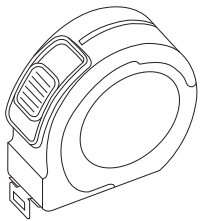

Installation Precaution

We reserve the right to change, update, modify, alter, redesign this manual and product without prior notice. We shall not be liable for any injuries or property damages in connection with improper installation or use of the product.

Installation Tools

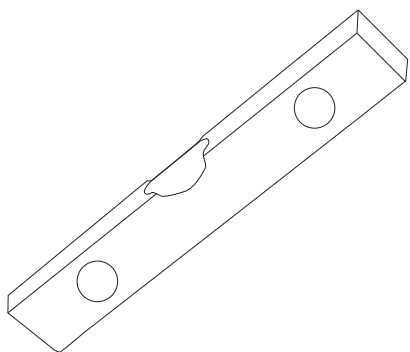

Hammer Drill

Caulking Gun

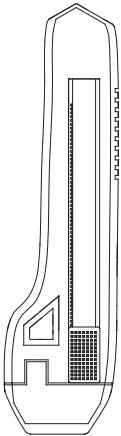

Tape Measure

Adjustable Wrench

Pliers

Torpedo Level

Steel Saw

Knife

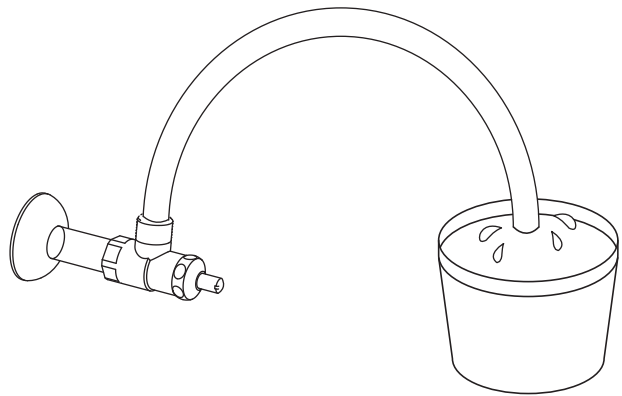

Screwdriver

Pencil

Confirmation of Water Pressure

- The minimum dynamic operating water pressure is 23.2 Psi, and the maximum static water pressure is 108.7 Psi.

Determination method for minimum water flow

(Tools: stopwatch, measuring cup.)

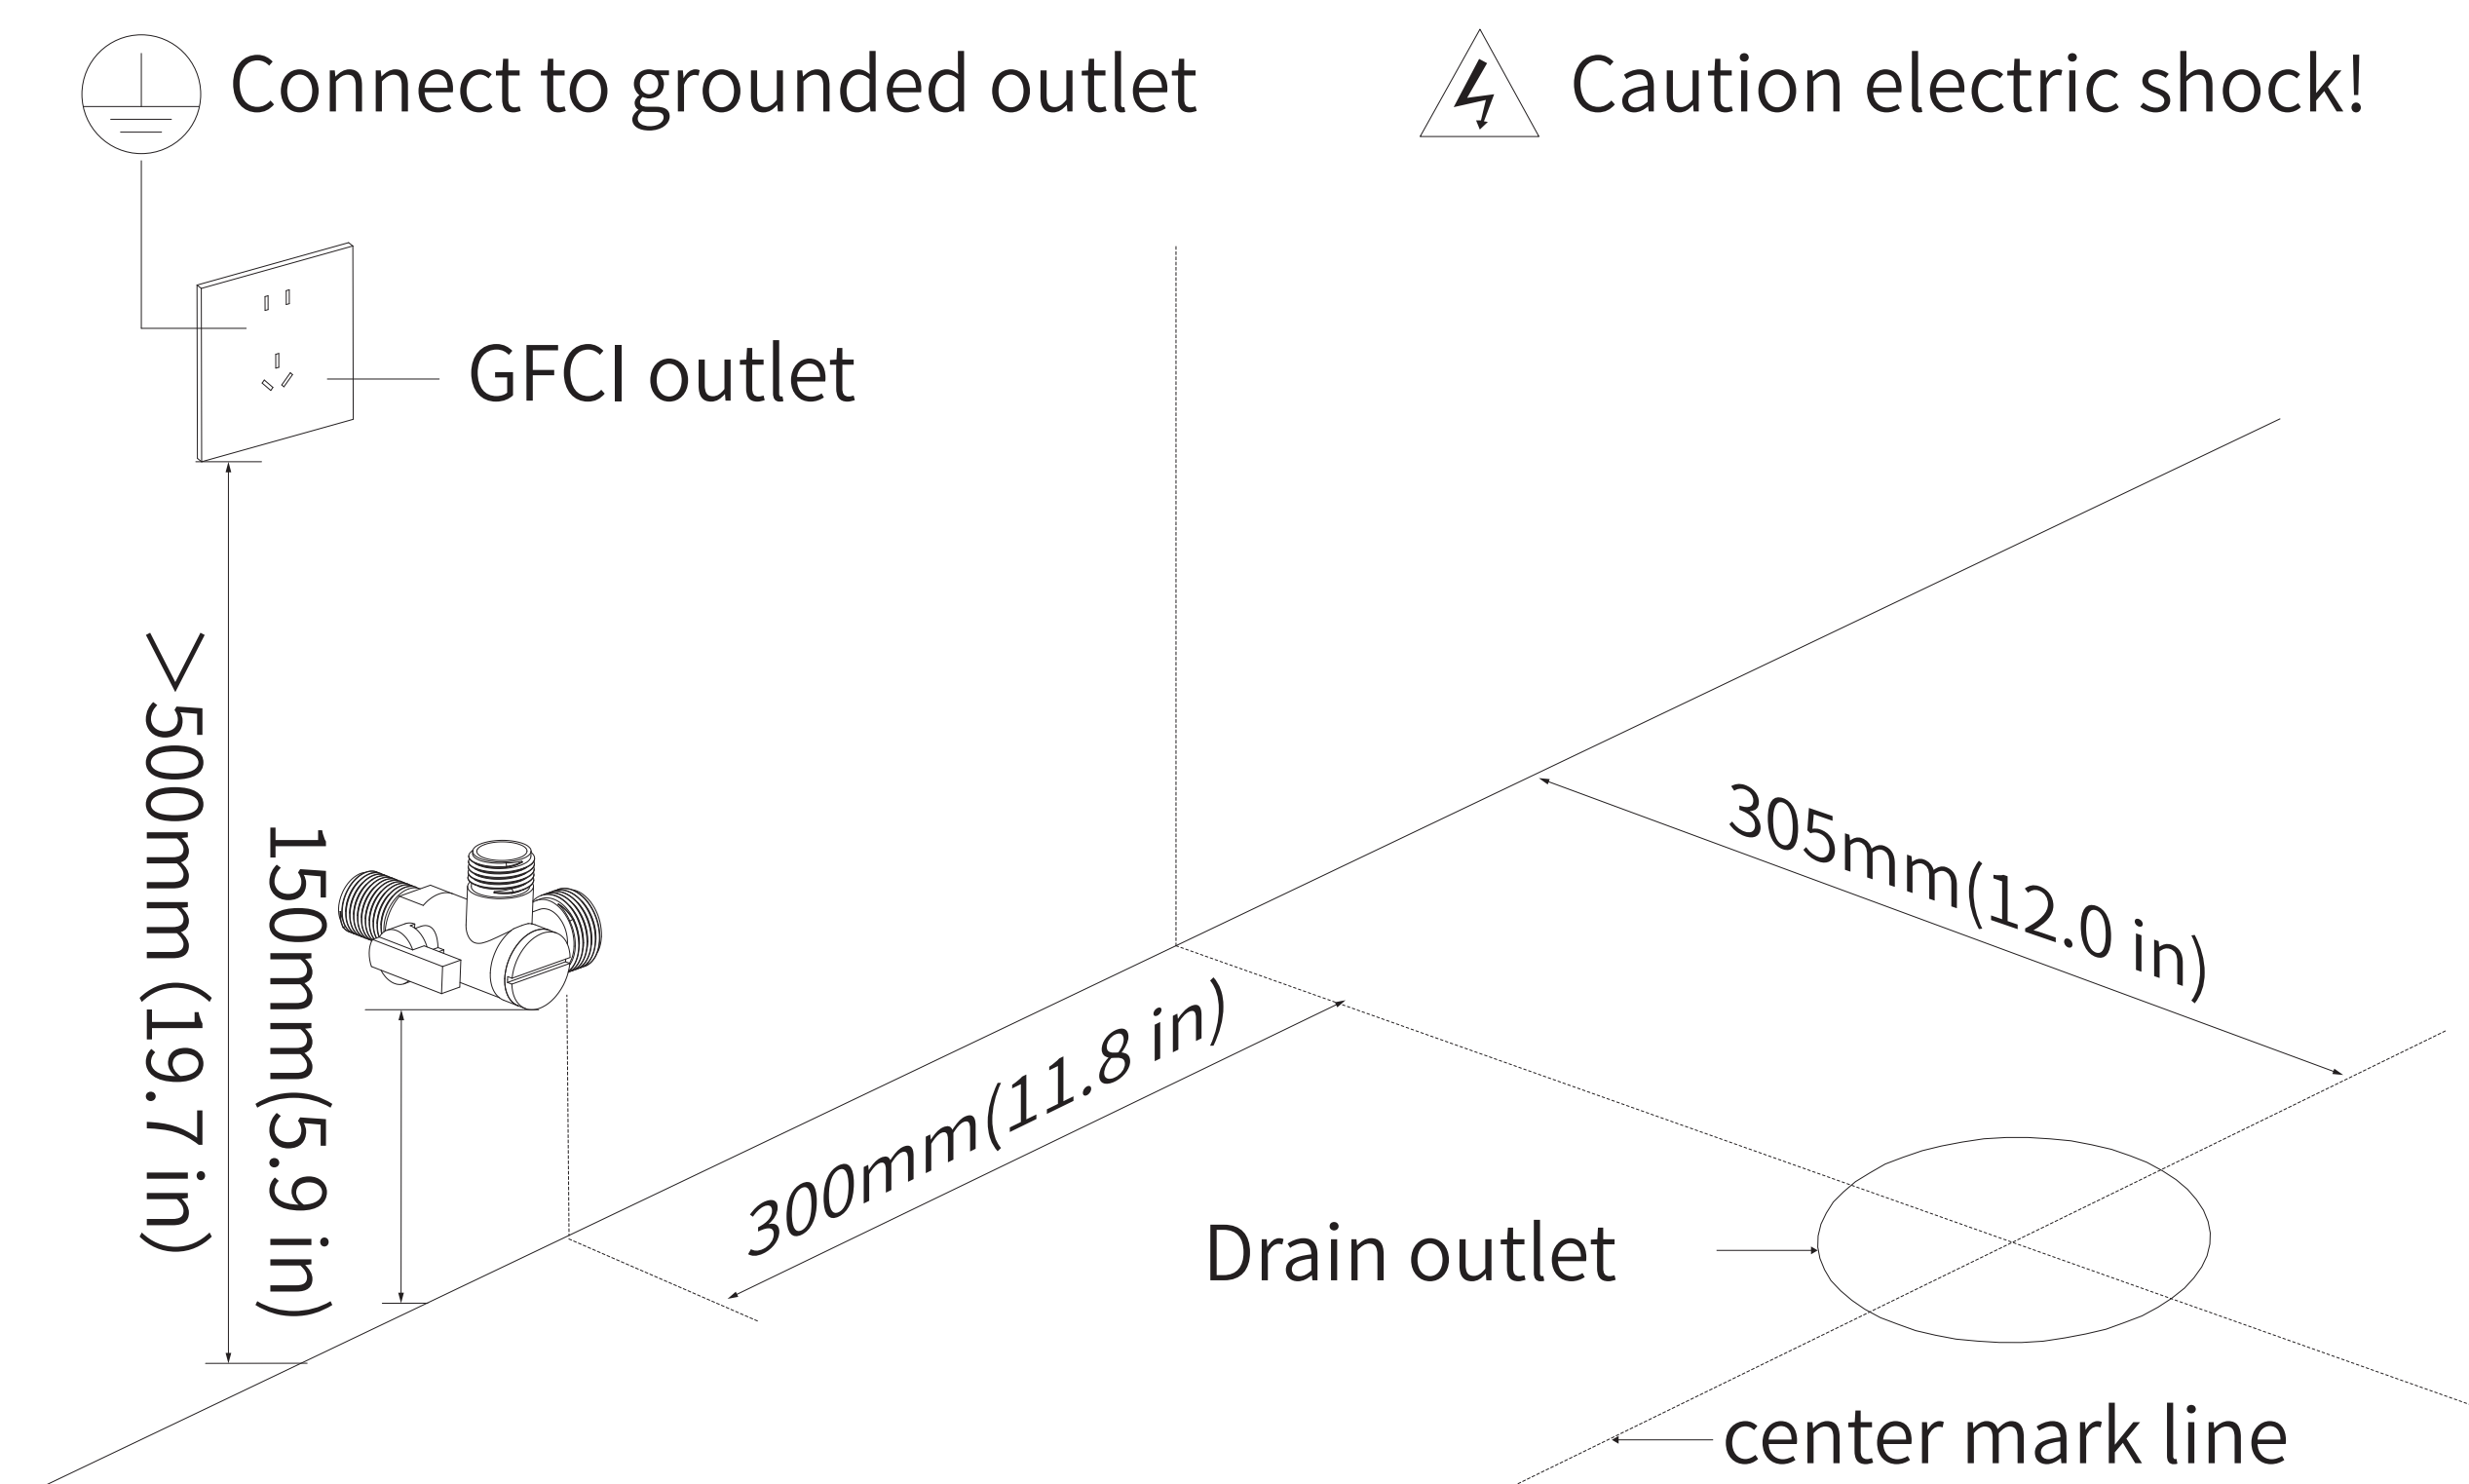

Open the angle valve for water supply.
The measured water flow for 10 seconds should exceed 3.34L.
※If the above conditions cannot be met, the best flushing effect cannot be achieved and an additional booster pump is required to increase the pressure.

NOTE: Drawings may not exactly define contour of the product.

Product Installation

1. Install the water inlet valve

Clean the ground and dry the water before installation. Mark the central lines of the draining outlet, and install the inlet valve on the wall.

2. Mark the curve of ceramics

Align the drain hole of ceramic with the central line. Mark the curve of ceramics for later installation.

Silicone sealant application: Glue the outline with silicone sealant.

NOTE: Drawings may not exactly define contour of the product.

Product Installation

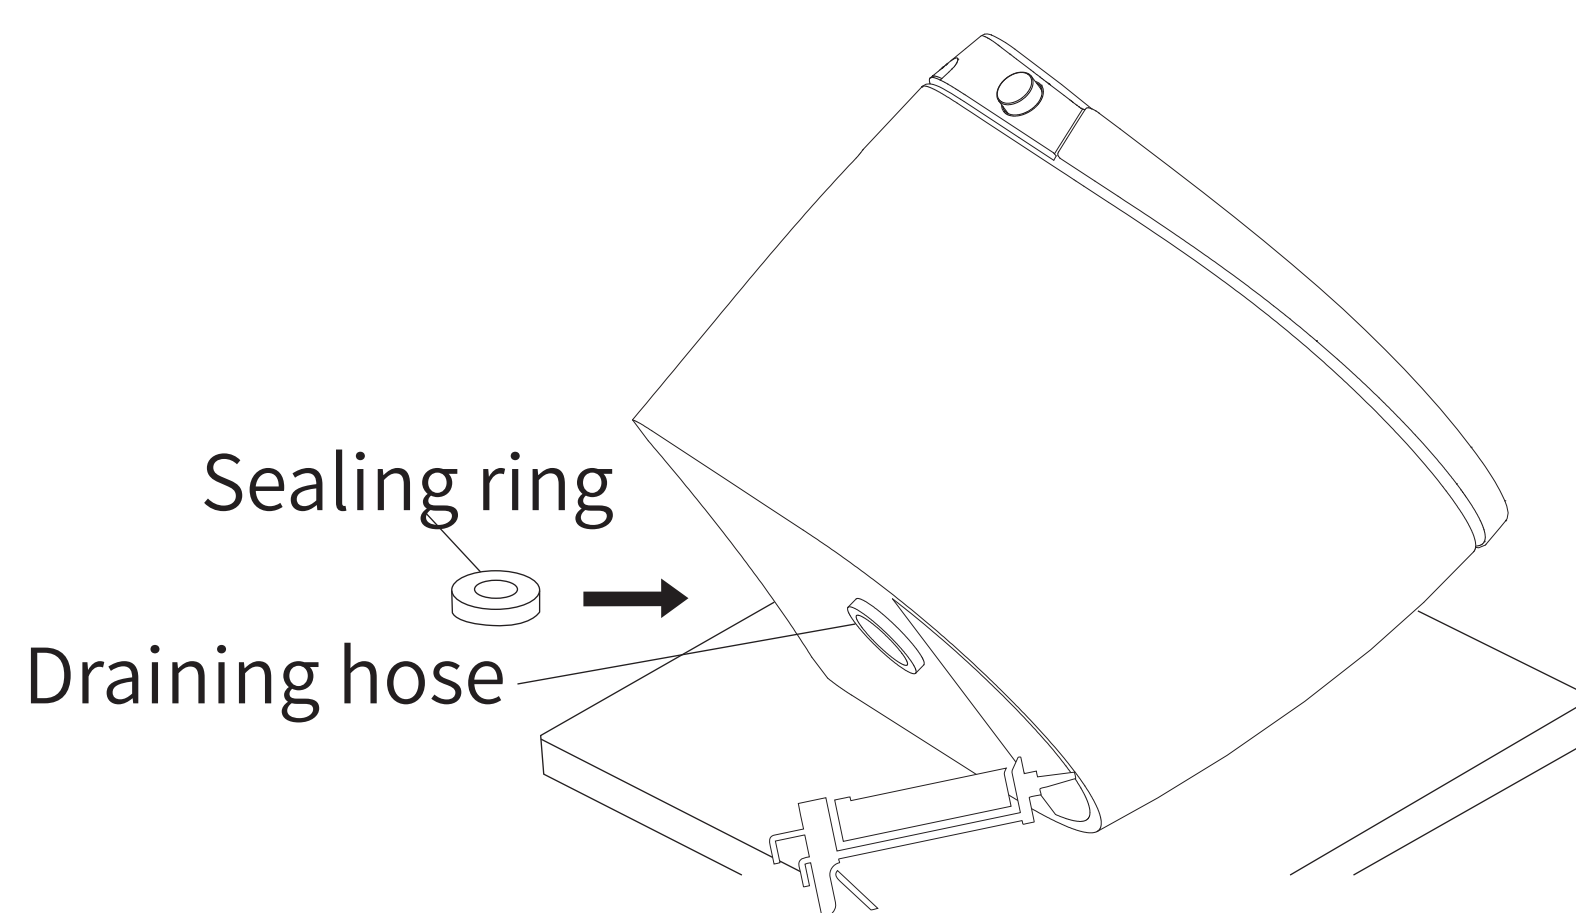

3. Toilet installation(Method 1)

① Sealing ring installation

Gently tilt the toilet sideways until it rests on the side surface.

Install the sealing ring evenly along the outlet, and the small end of the sealing ring facing the toilet.

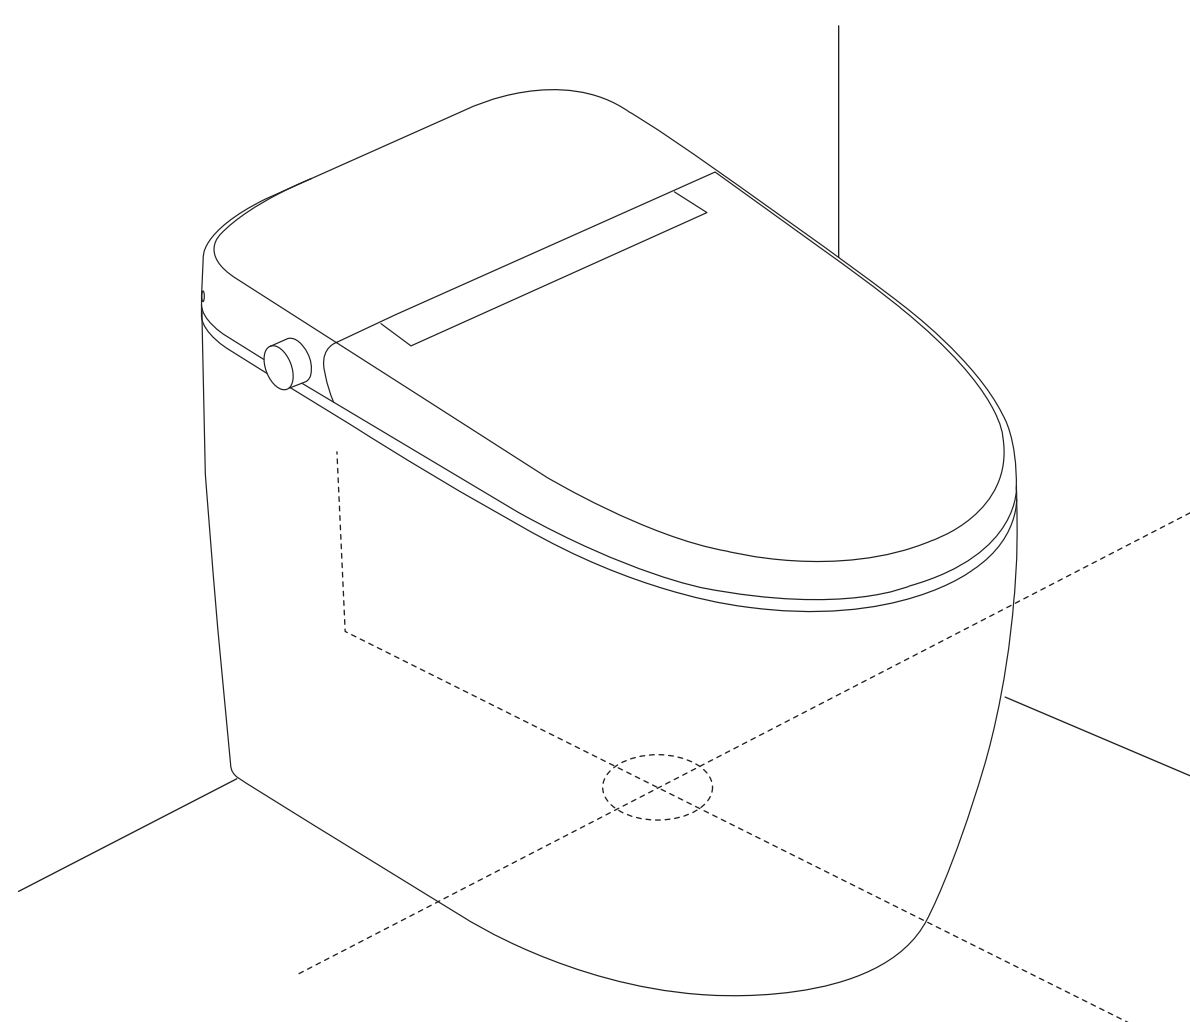

Glue the edge of toilet bottom with silicone sealant, place the toilet base along the outline and position the toilet base.

② Toilet (ceramic) installation

Lift the toilet, take the floor drain as a reference, align the ceramic body of the toilet with the ceramic contour line drawn on the ground, and slowly put the ceramic on the ground so that the two marks overlap. After overlapping, press the ceramic down (can be pressed by the weight of the human body) so that the sealing ring fully contacts the ground.

Do not move the ceramic or shake it left and right after the marks are overlapped, otherwise the seal produced by the sealing ring may be damaged and

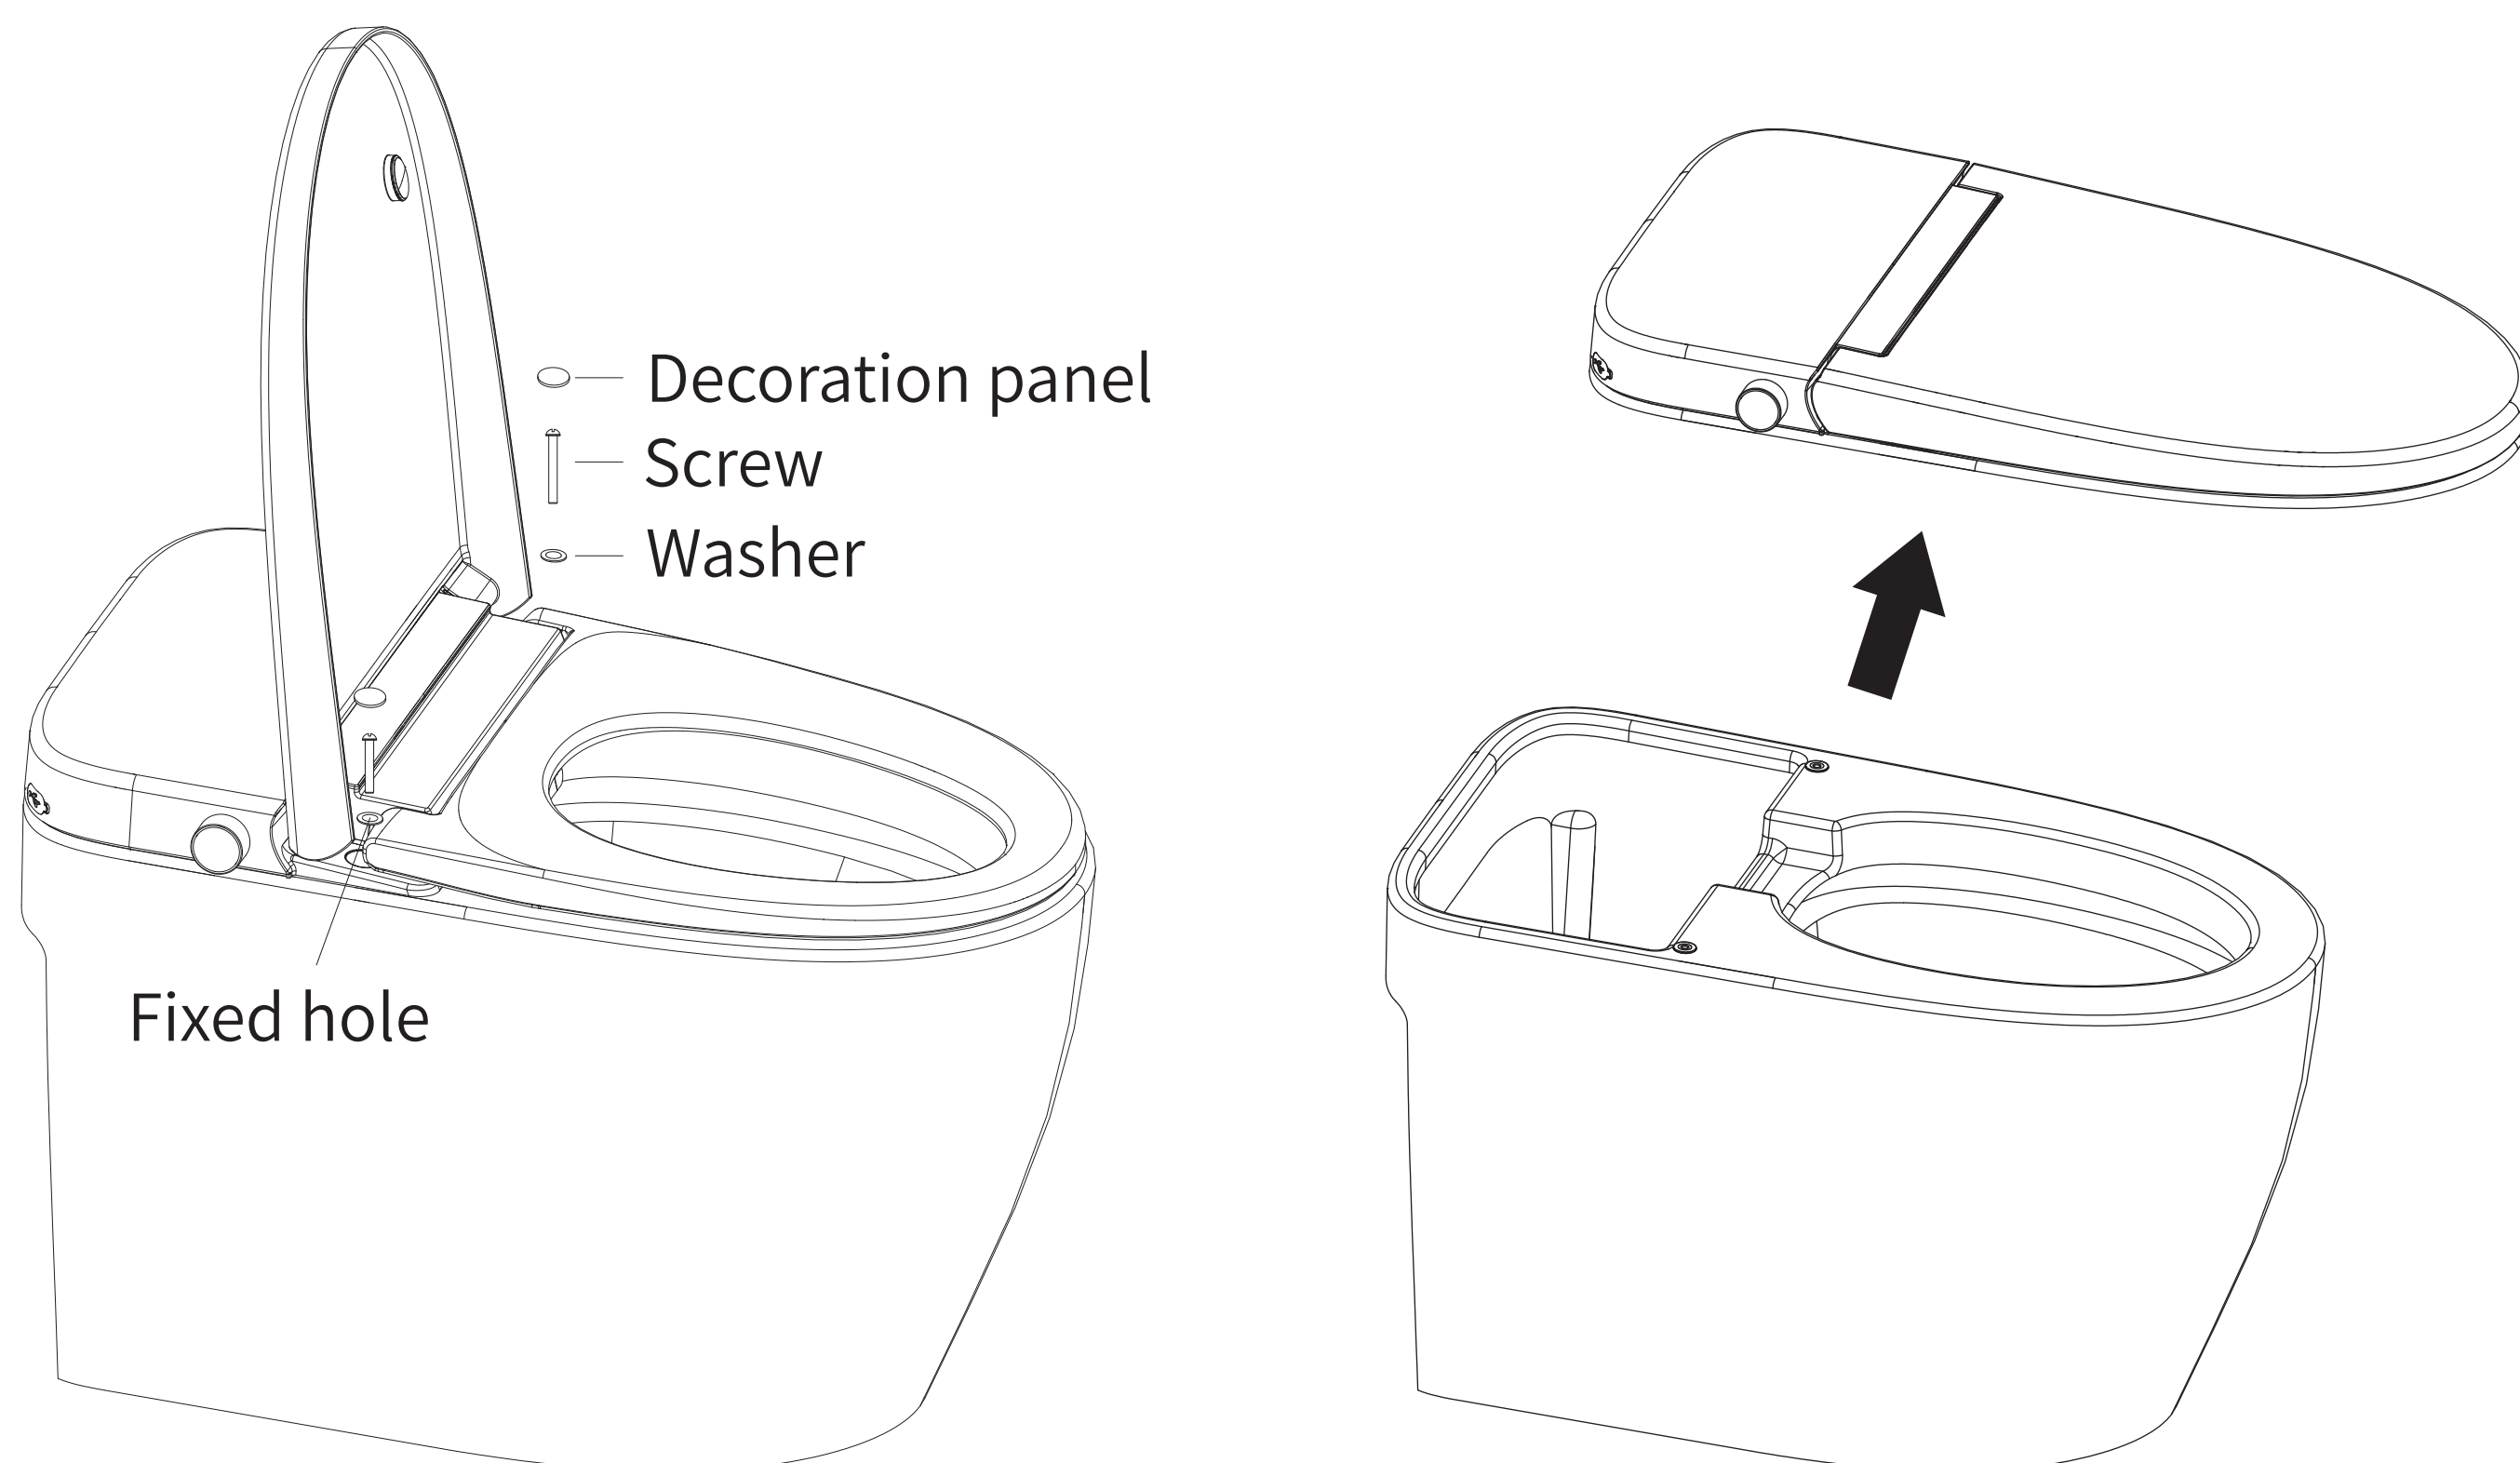

NOTE: Drawings may not exactly define contour of the product.

Product Installation

4. Toilet installation(Method 2)

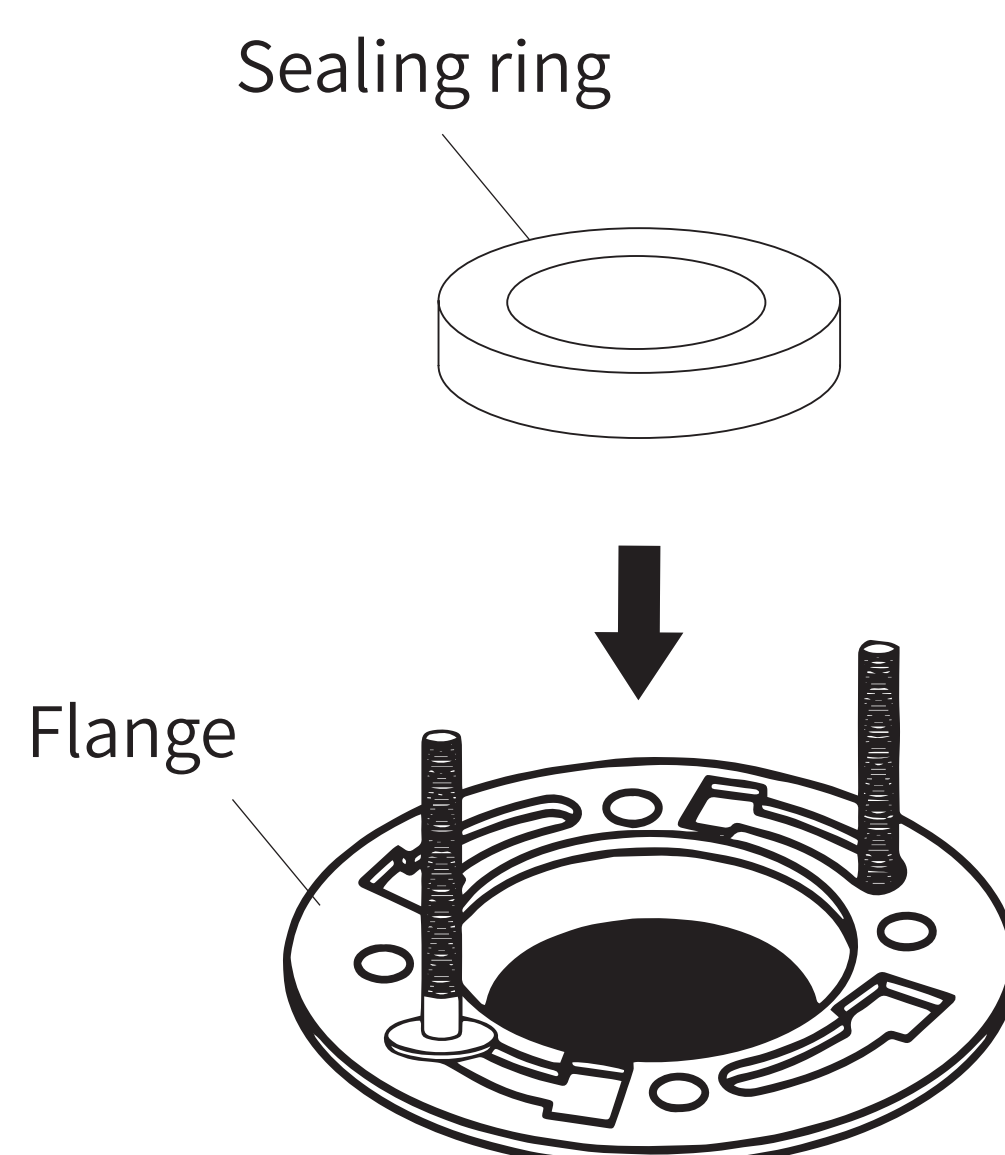

① Remove the bidet seat

Remove the fixing screws of the toilet; remove the connecting pipes and wires of the toilet, separate the bidet seat from the toilet.

② Sealing ring installation

Place the sealing ring onto the flange.

NOTE: Drawings may not exactly define contour of the product.

Product Installation

③ Ceramic installation

Glue the edge of toilet bottom with silicone sealant.

Line up the toilet base over the flange screws.

Place the toilet base and secure the flange bolts.

Glue the edge of toilet bottom with silicone sealant, place the toilet base along the outline and position the toilet base.

④ Bidet seat installation

Adjust the bidet seat to match the toilet, use screws to fix the bidet seat on the toilet.

NOTE: Drawings may not exactly define contour of the product.

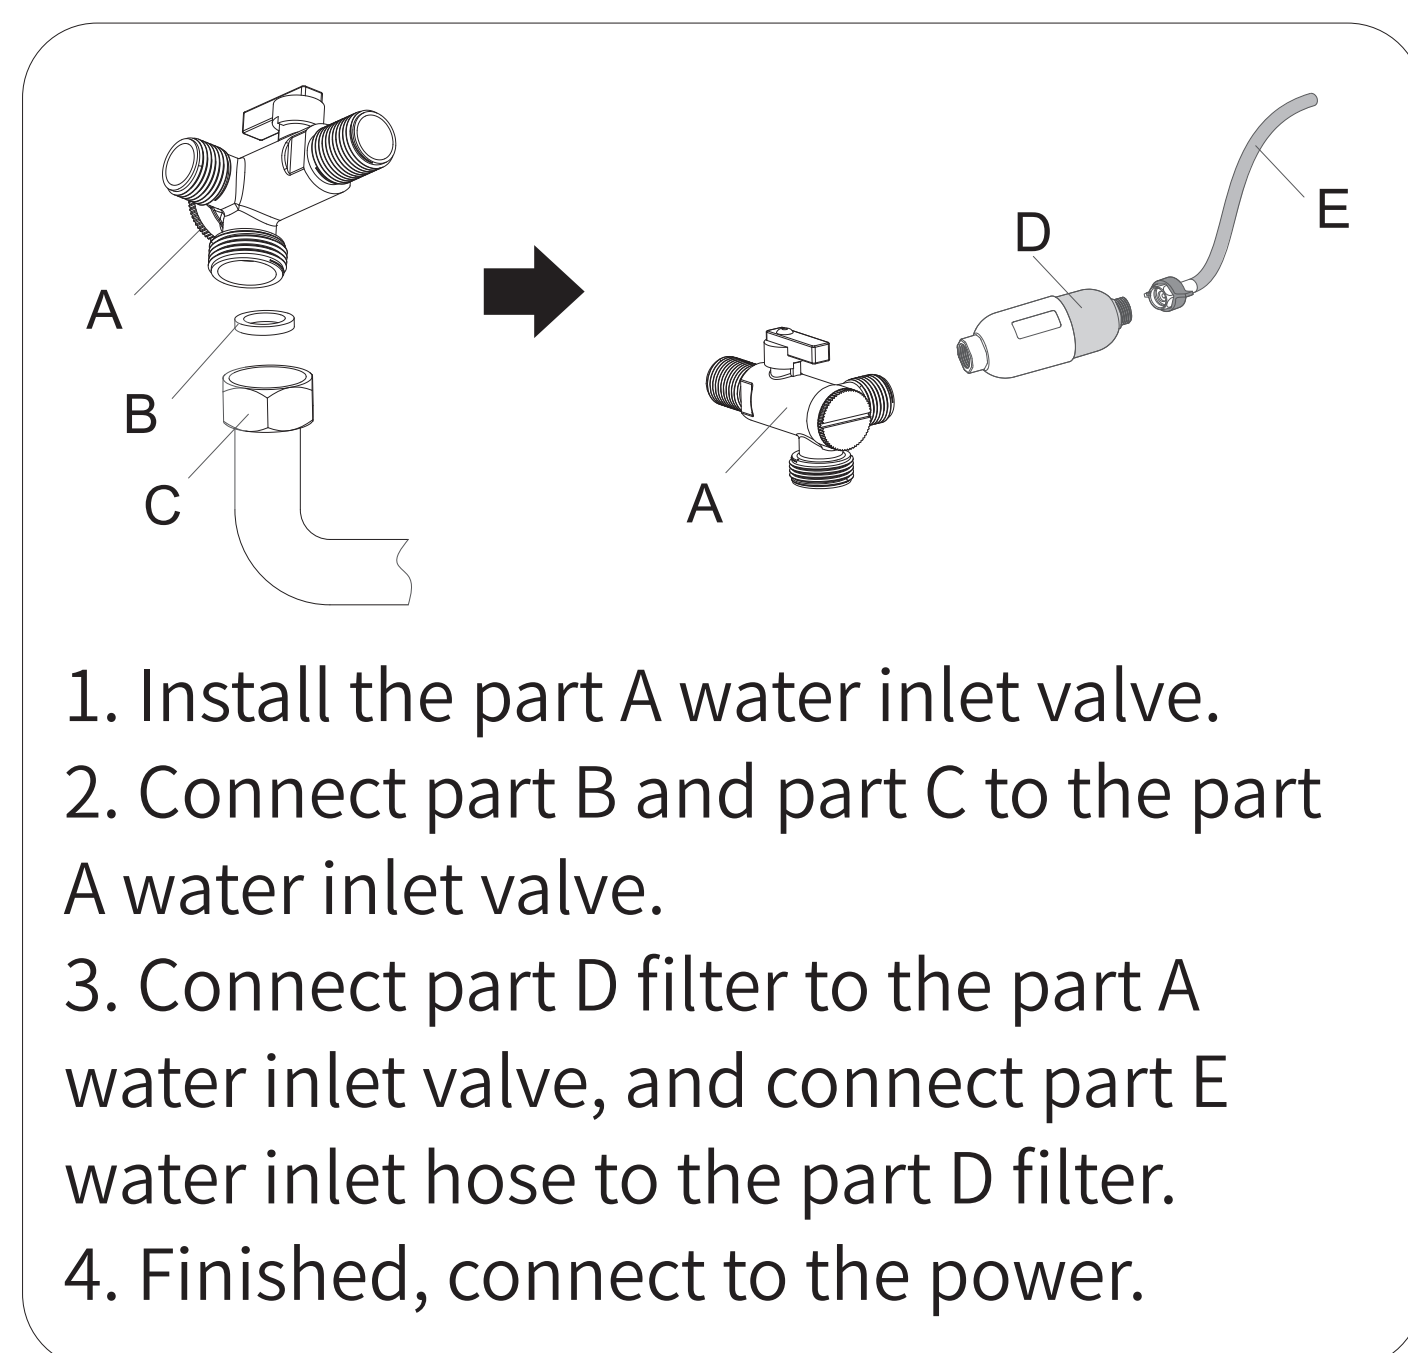

Product Installation

5. Connect the water inlet valve and filter

As shown in the following figures.

NOTE:

Do not use the smart toilet immediately after installation, use it after 48 hours.

6. Connect to the power

Only connect this product to a properly grounded outlet.

7. Using the product for the first time

① Connect to the power and open the water inlet valve.

Check every function buttons of the remote control and side control, such as rear/bidet wash, dry, flow adjustment, water temp adjustment, massage cleaning, swing cleaning, LED, seat temp adjustment, etc.

② Rear/Bidet wash performance test.

Touch the seat sensor built-in the seat with hand to activate the smart toilet and at the same time press Rear/Bidet button to check if the Rear/Bidet wash functions work properly.

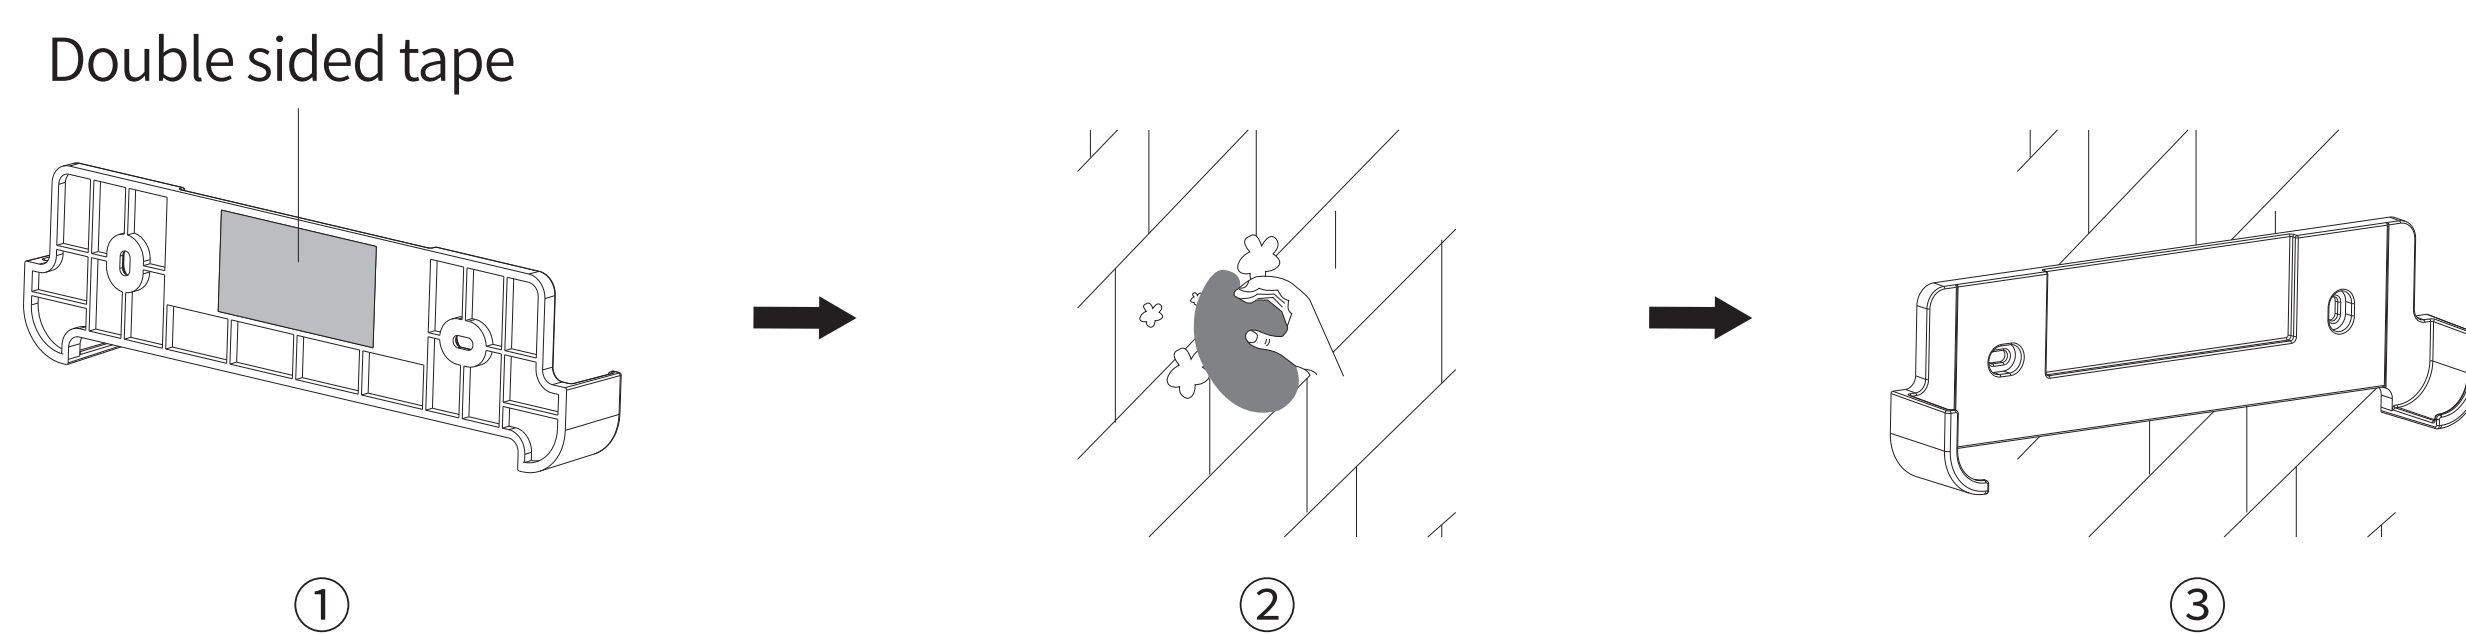

NOTE: Drawings may not exactly define contour of the product.

Instructions for Remote Control Installation

Method 1:

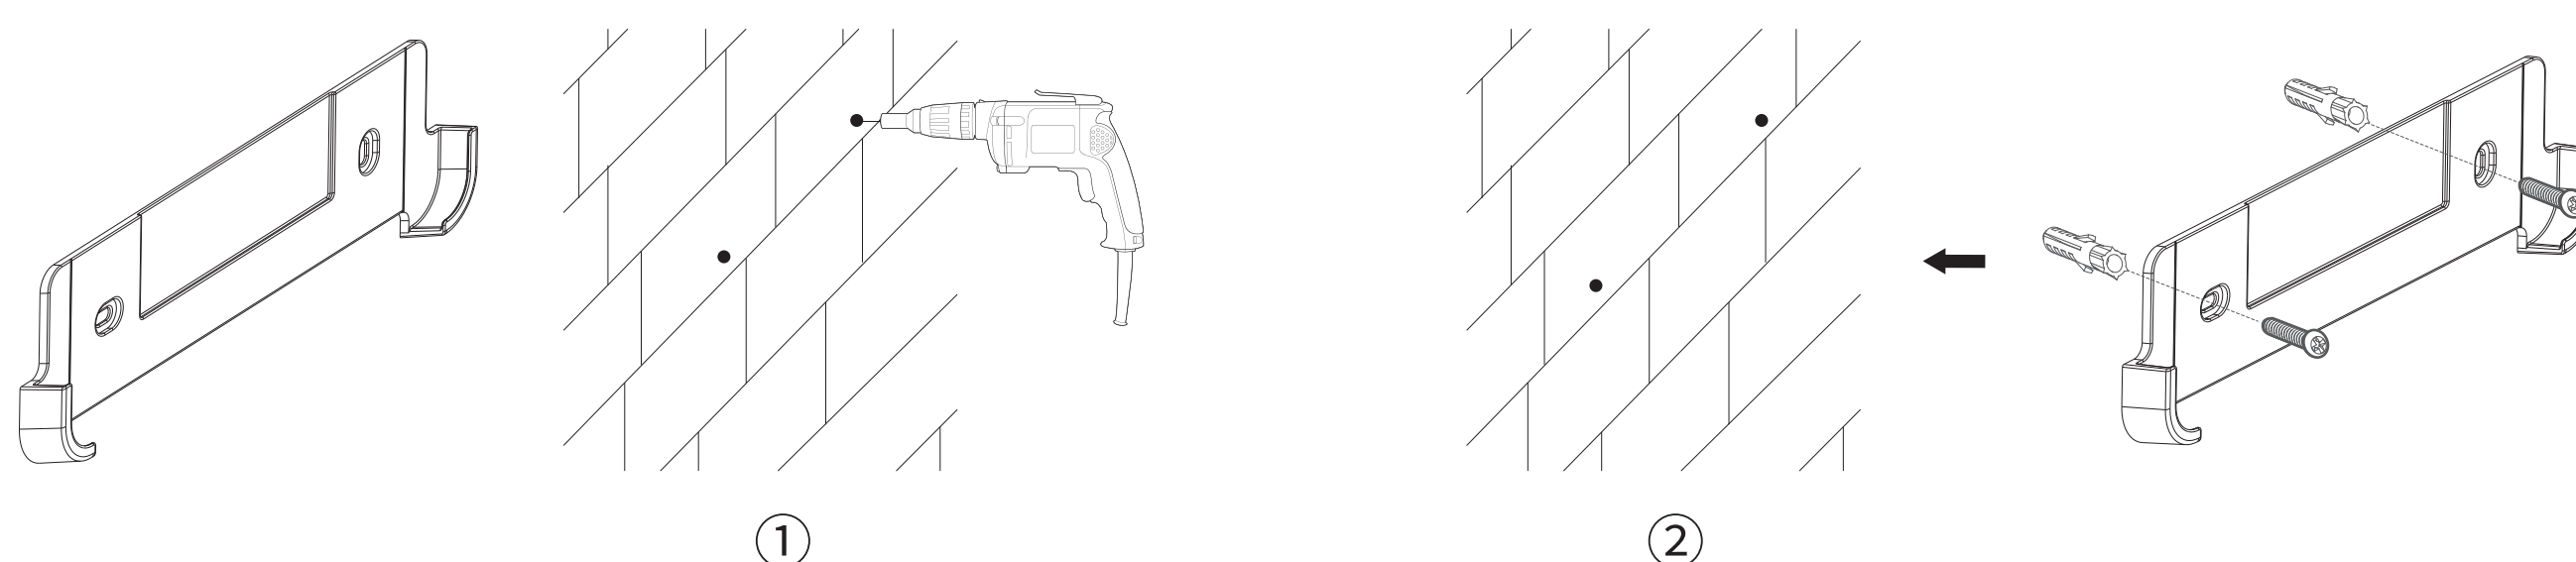

- ① Remove off the double-sided adhesive surface on the back of the remote control holder.
 - ② Clean dust, grease, water droplets on the walls and wipe them clean.
 - ③ Press the remote control fixed seat with double sided tape on it. Press it evenly for 3 to 5 minutes.
- Attach the remote control fixed seat to the wall.

Note: The method is applicable to glazed tiles, glass and smooth wall.

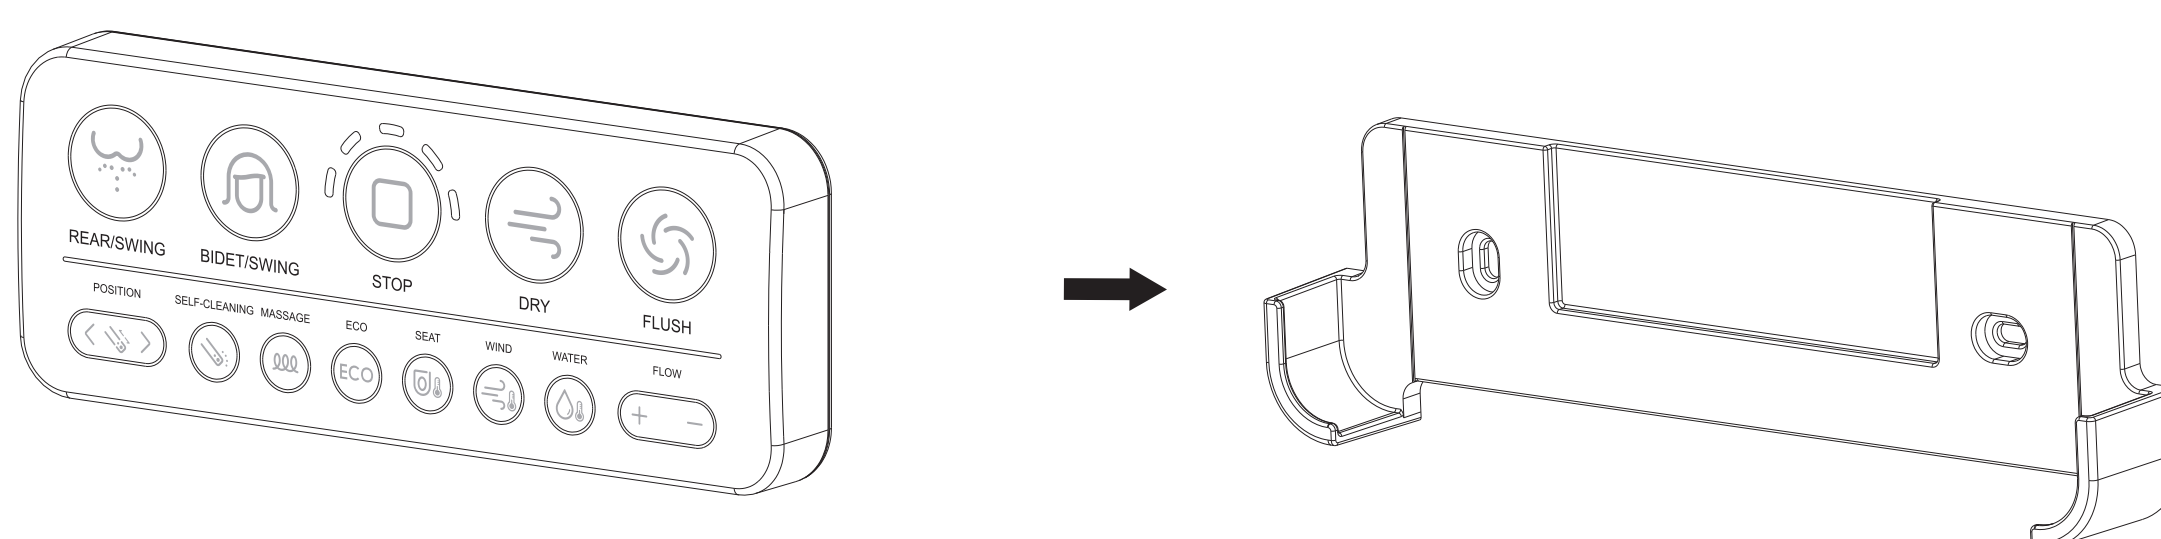

Method 2:

- ① Make two holes in the wall with a drill bit.
- Note: the position of the hole shall be satisfied for user to get the remote control conveniently when sitting on the seat.
- ② Point the expansion plug on the wall at the fixing hole of the remote control and lock the bolts.

Put the remote control on the fixed base after installing the battery.

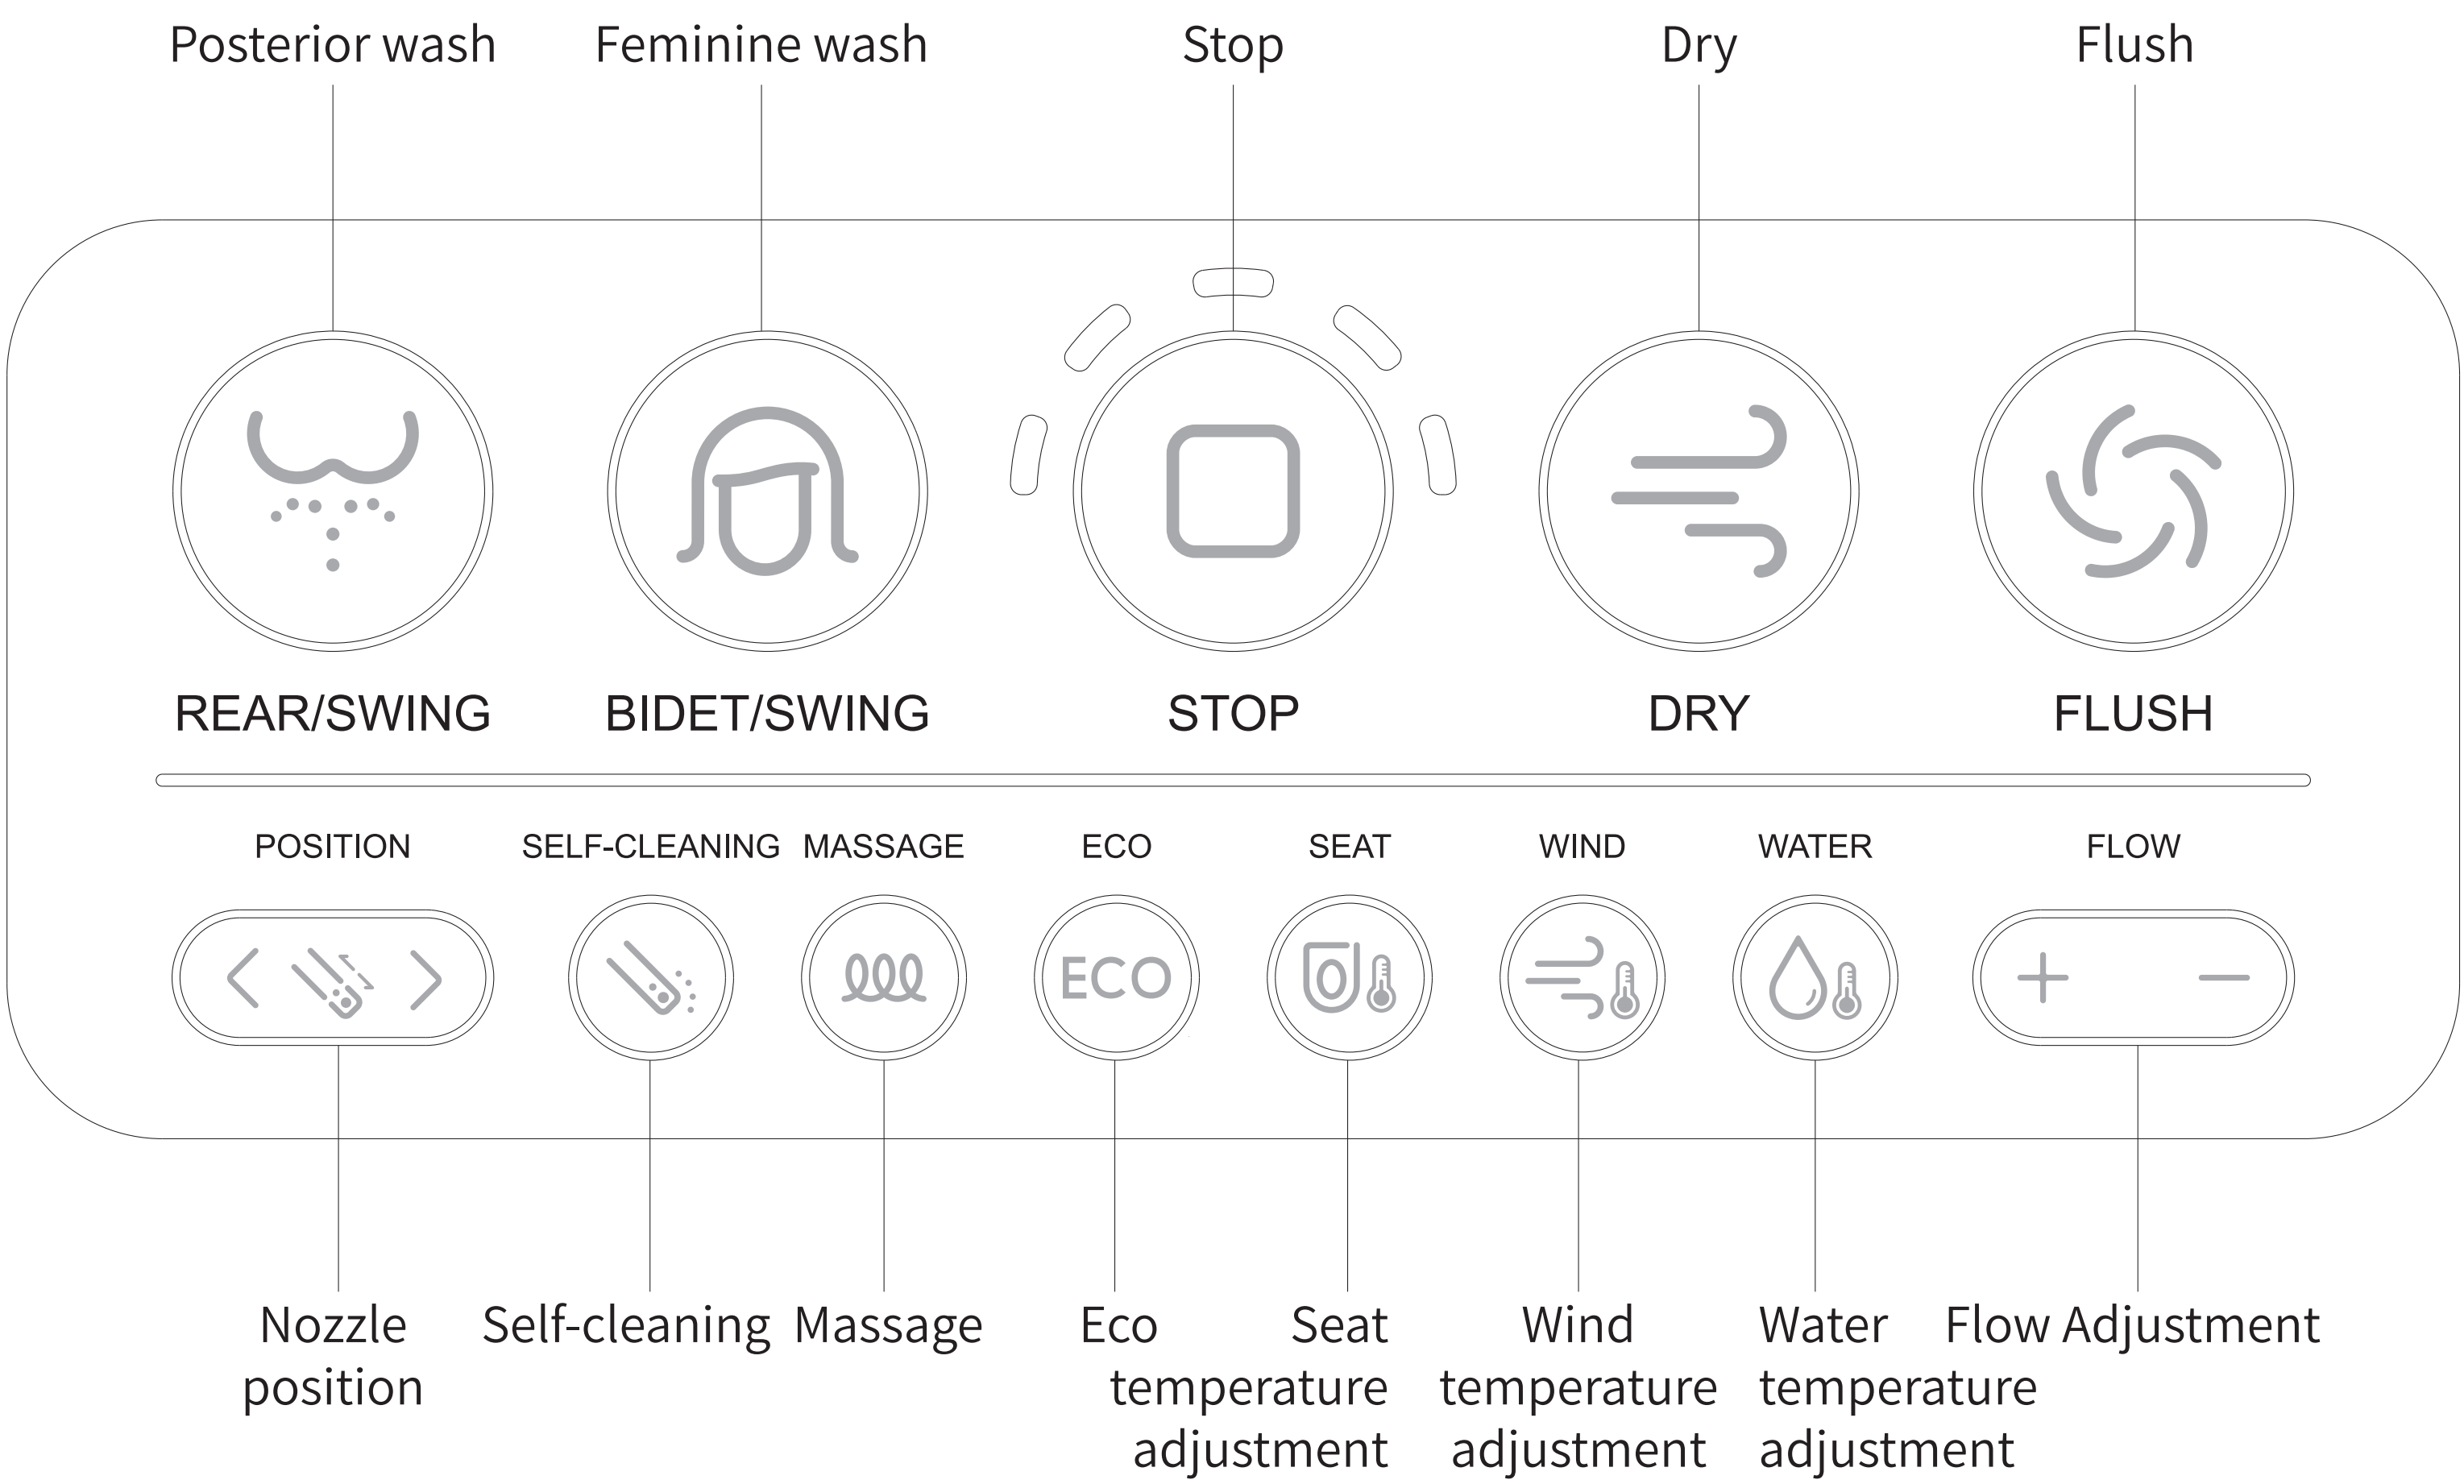

Tips:

- Please place remote control on the holder after each use. Do not let remote control fall on hard ground, otherwise it would cause malfunction or damage to the remote.
- Do not spill water on remote control or drop it into water, otherwise it would cause malfunction or damage to the remote.

NOTE: Drawings may not exactly define contour of the product.

Remote Control Panel Overview

To program the remote control:

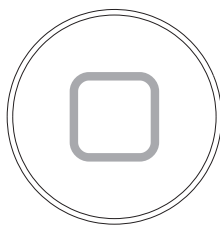

Ensure the seat is unoccupied, then long-press the side knob for 3 seconds until a beep is heard. Long-press the Bidet + Dry key on the remote control to enter code mode. Use the water temperature key to select the desired code value. Press and hold the stop key until a beep confirms the successful code entry. The coding process must be completed within 2 minutes, and no further coding is allowed after success.

TIPS:

Please remain seated and ensure the seat sensor is activated before using the smart toilet via remote or side control.

NOTE: Drawings may not exactly define contour of the product.

Using Instructions

STOP
Press the button, all functions stop.

REAR / SWING
Short Press the button to activate the posterior wash function. It will stop after 2 mins automatically or by pressing the stop button. This function will also stop when user leaves.
※Under Posterior/Feminine wash mode, Long Press the button you can activate the swing function. The nozzle sprays back and forth automatically. Press the button again to stop.

BIDET/SWING
Short Press the button to activate the feminine wash function. It will stop after 2 mins automatically or by pressing the stop button. This function will also stop when user leaves.
※Under Posterior/Feminine wash mode, Long Press the button you can activate the swing function. The nozzle sprays back and forth automatically. Press the button again to stop.

DRY
Press the button, you can activate the drying function.

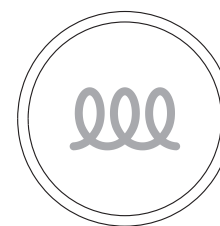

FLUSH
Press the button to flush the toilet.

POSITION
Under posterior wash or feminine wash mode, pressing > button to move the spray position forward, pressing < button to move the spray position backward. The spray position is 3 levels adjustable, the initial level is 2th. Under different levels, it has corresponding indicators.

SELF-CLEANING FUNCTION
Press the "Self-cleaning" button, the spray arm can be retracted back and forth, and clean it self.

MASSAGE
Under Posterior/Feminine wash mode, you can activate the massage function.
1. Impulse massage: the nozzle sprays with impulse water flow to clean the body.
2. High pressure massage: the nozzle sprays with high pressure water flow to clean the body.
Massage loop control: Impulse massage-High pressure massage-Stop.

ECO
Press the button to enter energy saving mode. Under energy saving mode, seat temperature is low(level 1); Night light turns off, only power indicator turns on. Energy saving mode will resume the seat temperature and video display when used. Energy saving mode will be restored when user leaving.

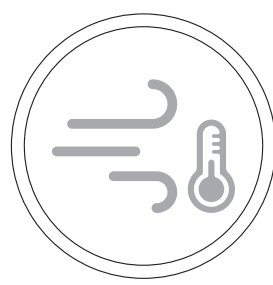

NOTE: Drawings may not exactly define contour of the product.

Using Instructions

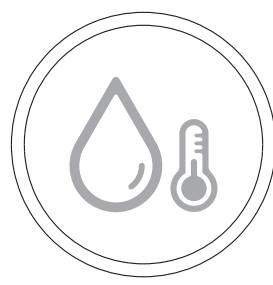

SEAT TEMPERATURE ADJUSTMENT

Pressing the button adjusts the seat temperature by one level each time. The temperature is cyclically adjustable among three levels and can be closed.

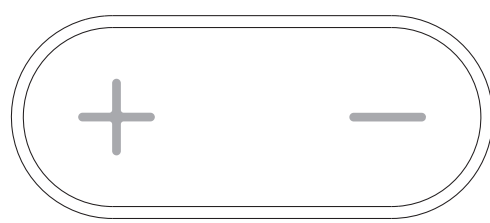

WIND TEMPERATURE ADJUSTMENT

In the drying state, every time you press the button, the air temperature will be adjusted by one level, and 3 levels will be cyclically adjustable.

WATER TEMPERATURE ADJUSTMENT

In posterior wash or feminine wash mode, pressing the "water temperature" button adjusts the water temperature by one level. It cycles through three adjustable levels, and a long press returns to normal temperature. The default setting is level 2, indicated by the corresponding level light.

FLOW ADJUSTMENT

In posterior wash or feminine wash mode, use the "+" button to increase water flow and the "-" button to decrease it. The flow is adjustable across three levels, starting at the 2nd level. Different levels are indicated by corresponding indicators.

COMBINATION FUNCTION KEYS

- Stop + Self-Cleaning: Long press for 5 seconds to manually clean the spray bar.
- Stop + Bidet Wash: Long press for 5 seconds to activate or deactivate the night light function.
- Stop + Massage: Long press for 5 seconds to activate or deactivate the kick flip function (not available in some models).
- Flush + Rear Wash: Long press for 5 seconds to activate or deactivate the Pre-wetting function (not available in some models).

NOTE: Drawings may not exactly define contour of the product.

Side Knob Control Instruction

■ User sitting

- Bidet wash: Rotate the knob forward to extend the spray wand, activating bidet wash for a 2-minute cycle.
- Rear wash: Rotate the knob backward to extend the spray bar, initiating rear wash for a 2-minute cycle.
- Nozzle position: Under bidet/rear wash, twist the side knob forward or backward to adjust nozzle position.
- Stop: Under bidet/rear wash, press the side knob to stop washing.
- Drying: Press and hold the side knob for 2 seconds to start air drying;
- Wind temp: Twist the side knob forward to increase the wind temp, backward to decrease the wind temp.
- Flush: Press the side knob to flush the toilet.

■ User standing

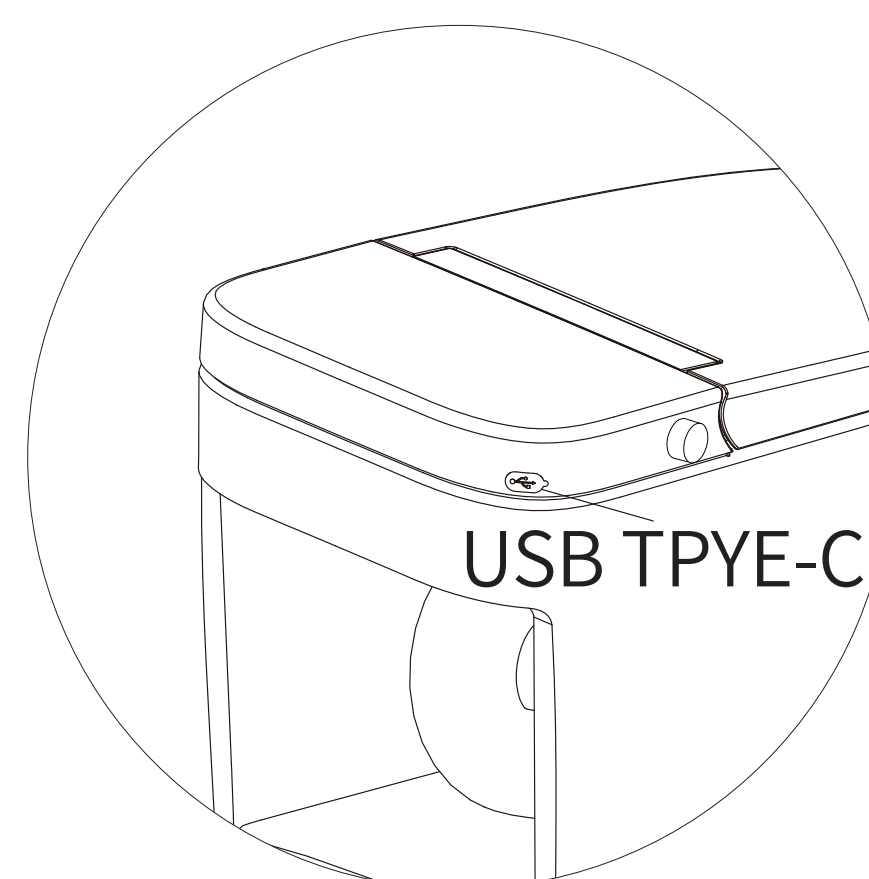

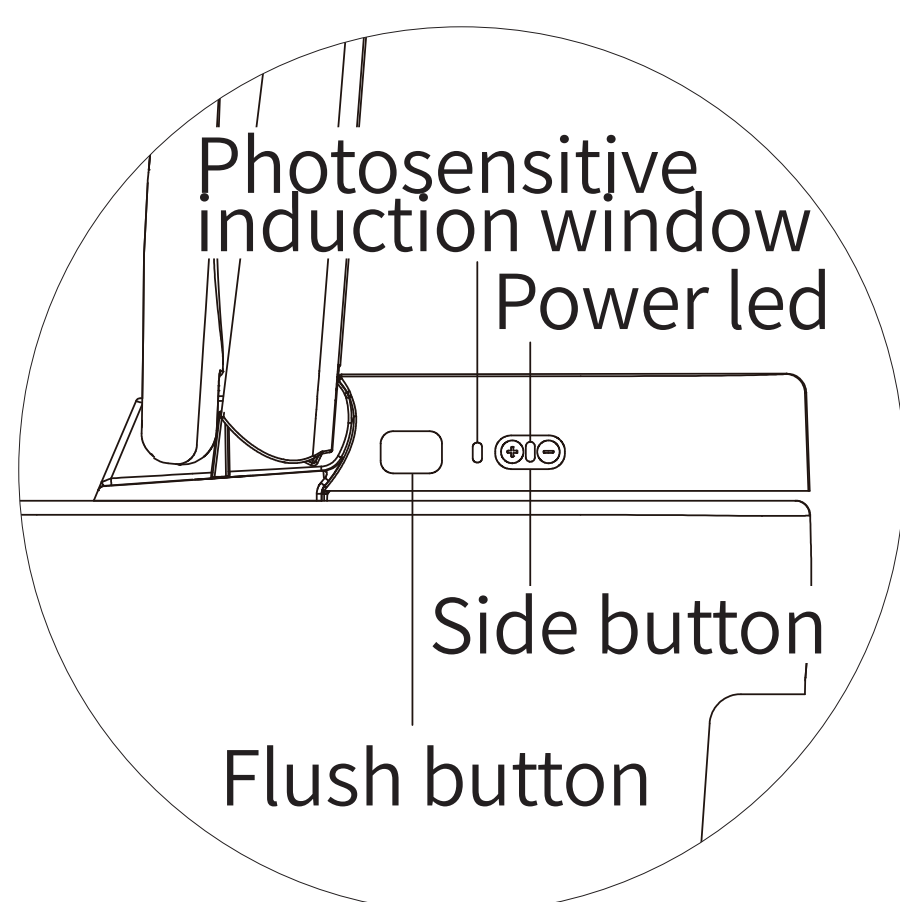

- Press the side knob to flush the toilet.

■ Kick sensing

- Tap the kick sensor and turn on the automatic flushing function.

NOTE: Drawings may not exactly define contour of the product.

Side Button Description

Drying on/off:

Press and hold “+” or “-” for about 2 seconds to turn on or off the drying in the seating state and non-rinsing state.

Air temperature adjustment:

In the drying state, short press “+” or “-” to adjust the air temperature.

Seat temperature adjustment:

In the non-flushing and non-drying state, short press “+” or “-” to adjust the seat temperature.

Water temperature adjustment:

Press “+” or “-” in the flushing state to adjust the water temperature.

Flushing function:

Short press the flushing button to start the flushing.

Night light function:

Press and hold the “-” for about 5 seconds to turn on or off the night light function when you are not seated.

Auto off seat flushing:

Press the flushing and “-” at the same time for about 5 seconds in the non-sitting state to open or close the automatic flushing function of leaving the seat.

Foot sensing flush:

Press the flushing and the “+” at the same time for about 5 seconds in the non-sitting state to turn on or off the foot sensing flush.

Power-off flushing function:

When the power is off, connect to the USB type C with a power bank to achieve the manual, foot sensing and off seat flushing functions (please do not cut off the power when flushing).

NOTE: Drawings may not exactly define contour of the product.

Maintenance and Cleaning

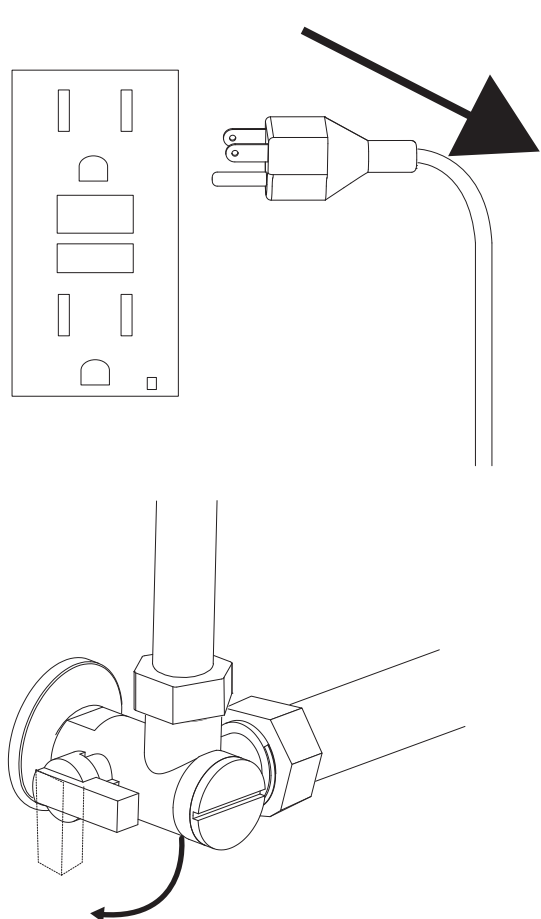

Maintenance and cleaning of toilet lid and seat

1. Turn off the power, close the water outlet valve.
2. Use soft cloth to clean the lid and seat.
 - ※Be careful not to allow water to get inside or leave detergent in the gap between the top unit and the bowl unit.
 - ※Avoid using materials that will damage the surface. Clean the surface with a soft and wet cloth.
 - ※Corrosive chemicals or cosmetics (such as cleaners containing abrasive compounds and aftershave) can not be used to clean the lid and seat.
3. Turn on the power, open the the water outlet valve.

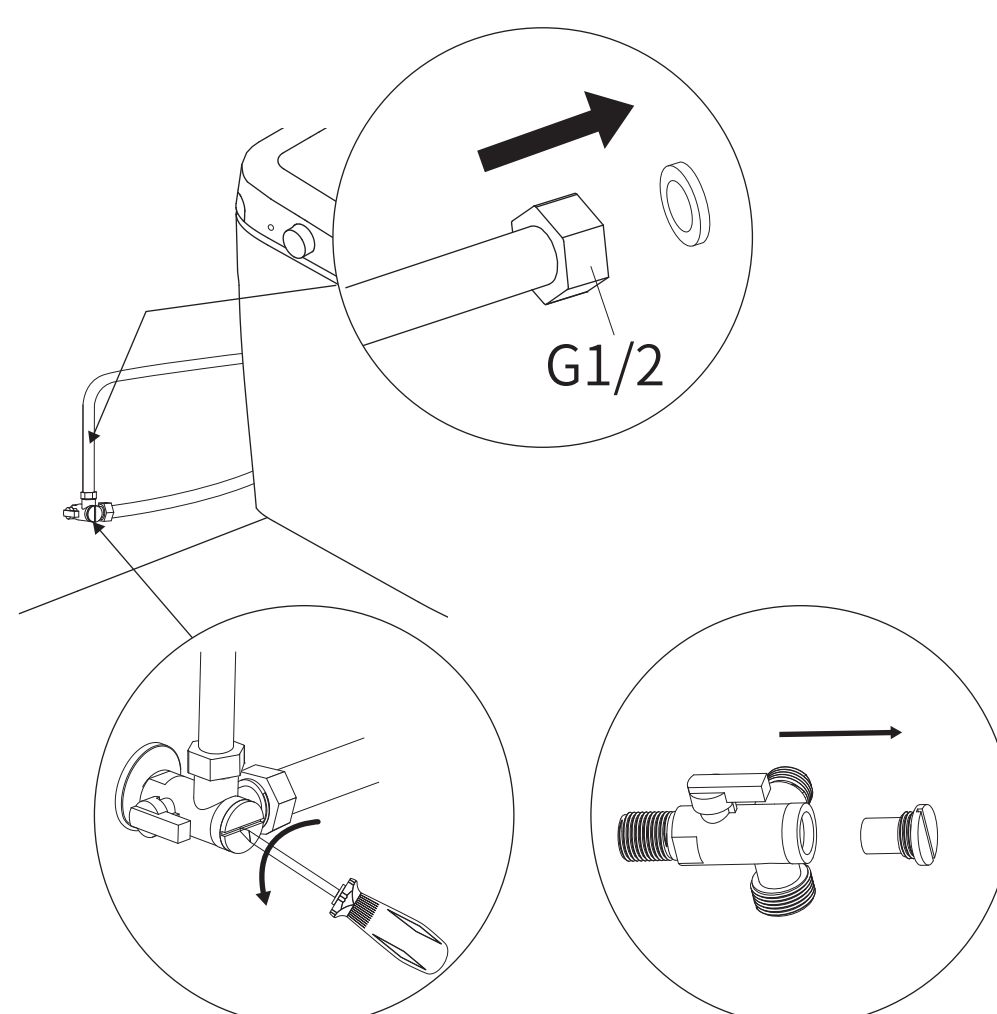

Maintenance and cleaning of the toilet bowl

1. Turn off the power.
2. Use toilet brush and toilet detergent to clean the bowl.
 - ※Corrosive chemicals (such as cleaners containing abrasive compounds and strongly acidic cleaners or strong alkaline cleaners) should not be used to clean the bowl.
 - ※Wire brush or abrasive nylon scrubbing brush should not be used to clean the bowl.
3. Turn on the power.

Cleaning The Water Filter

- ① Turn off the power
Close the water outlet valve.

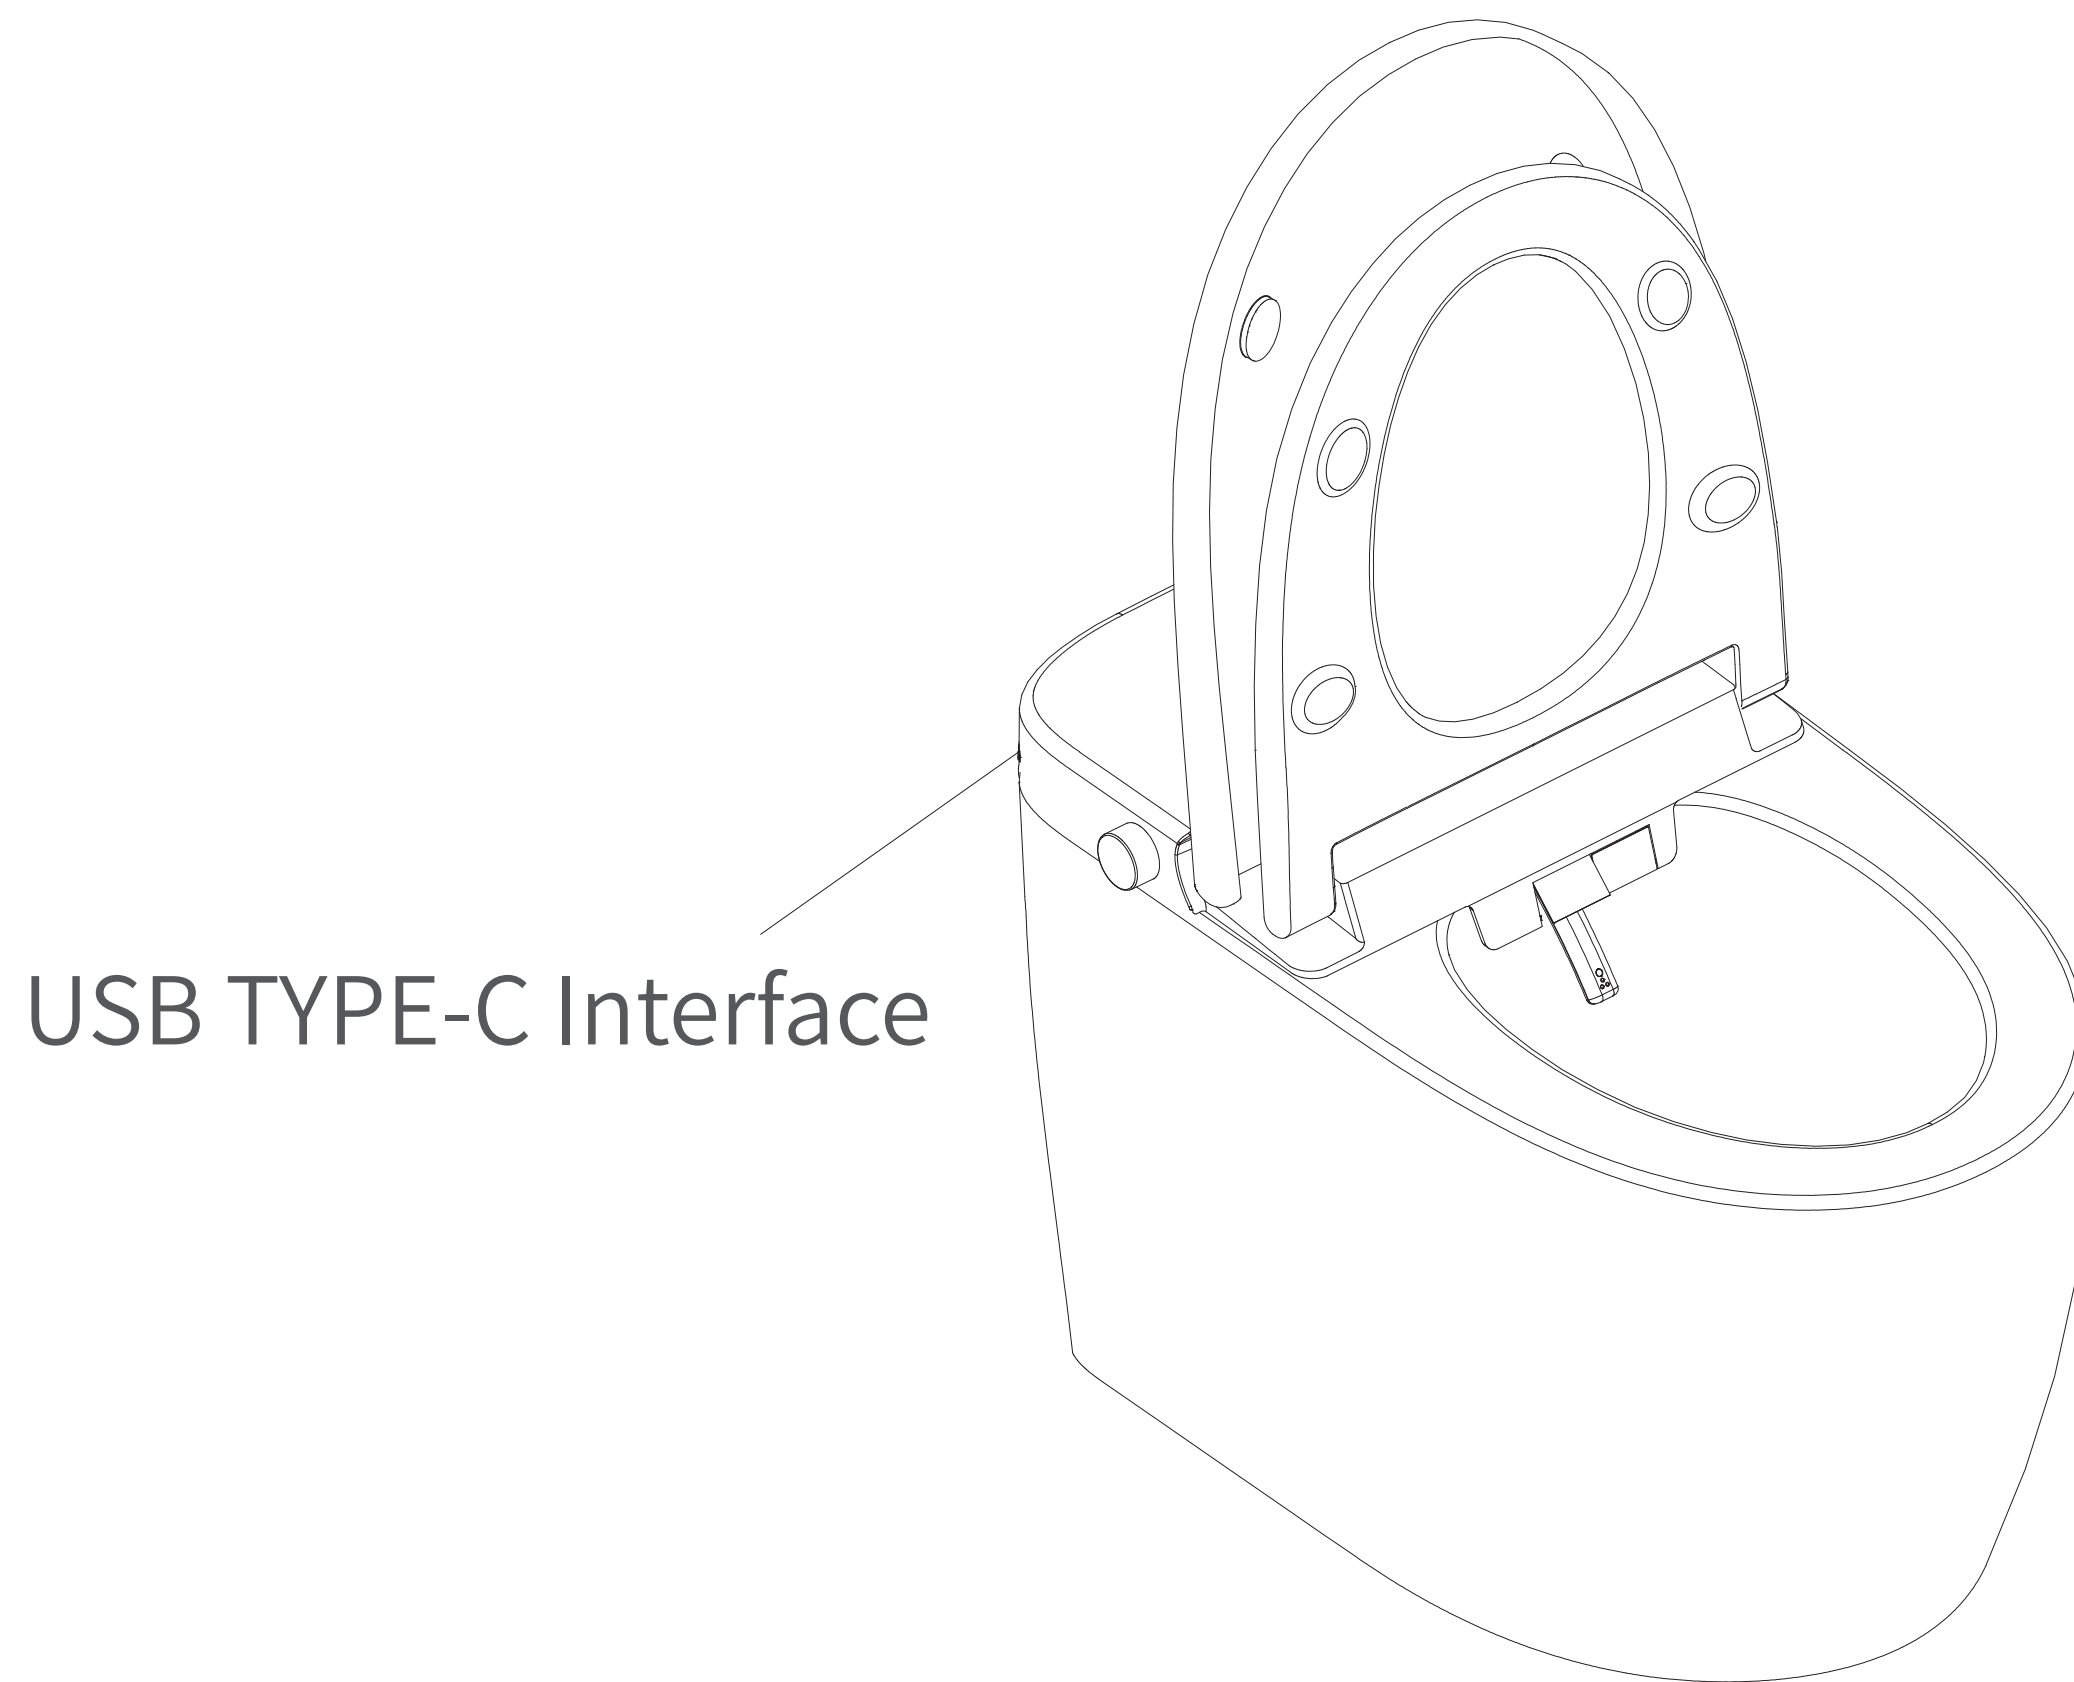

- ② Remove the water-inflow filter from the inlet hose.
③ Take out the filter by using a flat-blade screwdriver to unscrew the filter .

- ④ Remove the filter and rinse it with clean water.
⑤ Install the filter screen as it is, be sure to tighten it, otherwise it will cause water leakage.

NOTE: Drawings may not exactly define contour of the product.

How to Do?

1. When the toilet can not flush automatically due to power outage.

Connect the smart toilet with power bank through the TPYE-C interface.

2. When the toilet can not flush automatically due to water outage.

- ① Flush the sewage in the toilet away with basin.
- ② After flushing, add water to the toilet to avoid stinking.

3. When the product is left unused for long time

- ① Turn off the power, and close the tee valve, drain the water in the inlet hose.
- ② Especially in winter, the water inside the hose of the toilet should be discharged to avoid freezing.

NOTE: Drawings may not exactly define contour of the product.

Troubleshooting

Phenomenon	Reasons	Measures
The product out of work	Whether the power supply is plugged in.	Insert the plug or detect the power socket.
	Power outage.	Wait until the power supply restored.
	The leakage protector is disconnected.	Restart the product.
<div>► Rear cleaning</div> <div>► Bidet cleaning</div> <div>► Dry</div> <div>The toilet does not flush even when the button is pressed.</div>	The wand extends but water does not come out. Water pressure is weak.	Wait until the water supply restored.
		Open the water outlet valve.
		Is the water filter drain valve clogged with foreign matter? Clean or replace the filter.
	Low water temperature.	Use remote control to adjust the water temperature.
	The seat sensor does not sense someone sitting.	Sit on the toilet seat properly.
The nozzle stops cleaning suddenly.	If the user moves too fast or leaves the seat, the seat sensor cannot detect in short time.	Sit on the toilet seat properly, then press “Rear” or “Bidet” button again.
Low water pressure under rear/bidet wash.	Filtration screen of inlet angle valve may be blocked	Clean or replace the filter.
	The water-inflow hose may leak	Check the hose and tighten it.
Water comes out unexpectedly from the wand.	Abnormal operation	Disconnect the power plug and wait about 1 minutes before inserting it again.
Water comes out unexpectedly from the inlet hose.	The inlet hose is defect.	Replace the inlet hose.
The toilet seat does not get warm.	The seat sensor does not sense someone sitting.	Sit on the toilet seat properly.
	Low seat temperature.	Use the remote control to adjust seat temperature.

NOTE: Drawings may not exactly define contour of the product.

Troubleshooting

Phenomenon	Reasons	Measures
The air drying temperature is low.	The air drying temperature is at the lowest level.	Use remote control to adjust air drying temperature.
The toilet does not flush.	Water is not available from the water supply.	Taking water to flush.
	The water supply valve is not fully open.	Check the tee valve.
The sewage can not be flushed away completely.	The water supply valve is not fully open.	Check the tee valve.
	The water filter is clogged.	Clean the filter.
	The water supply pressure is weak.	Check the water supply.
	Flushing may be difficult due to the consistency of the waste material.	Flush the toilet again. If the bowl is not cleaned with a flushing, remove the stains with a brush or other tools.
There is residue on the bowl unit surface.	Oil and other hard-to -see grime may stick to the bowl unit surface.	Clean the bowl with a non-abrasive toilet detergent.
The remote control fail to control the toilet.	Low battery.	Replace with new batteries.
	Battery polarties are mounted reversely.	Reinstall properly.
	The remote control is too far from the toilet.	Get close to the toilet.
	The remote signal emitter was blocked.	Clean the remote signal emitter.
LED light doesn’ t turn on.	The indoor light is too bright.	Please turn off the indoor light and close the curtain.
The top unit is unstable.	There is clearance between the toilet seat cushion and the bowl.	It’ s common phenomenon.
Water is leaking from pipe joints.	Pipe joints are loose.	Tighten the hose.
	Pipe joints keep leaking.	Close the water outlet valve and replace a new hose.

● Notice

When facing an issue, carefully review the common troubleshooting provided above and follow the maintenance instructions for the product. Reach out for assistance by contacting professional maintenance personnel, dealers, or the DeerValley after-sale service team promptly.

Please note that there might be variations between the contents of this manual and the actual product, and in such cases, the information pertaining to the actual product should take precedence.

Maintenance content			
<p>Free Maintenance Regulation:</p> <p>1. We warrant our products to be free from defects in materials and workmanship during normal use when properly installed and serviced, for a period of one (1) year from date of purchase. This limited warranty is extended only to the ORIGINAL PURCHASER of the product and is not transferable to any third party, including but not limited to any subsequent purchaser or owner of the product. This warranty applies only to our product is purchased and installed in USA and Canada.</p> <p>2. The obligations under this warranty are limited to repair, replacement or other appropriate adjustment, at our option, of the product or parts found to be defective in normal use, provided that such product was properly installed, used and serviced in accordance with instructions. We reserves the right to make such inspections as may be necessary in order to determine the cause of the defect.</p> <p>3. This warranty does not apply to the following items:</p> <p>a) Damage or loss sustained in a natural calamity such as fire, earthquake, flood, thunder, electrical storm, etc.</p> <p>b) Damage or loss resulting from any accident, unreasonable use, misuse, abuse, negligence, improper care, or maintenance of the product.</p> <p>c) Damage or loss resulting from sediments or foreign matter contained in a water system.</p> <p>d) Damage or loss resulting from the quality of water in the region where the product is used.</p> <p>e) Damage or loss resulting from improper installation or from installation of the product in a harsh and/or hazardous environment, or improper removal, repair or modification of the product.</p> <p>f) Damage or loss resulting from electrical surges or lightning strikes or other acts which are not the fault of the product or which the product is not specified to tolerate, including failure to use the factory equipped cord and plug or use of a loose or faulty electrical outlet or use of a current or socket other than a 120V, 60Hz electrical current from a GFI (ground, fused) socket.</p> <p>g) Damage or loss resulting from normal and customary wear and tear, such as gloss reduction, scratching or fading over time due to use, cleaning practices or water or atmospheric conditions, including but not limited to, the use of bleach, alkali, acid cleaners, dry (powder) cleaners or any other abrasive cleaners or the use of metal or nylon scrubbers.</p>			
Executive standard: CONFORMS TO UL STD. 1431/UL STD. 1591 ASME A112.4.2-2021			
Warranty period: within one year from the purchase date			

- Due to the constant improvement about our products, we will keep the final interpretation of products change.
- If the products you bought exist differences from the instruction, please in kind prevail.

FC **NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses

and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

LIMITED WARRANTY COVERAGE

1 YEAR LIMITED WARRANTY

DeerValley products are made with quality materials and excellent craftsmanship to provide the customers a long-lasting product. In the case of any defects in materials or craftsmanship under regular use were inspected in the first one year of delivery, DeerValley will provide replacement parts at no charge, or at its option, replace any product or part of the product that is deemed

defective, under normal installation, use, service and maintenance. This warranty applies only to the original purchaser. Proof of purchase will be required in the case of a claim. **SCRATCHES ARE NOT COVERED UNDER WARRANTY.**

The manufacturer warrants this product to be free of manufacture defects during the above mentioned warranty time. Please keep a copy of the original invoice as proof of purchase.

DeerValley will, as its option, (1) repair or replace the defective part(s) or product(s) at no charge; (2) issue a refund of the original purchase price of the product(s) (Valid within 30 days from the date of delivery); or (3) issue a credit to be applied toward the purchase of a new DeerValley product shipping/delivery charges may apply and are in DeerValley sole discretion.

DeerValley recommends the installations to be made by a licensed, professional plumber. DeerValley will not be held responsible for any damage or product failure due to improper installation, misuse, or failure to use a licensed professional. DeerValley is not responsible for any removal or installation cost.

This limited warranty shall not apply to goods which have been subject to accident, negligence, improper installation, product abuse, product misuse, or use of cleaners containing abrasives, alcohol or other organic solvents, whether performed by a contractor, service company, or yourself, are excluded from this warranty.

DeerValley responsibility under this limited warranty is limited to only to replacement parts and no other costs. DeerValley will not be responsible for labor charges and/or damage incurred by installation, repair or replacement, nor for any indirect incidental or consequential damages, losses, injury or costs of any nature relating to this product Except as provided by law, this limited warranty is in lieu of and excludes all other warranties, conditions, and guarantees, whether expressed or implied, statutory or otherwise, including without restriction those merchantability of fitness for use.

RESPONSIBILITIES OF OTHERS

Inspecting the unit prior to installation is the responsibility of the installer or building contractor who acts on behalf of the user. They are responsible for ensuring the unit is free of defect or damage.

Notices are placed on and in the unit and on the shipping carton advising the installer of this responsibility.

In the event of a problem, the unit must not be installed. DeerValley is not responsible for failures or damage that could have been discovered, repaired, or avoided by proper inspection and testing prior to installation.

Damage occurring in transit is the responsibility of the carrier. The user or installer **MUST** open the crate and inspect the unit for damage when it is delivered. If damage is discovered, it must be reported immediately to the seller and the carrier in writing, and an inspection requested. Failure of the carrier to respond should be reported to the seller and the carrier. Your freight claims should be filed promptly thereafter.

LIMITATIONS AND EXCLUSIONS

This warranty does not cover instances of negligence, misuse, abuse, improper installation, carelessness, accident, hard water or mineral deposits, exposure to corrosive materials, misapplication, damages caused by improper maintenance, alteration of the product, or failure to follow care or installation instructions enclosed with your product. This warranty is void if the DeerValley is subject to alteration, or if repairs are attempted by anyone other than an authorized agent of DeerValley. This warranty does not extend to plumbing or components installed by dealers, installers or by any party other DeerValley.

DeerValley is not responsible for the loss of DeerValley use, inconvenience, or any incidental or consequential costs, expenses, or damages. Please be aware that in some states, the exclusion or limitation of incidental damages may not be allowed.

DISCLAIMER

Except as expressly provided, there shall be no warranty or obligation, express or implied, oral or statutory. No dealer or other person has the authority to make any warranties or representations concerning DeerValley or its products. In no event shall DeerValley be held responsible for any such warranties or representations.
