Features & Benefits

Convenient

The DishDrawer™ Double dishwasher fits seven place settings per drawer and provides ultimate convenience as one drawer can be washing as you fill the other. DishDrawers™ allow flexible design options and good ergonomics in the kitchen. The double drawers can be used together or one at a time allowing you to match the wash program to the exact load type in each drawer.

Efficient

This DishDrawer™ model has nine wash programs, including Eco options to minimize water and energy usage. The world's first flow-through dispenser ensures detergent is thoroughly dissolved before washing, while a 3-stage filtration process removes debris and avoids blockages.

Innovative

The DishDrawer™ is a world's first. Providing ultimate convenience, allowing greater kitchen design options and better ergonomics, the double drawers can be used together or one at a time.

Ergonomic

DishDrawers™ are as easy to open and close as a kitchen drawer and conveniently positioned at countertop height so loading and unloading requires minimal bending. Foldable cup holders and tines allow you to place large pots and crockery into the drawer easily.

Safe

For added safety, a key lock and child lock are included.

Ecofriendly

These dishwashers offer Eco options to minimize water and energy usage. Only two gallons of water per drawer is used in a Normal Eco wash program.

A history of innovation

Find out what inspired the world's first dishwasher in a drawer 20 years ago and the incredible journey that followed.

Meet the maker

Watch Mike Jensen, General Manager of Industrial Design, explain the idea behind the DishDrawer™ Dishwasher.
