

IRWIN®

DEMOLITION HAMMER

The IRWIN® 24 oz. Demolition Steel Framing Hammer is not your everyday hammer. Designed with demolition applications in mind, it comes with a larger more optimized strike face. The hammer can also grab, straighten, bend or reposition 2x4 (and 2x6) boards. It's also equipped with added features like a side nail puller, magnetic nail starter, and textured finger rest on the grip for added stability and control when doing more precise work.
