

Compact Storage Shed

From garden supplies to folding lawn chairs, you can store and protect it all in this strong, durable storage shed by Hanover. With 13.5 square feet of internal floor space, this compact shed is constructed with powder-coated, galvanized steel, which is resistant to rust, corrosion, and UV rays.

A slight downslope to the guttered roof allows for adequate rainwater runoff. Sliding double-doors allow easy access, and the door handles feature padlock eyes to accommodate most combination or keyed locks (padlock NOT included).
