

FCC STATEMENT

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAN ICES(B)/NMB(B)

The tests have been tested and found in compliance with the requirements of ICES-003 Issue 7 regulation for the evaluation of Class B of electromagnetic compatibility.

INSTRUCTIONS

INTRODUCTION

B+H Fast Charging Station is a plug-in charging station, featuring 2 AC outlets with 1250W, 10 amps, 125V, 2 USB ports and 1 USB C port with 20w PD Charging. This compact electronic charging station keeps everything in one place. it works smoothly with any USB-powered device such as Apple iPhone, iPad and Android smartphones, tablets, cameras, e-Readers. Bluetooth headsets, speakers and more. Great for kitchens, offices, bedrooms, garages, workshops, dorm rooms or any organization purposes.

IMPORTANT SAFEGUARDS

TO REDUCE THE RISK OF ELECTRIC SHOCK - Use only indoors.
Use only in dry locations.

- RISK OF ELECTRIC SHOCK. DO NOT plug into another relocatable power tap or an extension cord. Connect the unit's power cord directly to a standard wall outlet.
- Keep the unit AWAY from babies and children.
- DO NOT use with wet hands or in any area with wet condition such as in bathrooms.
- DO NOT use outdoors or in other wet, damp areas, or any hazardous environments requiring failsafe performance.
- DO NOT use for medical or life support equipment.
- DO NOT use if properly grounded outlets are not available.
- DO NOT cover the unit with anything for the prevention of overheating.
- DO NOT expose the unit to direct sunlight or place it near wall heaters, space heaters, radiators, or enclosed space prone to temperature increase.
- DO NOT put the unit on a bed or couch.
- DO NOT put the unit near inflammable or explosive articles.
- DO NOT use in high ambient temperature or high heat environment.
- DO NOT connect with any appliance which consumes high wattage or requires high power to avoid overloading, such as refrigerators, washer & dryers, dish washers, water heaters, vacuum cleaners, air conditioners, electric heaters, hair dryers, microwaves, cookers, etc. These should be connected directly to wall outlets instead.
- DO NOT disassemble or repair the unit.

IMPORTANT

- Be sure to check the current rating of AC outlets and USB ports to avoid overloading.
- USB charging ports may not work properly if the total current exceeds 2.4A. Overloading beyond 2.4A could cause damage to the USB ports. If you need higher USB charging power, please use the original device adapter.

GROUNDING PLUG

This unit has a grounded 3-prong electrical plug. It must be plugged only into a properly grounded 3-prong outlet. If the plug does not fit into the outlet, contact a qualified electrician. Do not attempt to modify the plug in any way.

FOR HOUSEHOLD USE ONLY
FOR INDOOR USE ONLY

PARTS AND FEATURES

- 1. RGB Light
- 2. 2 USB Charging Ports
- 3. 1 USB-C Charging Port
- 4. RGB Light Button
- 5. LED Indicator
- 6. 2 AC Outlets
- 7. Cord

USAGE

1. Plug the power cord into a properly grounded wall outlet. LED Indicator will illuminate to show the unit is working.

FOR USB POWERED DEVICES:

Plug desired USB powered devices into the USB charging ports. It is important to ensure that the rating of all devices added does not exceed 2.4A. Depending on each smartphone, B+H Fast Charging Station might be able to charge up to 2 or 3 phones, or iPad, MP3, digital camera, tablet.
Note: USB charging may not work if the total current exceeds 2.4A. If the charging process is inconsistent when charging multiple devices, please use charging adapters instead, or remove some charging devices if necessary.

FOR AC POWERED DEVICES:

Plug the electronic devices into an AC outlet. Make sure the devices total power usage does not exceed 125V/60Hz/10Amp/1250 Watts.

2. Press the LED Light button to turn on the White Light. Keep pressing to go through other lighting modes: Warm White Light, RGB Light and OFF.

TROUBLESHOOTING

Problem	Solution
No power to outlets	Make sure AC power cord is securely plugged into a proper grounded outlet. Unplug it for a moment, then plug it back it again. If it is still not working, check wall outlet functionally by plugging in another device.
USB charging not working	It is important to ensure all devices added rating not exceeding 2.4A. Depends on the individual smartphone's specifications, B+H Fast Charging Station might be able to charge up to 2 or 3 phones, or iPad, MP3, digital camera, tablet. USB charging may not work if the total current exceeds 2.4A. If the charging of the device appears to be inconsistent (when charging multiple devices), please use charging adapters instead, or remove some charging devices if necessary.
Charging Speed	Please be aware that there are varied reasons affecting charging speed: (1) Individual phone specification (2) Using original or certified charging cable 3) It is normal when charging multiple phones, iPhones tend to draw more charging current than other Android phones.

SPECIFICATIONS

Model Number: 6050END
AC Outlets: 2 Standard Outlets
Electrical Rating: 125VAC/60Hz/10Amp/1250 W
USB Charging Rating: 2 USB-A QC 12w / 1 USB-C PD 20w
Dimensions: 3.8 inches x 2.5 inches x 1.6 inches (9.65cm x 6.35cm x 4cm)
Weight: 0.67lbs (305g)
