

FULLY HYDRAULIC EVEREST SNOW PLOW

SKU # EVST9022 | UPC # 826518005579

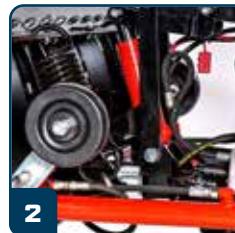

DESCRIPTION

This prosumer, fully hydraulic snow plow kit provides you the opportunity to clear your parking lot, driveway, or lane way whenever required. With our fully hydraulic system you can raise, lower, and angle the snow plow blade from inside your vehicle using our wired hand held remote. For extreme durability against the elements and rust, SnowBear® combines an industrial powder-coated paint finish on the blade with hot dipped galvanized hardware components to keep your plow looking new for years.

The plow itself simply clips to a SnowBear® custom fitted vehicle mounting system and can pretty much mount to anything that's fit to push snow.

SPECIFICATION

ITEM NUMBER	EVEREST • EVST9022
BLADE DIMENSIONS	88" (W) x 22" (H) 223.5 cm (W) x 55.9 cm (H)
ASSEMBLED WEIGHT	425 lbs (192.8 kg)
SHIPPING WEIGHT	450 lbs (204.1 kg)
SHIPPING DIMENSIONS	48" (L) x 42" (W) x 40" (H) 121.9 cm (L) x 106.7 cm (W) x 101.6 cm (H)

ANGLING SYSTEM	Hydraulic, multiple positions
CONTROL SYSTEM	Wired remote control to lift, lower and angle left or right
VEHICLE MOUNTING SYSTEM	Custom bolt-on mounting brackets <i>*Sold separately</i>
SCRAPER BLADE	Powder-coated steel, replaceable
INCLUDED	Snow deflector, skid shoes

FEATURES

- 1 Ships partially assembled (mount & wiring required)
- 2 Simple bolt on custom fitted mounting brackets, no drilling or welding required (sold separately)
- 3 Hydraulic system lifts and lowers blade
- 4 Light weight, no need to alter stock suspension
- 5 Black UV powder coated components with an industrial painted blade skin
- 6 Self-leveling foot provides max blade tip clearance when the blade is fully raised
- 7 Skid shoes to assist guiding the blade edge over uneven terrain or from possibly marking those more delicate driveways
- 8 Snow deflector to assist directing snow minimizing windshield spray
- 9 Wired hand held control
- 10 Blade hardware holds the hydraulic pump so it can be rolled away from the vehicle rather than being left on the truck with the mount
- 11 Thicker trip springs to ensure tension remains strong and coils tight
- 12 Existing holes in plow frame make it easy to add bolt-on accessories
