Classic® Shingles

Classic® three-tab shingles offer everything you need in a great roof—solid value and durability. They carry a 20-Year Limited Warranty*, 60-MPH Wind Resistance Limited Warranty* and Class A UL Fire Rating—the industry's highest rating.

ENERGY STAR® is for roofs too

Similar to the energy-efficient appliances in your home, roofing products can provide energy-saving qualities. Owens Corning™ Classic roofing shingles in Shasta White can help reduce your energy bills when installed properly. These shingles reflect solar energy, decreasing the amount of heat transferred to a home's interior—and the amount of air conditioning needed to keep it comfortable. Actual savings will vary based on geographic location and individual building characteristics. Call 1-800-GET-PINK® or 1-888-STAR-YES for more information.

Classic® Shingles are a component of the Owens Corning™ Total Protection Roofing System™^

The most important part of the roof? All of them.

It takes more than just shingles to protect your home. It takes an integrated system of components and layers designed to withstand the forces of nature outside while controlling temperature and humidity inside. The Owens Corning™ Total Protection Roofing System™^ gives you the assurance that all of your Owens Corning™ roofing components are working together to help increase the performance of your roof — and to enhance the comfort and enjoyment of those who live beneath it.

^ Excludes non-Owens Corning™ roofing products such as flashing, fasteners and wood decking.

Shasta White color meets ENERGY STAR® requirements for initial solar reflectance of 0.25 and 3-year aged solar reflectance of 0.15; 2013 California Building Energy Efficiency Standards; Title 24, Part 6 requirements; Rated by the Cool Roof Rating Council (CRRC).

*See actual warranty for complete details, limitations and requirements.

†Owens Corning strives to accurately reproduce photographs of shingles. Due to manufacturing variances, the limitations of the printing process and the variations in natural lighting, actual shingle colors and granule blends may vary from the photo. The pitch of your roof can also impact how a shingle looks on your home. We suggest that you view a roofing display or several shingles to get a better idea of the actual color. To accurately judge your shingle and color choice, we recommend that you view it on an actual roof with a pitch similar to your own roof prior to making your final selection. Color availability subject to change without notice. Ask your professional roofing contractor for samples of colors available in your area.
