Install by threading the Adapter onto any outdoor faucet. Do not use a wrench or over tighten.

Finish by connecting 1/4in. Vinyl to the Barbed outlet at the end of the Adapter.

This Adapter makes running a line of Drippers through your landscape or on your patio easy by attaching the 1/4in. Vinyl directly to your outdoor faucet.

Con este convertidor, puede disminuir significativamente el consumo de agua debido a que los microaspersores, los goteros y las tuberías de goteo en línea riegan su jardín más eficazmente.
