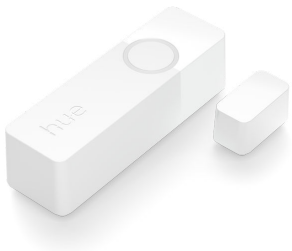
PHILIPS

Secure contact sensor

Hue

- Wireless installation
- Automates your light
- Long battery life
- Mounts on doors and windows



046677580995

Easy smart lighting

Get peace of mind both home or away with the Secure contact sensor! Place it on doors, windows, cabinets, safes, and more with the included adhesive backing — and a receive notification or even turn on the lights when the sensor is opened.

Easy smart lighting

- Keep an eye out from anywhere
- Trigger your lights
- Get it all with the Philips Hue Bridge

Highlights

Keep an eye out from anywhere
No matter where you are, you can keep an eye on your home. Get real-time alerts directly on your mobile device when a sensor is opened. Feel suspicious? Trigger a light alarm with the Hue app. You can even see what time the sensor was last triggered and if someone has tampered with it.

Trigger your lights
Use the Secure contact sensor to turn your lights on when it opens — perfect for frequently used areas. Have the hallway light turn on when the front door opens, for example.

Get it all with the Philips Hue Bridge
A Bridge gives you the full suite of smart home security features: light and sound alarms, the mimic presence automation, and the ability to expand your home security — or smart lighting — setup.
