| 2. USB cable charging cable x1 | 4. User manual x1 |

Battery Charging

1. Please charge the battery fully before first use.
2. Connect your USB adapter (Use Output 5V ONLY!) to the speaker using the charge port on the underside of the light. During battery charging the indicator will be red.
3. Charge the speaker until the indicator light is green. Cover the charge port after it is fully charged.
4. After the battery has been charged, turn on the speaker using the ON/OFF button on the underside. The indicator should be blue. Then follow Bluetooth function instructions.

NOTE:

1. The built-in battery is not replaceable. Please do not remove or replace it in the trash. If you must dispose of this speaker, bring it to your local recycling center.
2. Disconnect the external adapter from the charge port when not in use or when the speaker is fully charged.

Bluetooth Function

1. Make sure the battery is fully charged before attempting to connect the first time.
2. For stereo sound, it is possible to connect and pair up to 2 speakers to your device at the same time.
3. To connect the 1st speaker, press the ON/OFF button on the bottom of the speaker. There will be an audible activation beep and the blue indicator light will flash.
4. On your phone/smart device, turn Bluetooth to ON and select "KBPB Speaker Lantern" from the device list. Once your device is connected, you will hear a second audible beep from the speaker and the indicator light will be blue.

PAIRING Max. 2pcs:

- 1) To connect with the 2nd speaker, press and hold the ON/OFF button on both speakers. You will hear a beep sound from the speakers. The one on which the Bluetooth indicator light flashes rapidly, will be the main unit. The other one will flash slowly, to become the secondary unit.
- 2) Now repeat Point 4 above to connect the Bluetooth on your phone. Once connected, the Bluetooth indicator light of the main speaker will stay blue. Both indicator lights will turn off automatically when music is playing.
- 3) To cancel the pairing, press and hold the ON/OFF button until a beep is heard.
- 4) To turn off the Bluetooth function, press the ON/OFF button.

TROUBLESHOOTING

1. Under Pairing mode, short press the ON/OFF button on the main unit. The secondary unit's music will be off but the light is on; Turn off the secondary unit, the main unit's music and light will keep working individually and out of the pairing mode in 10 seconds.
2. To switch the Main unit setting, disconnect the Bluetooth in your device list firstly and then long press the ON/OFF on the new unit that you want to be the main unit.
3. If your Bluetooth device is more than 30ft away from the main speaker, they will disconnect. If you move the main speaker within 30ft, then they can be paired automatically and resume playing music. If you move the secondary speaker more than 30ft(10 m) away from Bluetooth device and within 19ft of the main speaker, the secondary can still play music. If you move secondary more than 19ft away from the main unit, it can not play music. They can pair automatically and play music again when you move it back within 19ft.
4. This LED BT Speaker Light has a memory storage function (if the batteries are not fully exhausted), when you turn on speaker, the light and speaker will maintain the same settings and pairing as the last time used. If the battery is exhausted there will be no memory storage function and you will need to pair the speakers.

SETTING TIMER

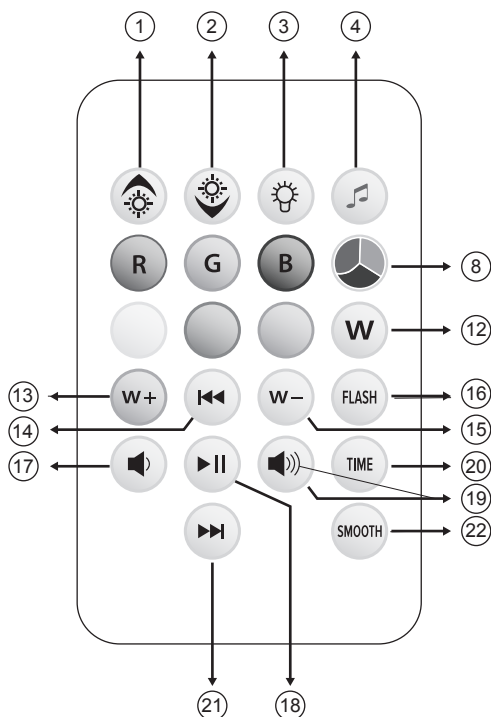

The Timer function allows the product to automatically turn off after a set amount of time. In order to set the timer, press the TIME Button (located on the Remote Control) once to change color, each color indicates a different Timer Duration. The Speaker will stay lit the LED Color that is chosen for the entire Timer Duration. Follow the Guide Below:

LED Color	Timer Duration
