# Parts List

# Hardware Usage Guide

## HOWTO USE A CAM LOCK & CAM BOLT OR CAM DOWEL

! NOTE: CAM BOLT or a CAM LOCK may be used.

Cam bolt

Turn the CAM BOLT until the shoulder is against the surface of the part.

"!

Cam lock

Push a CAM LOCK into the part. The arrow in the CAM LOCK must point toward the hole in the edge of the board.

#! Insert the CAM BOLT into the CAM LOCK. Tighten the CAM LOCK.

\$! The provided glue is to secure wood dowels in place. When first inserting dowels, locate the appropriate hole for the dowel, place a small amount of glue in the hole and insert the dowel. Wipe away excess glue immediately.

In future assembly steps when dowels are necessary to attach assembly parts together, place a small amount of glue on the end of the dowel before attaching parts together. Wipe away excess glue immediately.

# Hardware List

- Carefully remove all the parts from the carton and place them individually on a softcloth to prevent scratches or other damage.
- Carefully and strictly follow these assembly&installation instructions to ensure acompleted product as designed.
- Do not tighten all the screws until each part is properly assembled.

Number	Parts	Quantity	Number	Parts	Quantity

## Step 15

### To adjust the vertical height.

Loosen the four screws "A" on both hinges. Two of them are usually in slotted holes which allows you to adjust up or down by a few mm. Then tighten back up.

### To adjust depth.

Loosen screw "B" and adjust door, if the door can not be adjusted, please loosen screw "C", then try again. Tighten screw "B" and "C".

### To adjust side ways.

Turning the screw "C" on BOTH hinges on each door.
