Rugged. Affordable. Durable.

TWO-WAY GAS LOG SPLITTERS - FULL BEAM

Throw your most demanding log-splitting jobs at this Full Boar 20-ton two-way gas log splitter and watch your woodpile grow! Powered by a reliable 209cc engine and featuring a compact full-beam design, this affordable workhorse handles logs up to 20" long and 16" in diameter with power, and durability. Rugged, portable, and built to keep splitting season after season.

FEATURES & BENEFITS

- ▲ An auto return control valve with adjustable detent saves time and effort.
- ▲ Flat-free tires for hassle-free use and long-term reliability.
- ▲ Compact integrated beam-and-tank design saves space and makes transport easier.
- ▲ Specially designed wide-angle wedge splits logs more efficiently with less effort.
- ▲ 10.5 GPM two-stage pump delivers faster cycle times and greater fuel efficiency.
- ▲ Heavy-duty 45mm piston rod enhances cylinder strength for more powerful splitting.
- ▲ Ergonomic handle design for easy and smooth transport.
