

# MoPAD™

MONITOR ISOLATORS

MoPADs™ DECREASE STRUCTURAL RESONANCE,  
YIELDING REDUCED COLORATION  
AND INCREASED CLARITY!

For more information on MoPADs™, scan the QR Code above.

MoPADs™ are designed so that they can be used to support virtually all sizes of bookshelf loudspeakers or recording monitors up to 100 lbs. each.

MoPADs™ are affordable, easy to implement and very effective at decoupling your loudspeakers from your surface and all its contents. The patented design allows for 5 different positioning options.

MoPADs™ have been developed for maximum performance and longevity.

Using the included [MoPAD™ Wedge Adjusters](#), you can adapt your loudspeakers to listening angles of -8°, -4°, 0°, +4° and +8°.

## USE WHAT THE PROS USE!

"Shelves, furniture and meter bridges are not meant to support loudspeakers. Auralex MoPADs™ are and will improve the accuracy of your speakers!"

- Peter Moshay  
(Hall & Oates, Live at Daryl's House, Mariah Carey, Sean Lennon)

"MoPADs™ are a great, economical way to decouple your monitors from virtually any surface - you'll notice an immediate difference in staging, imaging & sound quality."

- Glenn Rosenstein  
(Madonna, U2, Talking Heads, Ziggy Marley)

### BENEFITS

- Reduces coloration
- Increases clarity
- Decreases structural resonance

### INCLUDES

- 4 Wedge pieces & 4 Adjusting wedges
- 1 set can accommodate 2 loudspeakers
- Designed to accommodate various sizes of Monitors, each set of [MoPAD™](#) will support a pair of Monitors
