

Aurora Series

Modern Sleek Register Vent

Aurora Series shown

The PRONOVA Products Aurora Series Vent is a 2 piece construction design. These vents can be seamlessly installed in floors, walls and ceilings, ensuring a clean aesthetically pleasing appearance without any exposed fasteners. The product offers a combination of functionality, durability, and sleek design, enhancing the overall interior environment.

Manufactured of durable UV Stabilized and FR Rated PC/ABS, these vents come in 2 different sizes and colors. The innovative one finger damper control feature allows users to easily adjust the airflow with a simple touch, enhancing comfort and convenience.

Key Features:

1. Versatile Installation: These register vents can be installed in floors, walls, or ceilings, offering flexibility and convenience for various applications.
2. Hidden Fasteners: Our innovative design eliminates the need for visible fasteners, resulting in a clean and seamless look.
3. One Finger Damper Control: The vents feature an intuitive one finger damper control mechanism, allowing users to adjust the airflow with ease.
4. Efficient Airflow Control: The adjustable damper enables precise regulation of the airflow to achieve optimal comfort.
5. Easy Installation: The product comes with a user-friendly installation system, enabling quick and hassle-free setup.
6. Aesthetic Appeal: The sleek and modern design of our register vents adds a touch of sophistication to any interior space.

Safety and Compliance:

1. Fire Safety: Our register vents are manufactured from FR-rated materials, ensuring flame resistance and compliance with fire safety standards.
2. UV Resistance: The UV Stabilized FR Rated PC/ABS material provides protection against UV degradation, making the vents suitable for both indoor and outdoor applications.
3. Quality Assurance: All products undergo rigorous testing and quality control procedures to ensure compliance with industry standards.
4. Environmental Considerations: The materials used in our register vents comply with relevant environmental regulations and are recyclable.

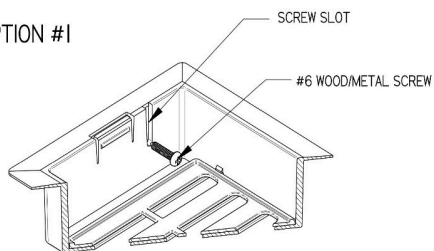

Technical Specifications:

1. Material: UV Stabilized FR Rated PC/ABS (polycarbonate/acrylonitrile butadiene styrene)
2. Available in Matte Black or White
3. Size Range: Available in standard sizes 3"x 10" and 4" x 10"

4. Damper Design: Adjustable one finger damper control mechanism
5. Installation Method: Recessed installation with hidden fasteners
6. Compatibility: Compatible with standard ductwork systems
7. Maintenance: Easy to clean and maintain with easy to remove front face.

Installation Drawings:

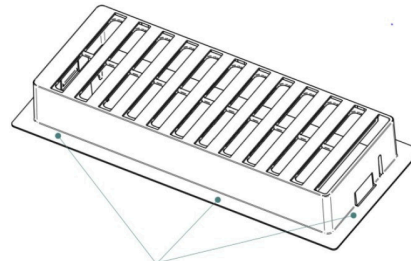

OPTION #1

* SCREWS MUST BE INSTALLED AT BOTTOM OF SLOT

* DO NOT OVER TIGHTEN SCREWS TO AVOID DISTORTING PART AND AFFECTING 'SNAP' FUNCTION

OPTION #2

* INSTALLATION OF BASE IN WALL CAN ALSO BE ACHIEVED BY USING AN ADHESIVE. ON THE FLANGE AREA OF THE BASE. ALLOW ADHESIVE TO DRY BEFORE INSTALLING FRONT GRILL INTO BASE.

Warranty: 30 days of delivery to receive a complete refund of the purchase price. It is necessary to ensure that the returned items are in their original condition and packaging.
