All Purpose

PLANT FOOD

10-10-10

DIRECTIONS FOR USE

WHEN PLANTING OUTDOOR FLOWERS OR VEGETABLES

Mix 2 TBSP Pennington® UltraGreen® All Purpose Plant Food 10-10-10 into the soil in the prepared hole before planting young plants. Be sure fertilizer is mixed into the dirt and doesn't contact roots directly. Reapply every 12-16 weeks. Water in well after each application.

FOR ESTABLISHED OUTDOOR VEGETABLE & FLOWER GARDENS

Apply 3/4 cup Pennington® UltraGreen® All Purpose Plant Food 10-10-10 for every 25 square feet (5 foot by 5 foot square) of growing area. Apply around plants and scratch into the dirt carefully to avoid disturbing the roots. Apply every 12-16 weeks during the growing season. Water in well after application.

FOR OUTDOOR SHRUBS

Apply 1/2 cup Pennington® UltraGreen® All Purpose Plant Food 10-10-10 for every 16 square feet (4 foot by 4 foot square) of growing area. Apply around plants and scratch into the dirt carefully to avoid disturbing the roots. Apply three times per year. Apply once in late winter, once in mid summer, and again in early fall. Water in well after application.

FOR PLANTS IN CONTAINERS

Apply Pennington® UltraGreen® All Purpose Plant Food 10-10-10 according to the chart on the right every 12-16 weeks. Add fertilizer to the surface of soil and scratch into the soil carefully. Avoid disturbing shallow roots. Water in well after application.

POT SIZE	AMOUNT	POT SIZE	AMOUNT
6 Inch	3/4 tsp	16 Inch	1/4 cup
8 Inch	1/2 tbsp	24 Inch	1/2 cup
10 Inch	1 tbsp	36 Inch	1 1/3 cup
12 Inch	2 tbsp	48 Inch	2 1/3 cup
