TALL FESCUE MIX

FOR NEW LAWNS OR OVERSEEDING

FOR AREAS GETTING
**2-6 HOURS
OF SUN**

SEE RESULTS IN
8-16 DAYS

COVERS UP TO **5,000 SQ. FT.** | **20 LBS**
9.07 Kilograms

COATED SEED This bag contains up to 53% coating material. See product label for more information.

SHADY LAWN TALL FESCUE MIX
FOR NEW LAWNS OR OVERSEEDING

COVERS UP TO **5,000 SQ. FT.**
20 LBS
9.07 Kilograms

BETTER ROOTS. BETTER RESULTS.

The roots of The Rebels® Brand dates back to 1979, when turf researchers at Rutgers University released a revolutionary new grass.

Known as 'Rebel,' it was the very first example of what's now known as turf-type tall fescue. Compared to traditional tall fescue, Rebel offered lower growth, finer texture, darker color and denser turf — plus the drought tolerance that makes turf-type tall fescue a homeowner favorite. Generations later, with up to 40 percent more roots* than ordinary grass, The Rebels® Brand Extended Root seed varieties represent the best turf-type tall fescue on the market. With roots like those, it's only natural that The Rebels® Brand carries the Pennington name.

IS SHADY LAWN MIX THE RIGHT SEED FOR YOUR LAWN?

Most grasses require at least four hours of sunlight to survive, which can make growing grass in shady areas a frustrating task. With the premium tall fescue varieties that The Rebels is known for, Shady Lawn Mix offers the ideal solution for these challenging areas.

FEATURED CHARACTERISTICS OF
SHADY LAWN

IDEAL FOR
NEW LAWNS
OR
OVERSEEDING

sun requirement 2-6 HOURS	planting depth 1/4"	see results in 8-16 DAYS	mowing height 3"
-------------------------------------	-------------------------------	------------------------------------	----------------------------

SUN TOLERANCE

GOOD

SHADE TOLERANCE

EXCELLENT

DROUGHT TOLERANCE

EXCELLENT

DISEASE RESISTANCE

VERY GOOD

TRAFFIC RESISTANCE

EXCELLENT

WHERE WILL THIS
SEED GROW BEST?

WHEN SHOULD THE
SEED BE PLANTED?
Early Spring or early Fall

■ Ideal planting zone in highlighted area

HOW MUCH SEED
SHOULD BE USED?

New Lawns	12 lbs / 1,000 sq ft
Overseeding	4 lbs / 1,000 sq ft

4 EASY STEPS FOLLOW THESE INSTRUCTIONS TO WOW YOUR NEIGHBORS

EN CUATRO PASOS SENCILLOS: Siga estas instrucciones para impresionar a sus vecinos

STEP 1

NEW LAWNS

OVERSEEDING

PREPARE

FOR BARE SPOTS/NEW LAWNS:
Remove debris, then rake the soil to loosen and smooth the top layer.

PARA ZONAS CON HUECOS O CÉSPED NUEVO: Retire los desechos y luego rastrille la tierra para aflojar y suavizar la capa superior.

FOR OVERSEEDING/THIN AREAS:
Start by mowing existing grass as short as possible followed by removing debris. Then rake the soil to loosen and smooth the top layer.

PARA RESIEMBRA O ZONAS DELGADAS: Corte el césped existente lo mas corto sea posible y elimine los desechos. Luego, rastrille la tierra para aflojar y suavizar la capa superior.

STEP 2

APPLY FERTILIZER

Apply a starter fertilizer at the manufacturer's recommended rate.

APLIQUE UN FERTILIZANTE: Aplique la cantidad de fertilizante recomendada por el fabricante.

STEP 3

APPLY SEED

Spread the seed evenly using a drop, rotary or hand-held spreader according to the recommended spreader settings listed. Rake gently to work your seed & fertilizer into the soil.

APLICACIÓN: Disemine las semillas de manera uniforme con un esparcador de caída, rotativo o manual, de acuerdo con las configuraciones recomendadas y enumeradas del esparcador. Rastrille suavemente para que las semillas y el fertilizante germinen en la tierra.

STEP 4

WATER

Keep the soil moist by watering daily as needed until grass sprouts and reaches about 3" tall.

RIEGUE: Mantenga la tierra húmeda al regar lo que sea necesario por día hasta que el césped brote y alcance alrededor de 3 pulgadas (7,62 cm) de alto.

ADDITIONAL CARE TIPS

1

Mow lawn when grass height reaches 3" tall

2

Avoid removing more than 1/3 of the total grass blade length in any single mowing

3

Hot summers can be stressful on your lawn; increase the mowing height during hot and dry periods to reduce stress on your lawn

MOST IMPORTANTLY - Don't kill the grass before it starts by using weed control (pros call it preemergent) on your lawn until your grass has reached its full mowing height of 3"

RECOMMENDED SPREADER SETTINGS		
SPREADER TYPE	OVERSEEDING/ THIN AREAS	BARE SPOTS/ NEW LAWNS
Expert Gardener™ Push Seed Spreader	13	15"
Scotts® Turf Builder® EdgeGuard® Mini Broadcast Spreader	10.5	15"
Scotts® Whirl® Hand-Held Spreader	5	N/A
Sta-Green® 32-lb Broadcast Spreader	9.5	15"

NOTICE: Arbitration/conciliation/mediation required by several states. Under the seed laws of several states, arbitration, mediation, or conciliation is required as a prerequisite to maintaining a legal action based upon the failure of seed, to which this notice is attached, to produce as represented. The consumer shall file a complaint along with the required filing fee with the commissioner/director/secretary of agriculture, seed commissioner, or chief agricultural officer within such a time as to permit inspection of the crops by the designated agency and the seedman from whom the seed was purchased. A copy of the complaint shall be sent to the seller by certified or registered mail or as otherwise provided by state statute.
