

Van Zyverden's **CALLAS FLAME**

Calla (*Zantedeschia*) lilies are extraordinary flowers, native to Southern Africa, and are grown from rhizomes. They can be grown in beds, borders, in containers and indoors in a sunny window. Perfect for a cutting garden and beautiful indoors in your nicest vases.

*Very popular cut flower,
coveted by florists*

*Trumpet shaped blooms
2-3" across*

Enjoy as a house plant

About This Variety: Flame produces yellow orangey blooms and is a highly sought after variety.

Growing Instructions: It is easy to grow callas. They prefer loose well-drained soil, planted in full sun or partial shade in warmer climates. Plant after threat of frost has passed. The 'eyes' or growing points should be facing upwards when planted. Water liberally during the growing season as they should not be dry at any time. Three bulbs will usually fit a 10-12" pot.

Care Tip: Calla bulbs are only summer hardy, so be prepared to dig them up in fall or treat them as an annual in areas receiving frost in the winter.

Exposure: Full sun to partial shade

Height: Grows 12-36" tall

Spacing: Plant 12-24" apart, 4" deep

Hardy in: USDA zones 8-10

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
