

You are one palm tree away from paradise with the Everson 3-piece set by Mōd. The collection includes 2 chaise lounge chairs and 40,000 BTU fire pit table. While the clean design of the chaise lounge chairs may be minimal and modern, they provide maximum comfort, crafted with padded sling fabric. The chairs also provide maximum versatility—the adjustable chair back allows for various levels of lounging and then can fold up completely into a third of its size for easy storage at night or off season. Although you may not want to store these chairs because you will be too busy enjoying your fire pit. The compact and clean gas fire pit is easy to use with push-button ignition and flame control, while its fuel tank is neatly concealed within the durable powder-coated steel frame, and accessible through a convenient access door. The ceramic tile tabletop surrounding the burner pan doubles as a modern coffee table and when not in use, cover the burner with the included lid for added surface space. Created with all-weather materials, your backyard will be your outside oasis for years to come.
