This warranty is your sole remedy and Ponte Giulio shall not be liable for any damages (whether direct, incidental, special, consequential, exemplary or otherwise, including lost revenues and lost profits) arising out of any theory of recovery, including statutory, contract or tort. Notwithstanding the term of any limited or implied warranty, or in the event that any limited or implied warranty, or in the event that any limited warranty fails of its essential purpose, in no event will Ponte Giulio's entire liability exceed the purchase price of this product, some states and provinces do not allow the exclusion or limitation of incidental or consequential damages so the above limitations or exclusions may not apply to you this limited warranty gives you specific legal rights, and you may also have other rights which vary from state to state and province to province. Ponte Giulio assumes no liability for any personal injury or property damage caused by improper assembly, installation or use of this product.

### INSTALLATION

The installation of the device must be carried out only by competent and qualified personnel who will have to use the most suitable fixing screws according to the various types of walls. Installers must make sure that the wall by the fixing plate is perfectly flat, without any protruding joints or tiles, that the wall's structure is suitable for fixing the safety support and that there are no weak points. Only use 4 screws for each fixing plate. The omission or non efficiency of one screw will dangerously reduce the safety support's load resistance. The omission or non efficiency of 2 or more screws does not guaranty the device's resistance. The screws in the packaging are suitable only and exclusively for wood stud application. For other wall types please contact the technical department of Ponte Giulio

Before use to verify the correct assembly of the device by simulating the use.

The tilting must be only by a slight effort of the user.

Periodically check the tightening of the screws as shown in Figure 16

### CLEANING AND MAINTENANCE

DO NOT USE abrasive liquid detergents. Chlorine ( Bleach ) does not improve the aseptic aspect of the equipment and could lead to opacity and deterioration of the material.

DO NOT USE hot air with a temperature over 80°C ( 175°F ) for drying the device.

### DISPOSAL

The user is responsible for disposal, which must be carried out in compliance with the laws of the country of installation. The devices are not manufactured with substances that are harmful or hazardous to health and the environment. All their components are recyclable and/or reusable. In order to protect the environment, the device is manufactured with percentages of recycled materials.

For proper disposal, it is necessary to separate the plastic and Pvc from and place them separately to authorized collection centers.

In case of any doubts, refer to the technical department of Ponte Giulio

The device was designed and constructed to facilitate the use of the bath for the elderly or with disabilities or limited mobility, offering them a solid support
