

**OSRAM SYLVANIA Products Inc.**  
**Halogen Bulbs**  
**Use and Care**

The high-pressure light source inside this lamp may continue to light even if the outer glass bulb is damaged. If damage occurs, the bulb must be replaced immediately to avoid risk of personal injury and/or property damage. This bulb produces radiant heat. Do not operate in close proximity to combustibles or materials affected by heat or drying. Turn bulb off and allow to cool before removal to prevent burns or electrical shock.
