

This cute "country home" playhouse has a red wood roof and front porch dormer. Just like our other playhouses, this one is all cedar and has shutters and mutton bars on the windows. There are white accents everywhere including large shutters on the side. There's a bay window on one side and the rear. The other side has a snack window with large country shutters that really open and close! An attached bench lets the gang relax while enjoying refreshments. And there's more! Inside there are fun play accessories including a stove, sink, phone, and clock. There's even a doorbell so the kids can ring it as much as they want! The kids will play for hours!

**Dimensions:** 5' 8" W x 5' 4" D x 5' 8" H
