ROCK

NextStone™ polyurethane is uniquely formulated with UV inhibitors and fire retardants. Proprietary in mold coatings are chemically bonded with the molded surface of the panel. Panels can be cut using common woodworking tools.

Interlocking screw attachment strip and ship lap grout strip

Tongue and groove top-to-bottom interlock.

The Screw Attachment Strip acts as a guide for screw alignment. The top panel fits over the bottom panel to secure the panel firmly to the wall. The overlap design hides all screw heads with **NO CAULKING REQUIRED.**

Side to side overlap.

Air flow designed panel back

Specially designed weep channels and recessed air chambers allow airflow behind the panel.

FACE

NextStone™ Random Rock Panel

Available in seven designer colors. Random Rock panels are 15½" x 48" x 1½" and cover 4.75 square feet. Stones vary from 3½" to 7½" in height.
